A report which has gained some credence, is that win or lose Mr. Scott is to be next covernor of the province. This seems hardly credible as he is very fond of hardly credible as he is very fond of active politics, has had some experience in the Federal as well as the provincial field, and being a young man, would scarcely be expected to accept the governorship at the present time. There are many ways in which the development of a new country may be appreciated. To the farmer the increase of acreage sown, appeals most strongly; to the merchant and manufacturers the growing of population which creates larger demands for all manner of products, is the clearest indication of progress and growth. But to the newspaper man, who in the ordinary course of his work sees the gradual development in all lines, the etrongest possible indication of development is the increasing strength of the press. Underwriters of Famous Insurance Society in Trouble

Syndicate of 18 Members Face \$2,000,
DOD Losses and Have Only \$405,000

Security on Deposit

NEW YORK, Aug. 6.—Details of the financial troubles of some of the underwriters in the London Loyd's, reached Wall Street which show the situation to be more serious than appeared in the first reports which came to New York in the press cables.

This famous London society which has been writing insurance for nearly three hundred years, is made up of independent underwriters, often working in groups. It is now learned that one of the largest of these groups of underwriting syndicates is facing losses estimated at between \$1.800,000 and \$2,000,000 against which the security on deposits with the trustees of Lloyd's amounts to only \$406.000.

Many of the New York banks are directly interested in the situation having been accustomed to accept the scurity afforded by the Lloyd's policies without question and since the facts of the trubles in London have been me known here those who hold policies under the names of the syndicate in difficulties have been meking has to cover by reinsuring.

Under the British system the Lloyd's underwriters instead of carrying large funds of invested capital and surplus, carefully conserved by state laws, as in our country, back their policies without question and since the facts of the trubles in London have been meking have the security afforded by the Lloyd's policies only with their personal credit pilus the sum of £5000 deposited with the trustees of Lloyd's underwriters instead of carrying large funds of invested capital and surplus, carefully conserved by state laws, as in our country, back their policies only with their personal credit pilus the sum of £5000 deposited with the trustees of the society by each manual careful policies only with their personal credit pilus the sum of £5000 deposited with the metron his election together with whatever balance of premiums they may have.
