WASHINGTON, D. C., Aug. 27.—Bulletin 80, which has just been issued by the Census Bureau and was prepared under the supervision of William M. At the census of manufactures taken in 1905 the reported value of the products of this industry was \$188,715,188.

GROWTH OF THE INDUSTRY

This comparison shows that the growth of the industry in the five years between 1900 and 1905 surpassed the growth in the preceding ten years. The increase in the number of wage-earners was, however, not quite as great in the later and shorter period as in the earlier and longer, being 318 between 1900 and 1905 as compared with an increase of 15,596 between 1900 and 1905.

PRINCIPAL PRODUCING STATES

The leading state in this industry is New York, for which the reported product at the census of 1905 was \$71,750,605.
