HUNT LEAVES WORLD TO BE JESUIT NOVICE

Paris, Nov. 12.—An unfortunate love affair is the explanation of the disappearance of the Count de Castillon de Belloy, who was a prominent figure in the Parisian circles, famous as a balloonist, and one of the pioneers in French aeronautics, being one of the first to attempt to make a flight in an aeroplane.

without a word of explanation to his friends, the count has hidden his identity under the name of Brother Eustache and is occupied throughout the day in the menial labors which fall to the lot of the Jesuit novice in an English religious school, which he entered about two months ago with the intention of joining the order.

Strike Cripples Industries London, Nov. 12.—Advices from New Zealand regarding the shipping strike are of a serious character. So far as Auckland is concerned it appears that practically every form of industry has been brought to a standstill and the men's federation is now organizing for a general strike, though, says the Times, it is doubtful whether this can be accomplished.

The waterside workers at Picton and Nelson have struck and the trades unions at Wellington and Christchurch have decided to subsidize the strikers.

It is certain, adds the correspondent, that the present state of affairs cannot continue long without producing a very serious crisis.

"THE MYSTERIOUS MAN" PLEASES GEM AUDIENCE

Clever Detective Story in Two Reels Shows Inner Workings of Secret Service—Well Varied Programme

There is always something of an appealing nature about a detective story. It is a good one, but when the story is enacted before one's eyes by a clever company of players, it is much more interesting. Such was the case yesterday at the Gem Theatre, when the lower-reel detective drama, "The Mysterious Man," was presented to well-pleased audiences.

It proved to be a drama of exceptional interest, with a cleverly worked theme, bristling with mystery until the close, when all details were explained in the manner that detectives of the secret service do things. It was replete with adventure, but there were pleasing love touches, and it gave much pleasure to those who saw it. It will be repeated this evening, as will the Lubin comedy, "Getting the Best of Dad," and an eductive feature, "The Coconut Industry."

A. Altres, the new workhorse at the Gem, has scored a distinct hit, while H. W. Burnham, the new leader of the orchestra, has made a splendid improvement in the musical features of the programme.

IF BACK HURTS BEGIN ON SALTS

Fish Your Kidneys Occasionally If You Eat Meat Regularly

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which clogs the kidney pores so they sluggishly filter or strain only part of the waste and poisons from the blood, then you get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, constipation, dizziness, sleeplessness, bladder disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of swelling, get about four ounces of Jad Salts from any reliable pharmacy and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then be free of those annoying uric acid deposits.

Jad Salts is inexpensive and careful attention makes a delightful beverage. It is made from the acid of grapes and lemon juice, combined with lithia and has been used for generations to flush out the kidneys and stimulate them to activity, also to neutralize the acids in urine, so no longer causes irritation, thus ending bladder disorders.

REMARKABLE PLAY AT THE OPERA HOUSE THIS WEEK

F. Marion Crawford's "The White Sister" Drawing Large Audiences

The best proof of the popularity of the Stock Company and their offering the current week is the fact that the business is almost double that of any previous week so far. "The White Sister" is possibly the strongest melodrama offering that will be presented during the entire season and no Opera House or not, should miss the chance of seeing this unusual work. Those who contemplate taking advantage of the fine staging and fine acting in this drama should secure their seats well in advance as indications point to a large attendance the latter part of the week.

Miss Brandt and Mr. McHenry, are particularly strong in their respective roles and give fine support by the entire company.

A MODERN MIRACLE

He had Ecceza 25 Years and Doctors Said "No Cure"

Yet Zam-Buk has Worked Complete Cure

This is the experience of a man of high reputation, widely known in England, and whose case can readily be investigated. Mr. T. M. Marsh, the gentleman referred to, lives at 101 Dufferin Avenue, Montreal, and has lived there for years. For twenty-five years he has had eczema on his hands, wrists, and face, which, when scratched, became painful. But seven weeks after he was discharged, and the discharge spread disease until hands were one raw, painful mass of sores. This state of affairs continued for twenty-five years!

In that time four eminent medical men tried to cure him, and each gave up the case as hopeless. Naturally, Mr. Marsh tried remedies of all kinds, but his, also, at last gave it up. For two years he had to wear gloves day and night so terrible was the pain and itching when the air got to the sores.

Then came Zam-Buk! He tried it, just as he had tried hundreds of remedies before. But he soon found out that Zam-Buk worked. He was absolutely permanent. From the day that I was cured to the present moment I have had no trace of eczema, and I feel sure it will never return."

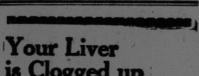

If you suffer from any skin trouble, cut out this article, write across it the name of this paper, and mail it with one cent stamp to pay return postage, to Zam-Buk Co., Toronto. We will forward you by return a free trial box of Zam-Buk. All druggists and stores sell this famous remedy 50c. box, or three for \$1.25. Refuse harmful substitutes.

GATHERING WORMS.

(London Tit-Bits) Among the many curious trades that are carried on in different parts of the country that of worm-gathering is one of the most weird, but certainly one of the most remunerative. The chief centre of this strange industry is Nottingham, upon which the anglers of England depend chiefly for their supply of red worms. They are the most tempting bait for certain classes of fish, and to catch the worms requires almost as much skill as to hook a fish.
