L. ST. PRICES RE REACTIONARY

ey Rates Stiffening is Cause of Renewed Selling.

York, Sept. 30.—Reactionary movements prevailed at the opening of the stock market, further apparently being induced by the stiffening of money rates. Initial sales were small. Oil sold to react on unfavorable trade and the low and medium priced oil back on profit-taking.

Real, Sept. 30.—Early trading was very dull this morning, and during the first half hour not one of the displayed securities was touched. Only change worth mentioning being a quarter point drop to 40 1/2 in United States bonds, which were yesterday established a peak price for all time by selling at 40 1/2. Steel, Standard Oil, and Montreal Trams were all unchanged at 44 1/2, 144 1/2 and 175 respectively.
