LAIDLAW & CO'S CLOSING STOCK LETTER

(F. B. McCURDY & CO.)

Montreal, Sept. 18.—Activity in to-day's market was largely centered in two issues. The aggressive buying movement in R. and O. which began in the last few minutes of yesterday's session was continued in the early part of the day and the stock was bid up to 113 1/2. After the end of the first hour the movement of the stock was irregular and in the late afternoon trading it declined to 112. The floating supply of R. and O. on the local market seems to be considerably smaller than at any time since the plans for the consolidation were start- ed. The decline in the stock in the late trading is thought to have been due to the fact that the big movement in the early part of the day brought out a considerable number of selling orders.

Next to R. and O. the most active stock on the list was Brazilian Traction which sold up to 96 1/2 in the first hour. Later it sagged off and closed at 96. The story was revived that the stock was about to be listed in Paris in which case the market for it will be considerably broadened. London cables reported Cement strong this morning, neither issue was very active on the local today. The common sold up to 35 1/2, soon after the opening but in the afternoon declined to 35 1/2. The preferred was strong, touching 94 in the afternoon.

Laurensine which was one of the big trading features last week attracted little attention today. It opened at 175, reacted to 174 and closed at 175. Dominion Textile was unchanged at 85 1/2 and Montreal Power was steady at 217. The Rights were fairly active selling around 10 1/2. Ottawa Power was also unchanged, less than 200 shares selling at 167. Little interest was taken in Iron, the price weakening to 48 1/2.

MacDonald sold at 27 as against 26 1/2 at yesterday's close. Spanish River was weaker at 14 1/2. Tram Power was again strong in the listed department selling at 41 to 41 1/2 for 75 shares. The directors of the Mexican Northern Power have announced that all operations in Mexico will be suspended on account of the political disturbances. The price of the stock was steady in the face of this news, 160 shares selling at 7 1/2. It is thought that the market had already discounted any unfavorable developments likely to occur in connection with this company.

On the Mining Exchange LaRose was stronger, selling at 229. Local mining brokers are of the opinion that some announcement will soon be made which will be of interest to LaRose shareholders. F. B. McCURDY & CO.

NEWSPAPERS ON THE MARKET SITUATION

(F. B. McCURDY & CO.)

New York, Sept. 18.—American—The patient believer in Reading final- ly will be rewarded.

Herald—Conservative interests that look for improvement in securities are glad to note the subsistence of the

solid activity in Union Pacific. World—Indications point to an early importation of gold from Europe. Sun—Professionals work for reac- tion but succeed in disturbing very little long stock.
