RE KITCHENER DAY.

Editor World: Sir, permit me to point-out to the citizens of Toronto the reason for tag day and the necesfor a most liberal response To recruit a battalion up to strength under present conditions in Toronto takes in addition to the funds furnishthe government, from \$12,000 to \$20,000, according to the completeness of equipment. Even with the most economical equipment it takes about \$12,000 extra, all of which has to be furnished by the officers or their friends and well-wishers. There are now seven or eight battalions recruit-ing in Toronto, and there are five or six already recruited who are out of pocket a portion of the above amount. The Citizens' Recruiting League aims at supplying every battalion with \$2000, including what has been already paid to some. In addition the leagues are striving to raise \$500

each home battalion and a surplus for other battalions soon to be organized. In all \$24,000 is needed, Will your readers help? Let every man and woman who

cannot enlist contribute \$5, the minimum at which any recruit is obtained. and then some battalion will be able to get a man in your place. There are no expenses except the purchase buttons, boxes and a little advertising. The organizers' work is all done free. The buttons are specially designed and will be much prized. Thanking you, Mr. Editor, for the space you have so generously given for publicity, and earnestly hoping for publicity, and earnestly hoping and believing that our citizens will imitate your example and generously

TOMMY AND LLOYD NOT STARVING

COTTAWA, May 2.—While Russell and Lloyd Harris of the Russell Motor Car Co. are figuring in the evidence given before the Meredith-Duff commission as being turned down on fuse contracts by General Bertram and Colonel Carnegie it ought not to be forgotten that the Imperial Munitions Board (J. W. Flavelle, chairman) have, since they took over the business, given contracts for at least a couple of million dollars' worth of fuses to the company of Mr. Russell and Mr. Lleyd Harris, and that they are understood to be busy on the work now at West Toronto. Perhaps they are making some of them in the States.

FREE EDUCATION IS NEEDED IN INDIA

Women Loyal to Empire and Are Interested in Patriotic Work.

An interesting address on India was given at a meeting of the Canadian Business Women's Club, in the faculty of education building last night, by Miss Kathleen Mullen of Bombay. She referred especially to the need of com-pulsory free education in that country, there being 37,000,000 children of sch age, and out of this number only 7,000,-000 were receiving education. Miss Mullen pointed out that great progress was being made in breaking the caste

HUGE EARNINGS MADE BY SHIPPING COMPANY

International Mercantile Marine Piles Up Profits.

NEW YORK, May 2.—P. A. S. Franklin, receiver of the International Mercantile Marine Co., today filed with Judge Hough in the U. S. district court his third report, which covers operations of the shipping company for the first quarter of the calendar year.

According to the statement submitted operating earnings aggregated \$1,775,742, the net results, deducting expenses, amounting to \$1,513,047.

The receiver estimates that combined total earnings of the property under his control, including the Leyland Line, for the first quarter aggregate \$13,724,765.

From these earnings, he states, must be deducted bond interest of the International Mercantile Marine Co., depreciation, the British war tax and a certain amount for the British income tax.

OTTAWA, April 29.—The census and statistics office has issued in the form of a press bulletin a summary of the results of enquiries into (a) the merchantable quality of the field crops of 1915; (b) the stocks of grain and other agricultural produce of 1915 remaining in farmers' hands on March 31, and (c) the stocks of wheat in Canada on the same date.

The returns received from the crop reporting correspondents show that of the total estimated wheat crop in 1915 of 376,303,600 bushels, over 95 per cent., or 358,281,000 bushels, proved to be of merchantable quality. This proportion compares well with the previous years, being superior to last year by about 2 per cent., and somewhat above the average of the past seeve years.
