Kent Co.

Bass River, July 11.—The picnic held here yesterday in the Greve was a success financially and etherwise. The tables were bountifully provided with strawberries, fresh meats, salmon, cakes, etc., etc. Ow-ing to counter attractions at Kingston on the 12th the crowd was hardly as large as anticipated. Three-legged, sack and petato races were engaged in. The prizes were hetly contested for. The potate race and the married men's race were especially enjeyable. Great credit is due the ladies who se faithfully presided at the tables and booths, and to the men, young and old, who assisted in preparing the grounds. Fruits, drinks, confections were in abundance, and everybody went away to patiently wait for the pionic in the eld Grove this time next year. Receipts, a trifle over \$120.

DeWitt have fermed a rare combination and will give exhibitions of their

skill in walking a slack wire and other acts in juggling through the country. They gave a performance in the temperance hall, which was well received.

Westmorland Co.

Monoron, July 11 -The annual meeting f the steckholders of the Moncton Gas Light and Water company was held yester-day. The statement of the year's business was highly satisfactory, enabling the pay-ment of a half-yearly dividend of 4 per cent. The old beard of directors was reappointed, namely: John L. Harris, president; C. P. Harris, treasurer; Josiah Wood, M. P. P. (Sackville), C. W. Weldon (St. John), John A. Humphrey, J. W. Binney and LeB. D. Lookhart.

The pelice court receipts last menth amounted to \$165 25, including \$105 Scott act fines and costs.

At last night's meeting of Westmorland Ledge, Knights of Pythias, the gratifying statement was made that the property of the ledge is now completely clear of debt, while \$300 was expended during the past year for the relief of sick brothers and their families.

Monoron, July 13.—There is ceneiderable excitement around teday about the reports in regard to the Memramcook gold mine. A clean-up was made this week. One report said the result was three dollars per ton; another report three cents. The latter proved to be correct, about 1,100 tons et quartz yielding about twenty dellars, or less than two cents per ton. To say that the steckhelders are disappointed is putting it mildly. About thirty thousand dellars has been invested in the stamp mill, and samples tested were alleged to have yielded as high as three dollars and seventeen cents per ton. It is likely a meeting of the directors will be summoned at ence to consider the situ-

MONCTON, July 15.—The overhead bridge across the I. C. R. track at Killam's hill, scratch and another with its tail broken.

Mr. Killam's less is five hundred dollars. Mr. Killam's less is five hundred dollars. The man who was driving the cows escaped without being hurt, feeling the bridge shake before it went down and running for his life. The bridge fell twenty-five feet. It was twenty years eld, and had for some time been considered unsafe. But as it was only a farm bridge, it was allowed to be built instead of level assets. instead of level crossing en account of the deep cutting and the railway authorities contended that Mr. Killam should keep it in repair. It is not likely new the bridge will ever be rebuilt.
SHEDIAC, July 15.—The death occurre

this morning of Postmaster Chip W. Smith, at the age of 65 years. Mr. Smith, who was a brother of the late Sir Albert Smith, has been in peer health for seme time, and his death has net been altegether unexpected. He was appointed pestmaster in 1876, to succeed W. C. R. Welden. He married a daughter of the late T. A. S. DeWolfe of Halifax, who died a few years age. Deceased leaves three daughters, namely, Mrs. Newman of Cardiff, Wales; Mrs. Smith of New Westminster, B. C., and Miss Carrie Smith, who resided with her father at Shediac.

Albert Co.

HOPEWELL HILL, July 10.—The S. & H. railway began running the regular train by the new time table yesterday for the first. In some respects the new arrangement has advantages ever the old, but in ethers the reverse is the case. The mails frem the city arrive with the same dispatch as fermerly. The many friends of Cenductor Downing are glad to find him sufficiently recevered from his injuries received at the Albert bridge disaster to be able to be at his post again. Trains are new running ever the new bridge above Hillsbero.

The crops of grass, grain and potatoes are growing very satisfactorily, though rain would be beneficial. English having will

ome on in a fortnight.

Mrs. Leenard Stiles of Wellaston Heights, Mass., tormerly of this place, came to the village yesterday to make arrangements for the disposal of her property here.—Mrs. John B. Magee of Meuntville left last week Jehn B. Magee of Meuntville left last week fer Beston, where Mr. Magee is located. Capt. Jehn Robinson of the brig Herbert, new at the Fathom, is spending a few days at his eld home here. Clarence Towse of Sackville, sen of the late Capt. Towse, is a

passenger on the brig to Barbades.—Schr. Jessie is caulking at the Bank.

Hopewell Hill, July 12.—The Albert county Orangemen celebrated the "glerious twelfth" teday in reyal style at Riverside. The weather was delightfully cool. The procession, which started at half-past ten, passed along the lower street to Albert, one passed along the lower street to Albert, one mile distant, returning by the upper street to the hall at Riverside. The parade was headed by J. deVeber Neales, grand secretary, on an iron grey steed, and E. A. Bleakney, county master, who rode a bay charger. The following ledges were in the procession: Albert, No. 42, Alma; Union Brothers, No. 137, Peint Weife; Bayeide, No. 130, Waterside; Garibaldi, 138, Mechanic Settlement: Star of Hene No. 140. Elgin. tlement; Star of Hepe, No. 140, Elgin; Eastern Star, No. 139, Albert Mines. The

had a well attended picnic today on the grounds of Councillor West, at the Hill. Northumberland Co.

CHATHAM, July 11.—Haying has been new in operation for some days. The crop promises to be an immense ene. If the favrable weather continues so that it can be well saved there need be no fear of any scarcity, and the county will not be forced e send away about forty thousand dollars, which is a low estimate of the amount paid out by our farmers for this article alone. The salmen fishing has not been as productive so far as usual, although large catches have been made in some sections, and, the prices ruling very low in the states

this season, our own people can indulge more frequently in the luxury of this par-ticular article of diet. Business generally is very quiet on the north shore, and the number of ships in port compares unfavorably with other seasons. Wages are lew, and more men are available than are required. In spite, however, of all these unfavorable conditions we have much to be thankful fer; we have no strikes, ne ternadoes, no epidemics, ner any of the "accidents by flood or field" which are so

emmen in other lands. News was received here Saturday of the death of Germain Letson, a young man of across the I. C. R. track at Killam's hill, about a mile from Mencton, fell at 6 o'cleck this merning, a few minutes after the Que- and Duluth. His death occurred at Buffalo this merning, a few minutes after the Quebec express had passed en to Halifax. A valuable herd of Jersey cews, ewned by A. E. Killam, M. P. P., were being driven across the bridge at the time of the accident. Two of the animals were killed cutright, another so badly injured it must die, and still another badly injured. One animal escaped without a scratch and another with its tall broken. Mr. Killam's less is five hundred dollars. sisters live in Chatham, while an elder brether is an efficer on one of the Gunard line of steamers, and the other is residing in British Celumbia. open deors and windows. Several trees in different parts of the town were blown down or uprooted. Senator Suewball's beautiful grounds suffered severely, the Salvation army tent was blown down and the interior fittings deluged. The sterm lasted half an hour and much mischief was done to fences

heur and much mischief was done to fences in the vicinity of the town.

The efficers of Chatnam lodge, I. O. O. F., were inscalled last night by the D. D. G. M., and the brethren to the number of thirty were entertained by the N. G. and V. G. after the ceremony. The function teck the ferm of a supper at Leonard's hotel, and the usual stories were indulged in by the guests, but no speeches were allowed. Oddfellowship is booming in Chatham, and the new degree team are kept busy at work in

their several offices.

Frank Breaux of Neguac died yesterday. He was a prominent man at election times, and his voice and open purse will be much missed at the next campaign.

The races at Newcastle came eff yesterday, and the fine black mare of Robert Au-

erson of Chatham took first place. Many of the Orange fraternity went to Bathurst and took part in the festivities there on the 12th. They report having a mest enjoyable time, the arrangements being almost perfect, the day fine and the attendance large. The Boys' brigade from Fred-ericten arrived here on Tuesday and proceeded to Bay du Vin by steamer on Wed-nesday morning. The intention is to remain there in camp for about ten days. Capt. A. M. N. Shaw is in command of the com-

Kings Co.

Sussex, July 11.—The strike has reached Sussex, happily only on a small scale. This time it is with the constabulary. About two years ago Ora P. King, then councillor for the parish of Sussex, succeeded in having a resolution passed by the municipality for Kings directing that no fees be paid to any magistrate or constable for any services performed in cases sent up for trial in the upper courts unless a true bill should be found thereon by the grand jury. On Monday last the finance committee, which met at Hampton, to whom bills of this kind were submitted, refused to pay them, feeling they were unable to de so on account SUSSEX, July 11.-The strike has reached feeling they were unable to do so en account of the King resolution. Bills re the Merrisongrant case were brought before the committee and evidence was shewn that a very large amount of werk had been done by the stipendiary magistrate and his officers, the magistrate having paid out considerable sums of money, besides using time and teams, for which payment is new re-fused, hence the cause of the refusal of the constables te execute such papers. So at the present time the stipendiary magistrate's court is blocked, and a number of cases, one of a rather serious kind, cannot be attended. The following respecting the deings of Brown Harrisen, who has had charge of the

Dominion Savings bank in Sussex during the past fifteen years, and who is new about Department of Finance,
SUSSEX, July 11, 1894.

Dear Mr. Harrison—1 have completed the transfer of the savings bank accounts (formerly undor your management) to the post office, and have received nearly all the pass books held by the depositors. I feel that it is due to you before leaving to say that I bave found everything in your office in regular order and your work carefully and faithfully done, and found all the pass books to agree with your accounts. I may also say that, having come in contact with the greater number of the depositors, I have nothing from them but the highest words of praise for your kindness and courtesy to them at all times, and the strongest expressions of their perfect confidence in your honesty and integrity. It must be a great satisfaction to you on your retirement, which has been entirely voluntary on your part, to know that after so many years of faithful service you retire with a clear record and followed by the best wishes of those with whom you came in contact in the course of retiring, will speak for itself:

whom you came in contact in the course of business, and it is a great pleasure to me to be able to testify to this effect,

(Signed) As stated in today's notes, Mr. Fraser left for Ottawa this afternoon. Many deposi-tors were deeply indebted to the DATLY SUN for information referring to the trans-

fer just completed. HAVELOCK, July 11.—George Mullet, an aged and highly respected resident of Canaan read, died on Thursday, after a lingering illness, leaving a wife and seven childred to meurn their loss. The funeral services took place from the Methodist church and were cenducted by the Rev. Mr. Themp-

John Cole of Cole's Island, who was badly injured recently by being thrown from a carriage, died on Saturday. Mrs. Cole, who was also injured, is recevering.

Station Master Sherwood, who has had charge of the business of the American ex.

Unis makes to almost equal to the plant of the use of machinery. A bey of 10 or 12 years can do the plowing or har-

press since his appointment as station master, has resigned, and a number of applicants are applying for the position, which will be filled in a few days. Mr. Sherwood has proved a very courteeus and painstaking officer, and has already wen the good epinion of the people. He feels he cught to devote the whole of his time to the business

of the railway.

A prize fight was to be one of the amusements at Waterford, but as the centestants had so many friends the local authorities came to the conclusion that if the fight was allowed to go on a riet might be the result, and just as the battle was about to commence the warden, backed by seme of the law-abiding citizens, interfered and succeeded in making peace between the parties, who shoek hands and, like sensible men. went to their homes.

Dairying Work in Queens County

To the Editor of The Sun. SIR—After visiting Fredericten Junction and Blissville, in Sunbury county, both of which are good sections for dairy farming, and might successfully join in the erection and operation of a cheese and butter factery, we attended a dairy meeting in Blissfrom cream furnished by D. E. Smith. There was considerable interest manifested in dairy work at the meeting, and steps

taken to organize an association, The meeting arranged at the Junction could not be held on account of the temperance society occupying the hall during the evening. From here we drove to Welsferd Ferris and Petersville, in Queens county, and held successful meetings at the two lastnamed leaves. places. Our next meeting was held in the hall at Armstrong's Cerner en the 19th June, at which there was a large gathering of farmers and members of their families. We made butter from cream furnished by W. B. Lyen. A large number present the land, will be easily disposed of, for the men who farm the land and have not paid the government for it. B. Lyen. A large number present seemed to be well informed in reference to the latest improvements in dairy practices, and are talking of establishing a cheese factory in

he near future. From Armstrong's Corner we went to South Clones, a new settlement well adapted to dairying, and held a meeting in the Orange hall. This place, as well as many other places visited, had never before witnessed

a good attendance. Thos. Pender, who was called to the chair, spoke at some length in eference to the advancement in dairying. Butter was made frem cream furnished by Mrs. Scribner, with good results, after which we gave some practical talk on genwhich we gave some practical talk on general dairy farming. This locality is well adapted and situated for a cheese factory and the farmers are considering the advisability of erecting one near here. I have not seen a more suitable location in the county, with a good spring of water near at hand. On the 23rd we held a largely attended meeting in the school house at Suppose All. ing in the school house at Summer Hill, quite near the last named place. A. M. Cerbett was appeinted chairman, and opened the meeting with some well chosen remarks. The cream for churning was furnished by Thes. Dale, who has fine faciliies for dairying in the shape of good land and a fine spring of celd water. All this section of country, though semewhat hilly and rough, is well adapted to grazing and corn grewing fer fedder purpeses, and well supplied with pure water. We expect to supplied with pure water. We expect to hear of some considerable imprevement and advancement in dairying in the localities visited. We expect to give your readers a further report in an early issue. Votes of thanks to the local and deminion governments and to the lecturer were passed at the several meetings.

A. ALWARD, Dairy Instructor. Fredericton, July, 1894.

I was attacked severely last winter with Diarrhœa, Cramps and Colic and thought I was going to die, but fortunately I tried Dr. Fowler's Extract of Wild Strawberry, and now I can thank this excellent remedy for saving my life. Mrs. S. Kellett, Minden, Ont. Udine was the greatest fruit, flower, and

animal painter of the fitteenth century. He gave the same attention to botany and zoology that Michael Angele gave to anatomy, and with the same results. Dear Sirs.—I was suffering very much from diarrhœa, and could get nothing to cure me, A friend told me of Dr. Fowler's fixtract of Wild Strawberry, and a few doses completely cured me. Thos. L. Graham, Melita, Man,

The man who leves the devil in this life will leve him in the next.

Some people laugh to show their pretty teeth. The use of Ivory White Tooth Powder makes people laugh more than ever. It's so nice. Price 25c. Sold by druggists.

THE WEEKLY SUN, 18 Pages

P. E. ISLAND.

Some Remarks on Farming Operations and the Soil.

How the Government Proposes to Make Revenue Equal to Expenditure.

(SPECIAL CORRESPONDENCE OF THE SUN.) SEARLETOWN, P. E. I., July 10,-Several days of observation since last writing have strengthened the conviction that in agricul-tural development the Island is far ahead of New Brunswick. The drive from Summerside to Crapaud, a distance of about thirty miles around the southern part of the Island, and across from Searletown through the centre of the Island to Kensington, gives one a clear idea of the agricultural wealth of the country. The large, well cultivated fields, the tasty looking dwelling houses and comfortable out buildings, the smoothly trimmed hedges, the magnificent greves of hardwood, the beauty of the landscape of hill, slope and brook, combine to make a

never seen equalled.

The best land is already under cultiva-Smith's handsome new barenche to visit the mineral springs in Havelook.

The putting in of the new glass front and etherwise enlarging the hardware stere of H. H. Dryden is nearly completed and is one of the finest structures in Sussex and a credit to the parish and interprise of the owner.

To keep the land siready under cultivation as leng as the present conditions last. To keep the land already under cultivation is nearly to the country now growing wood and poles will be required for that purpose as leng as the present conditions last.

Mussel mud, river mud, marsh mud, seamatter is seized upon for compost or a dressing for the land with a relish and a snap that would astenish our New Brunswick It is said that T. Byrne, M. D., who recently completed his studies in a New York medical college, will shertly open an office and practice his profession in Sussex and vicinity.

This is as it should be. The most farmers. This is as it should be. The most of the land is easily worked, and, the water passing eff quickly through a porcus subsoil, enables the farmers to do away with There seems to be no abatement in the Brunswick. The land is laid as flat as possible and is usually rolled after seeding. This makes it almost equal to the western

rewing.

All the grain harvest is cut by the reaper and binder. The general feeling now is that the tarming could scarcely be carried on without this piece of machinery. A number of the farmers raise from 1,500 to 3,000 bushels of grain every season, and the man who dees not raise from 500 to 800 is cen-

idered a very small farmer. In regard to the local government, affairs are managed somewhat differently than in the other previnces. They have no municipal government and no county tax. In fact almost ever since confederation they have had no tax of any kind, either state, municipal or school. The road tax only demands one day in a year from a man and his team, 75 cents for the man, 25 for the herse. The first-class school teacher is paid \$300 per year by the government. If the people in the district add \$50 the government will give \$50 more. The same principle is acted upon with the second and third class teachers. The first allowance of the government for a second-class teacher is \$220, and for a third-class teacher \$180. The present government have made a change and will

only supplement the amount raised by the people by \$25.

The government has three sources of income—the deminion subsidy, the returns from laud sales and credit. As the third source of supply has been drawn upon quite heavily of late years the present government have apparently concluded to try to make income and expenditure balance by drawowns the land, will be easily dispessed of, for the men who farm the land and have not paid the government for it will surely not object to paying five cents an acre and retain possessien under present condition

CHARLOTTETOWN, July 15.—The supreme court closed its session here last evening. Wm. Larter, for supplying erget te Damaris Watt McEachern with intention to precure miscarriage, was given two years' imprison-ment in Dorchester penitentiary, and John Crane and Benjamin and Wm. Vaughan, places visited, had never before witnessed the operation of a travelling dairy. The cream for churning was furnished by Thos. Kennedy, and John Dunn presided, making some apprepriate remarks at the opening and clesing of the meeting.

Our next meeting was held at Clenes in the Corbett scheel house on June 22nd with the corbe nine menths in the common jail.

Two Americans, Mr. Shelden and Miss Wilcex, who have been boarding at Houston's hotel, Brackley Point, for the past ten

days, were drowned while bathing in the surf at the north side this afternoon "CANADA."
