NEW BRUNSWICK UNDERTAKERS' CONVENTION

Close of sessions and election of officers yesterday—Successful meetings.

The annual convention of the New Brunswick Funeral Directors which was held in the city during the past two days closed yesterday afternoon, after a most successful programme.

The delegates from the different parts of the province returned to their homes after having received a great deal of benefit from the interesting lectures given by experts in the line.

The afternoon session opened at two o'clock and Mrs. Lena R. Simmons occupied about two hours lecturing and demonstrating on canvas. The business meeting followed, and the election of officers resulted as follows:

President, F. E. Tuttle, Moncton; 1st vice-president, N. L. Brennan, St. John; 2nd vice-president, A. B. Lauder, Hillboro; secretary-treasurer, W. S. Chapman, Point de Bute; chaplain and editor, F. W. Wallace, Sussex; chaperson, Mrs. F. W. Wallace, Sussex; sergeant-at-arms, J. A. LeCoute, Dalhousie. The time and place of the next meeting is to be decided by the president and secretary. The following were appointed as the membership committee: N. L. Brennan, F. W. Wallace and A. B. Lauder.

This committee is to thoroughly canvass the province for new members. Prof. Lena R. Simmons was presented with a substantial purse for the press for the courtesies they have shown.

The morning's session opened at ten o'clock, A. B. Lauder in the chair. The report of the secretary-treasurer was read and disclosed a satisfactory financial condition.

Resolutions of condolence were unanimously passed with John Snow, Halifax, in the death of his son, W. H. Snow, and with H. K. Maltby, Chatham, in the death of his father, Col. R. L. Maltby. The secretary was ordered to write Messrs. Snow and Maltby and to express to them the sorrow of the members. Also to write to Thomas Farmer, Belleisle, regretting his illness and informing him that he had been made an honorary member.

Letters were read from F. W. Matthews, secretary Canadian Embalmers' Association, Toronto; John Snow, Halifax; D. L. McKinnon, Montague, P. E. Island, regretting their inability to be present and wishing the association pleasant and profitable meetings.

A committee composed of W. L. Chapman, Mayor Wallace, Sussex, and N. Louis Brennan was appointed to confer with the Nova Scotia Funeral Directors' Association and with members of the profession in Prince Edward Island regarding ways of strengthening and continuing the Maritime Association.

Mrs. F. W. Wallace, chaperson of the association since its organization, arrived yesterday morning and was accorded a hearty welcome.

After the business meeting Prof. Simmons continued the lectures commencing on Tuesday.

Four Drunks

Four prisoners at the police station, last night, were all charged with drunkenness.

FIRE HAZARD MAY BE EASILY MINIMIZED

Autumnal hints to householders in regard to stoves and heating apparatus.

The Commission of Conservation has issued a bulletin of special hints in regard to caring for stoves and other heating apparatus. The suggestions are as follows:

The season is fast approaching when cool evenings will demand the lighting of fires in our homes. September and October have become known to firemen as the months when chimneys and flues cause the most trouble.

The following suggestions of a practical nature, if faithfully followed, will do much to prevent damage to property and loss of life:

Place a metal stove-board on the wood floor under the stove, and extending at least twelve inches in front of the ash-pit door. Protect all walls and partitions within two feet of any stove with a metal shield, leaving an air-space between the shield and the wall. Leave no kindling or other wood in the oven over night. Do not hang clothes too near the stove and stovepipes.

Pipes.

See that the lengths of stovepipe are well fitted together, free from rust holes and parted seams, wired firmly and partitions, walls, floors, attics and roofs are fireproof at best. Where these must pass through partitions, walls or floors, always use a large, ventilated double thimble. You should examine the stovepipes in the attic. They may come apart or rust. Fluff and spider webs are likely to gather and around them, to be set on fire when you least expect it.

Chimneys should be built from the ground up, and never rest on wood supports. The settling of the wood-work will cause cracks in the chimney. Nor should the chimney walls be used to support joists or other woodwork. Use a good quality of brick and cement mortar. Chimney walls should be at least eight inches thick, the flue of ample size and lined with fire clays or terra cotta. Never stuff up the flue holes with rags or paper, nor cover them with anything but a metal stock. Chimneys should be cleaned frequently.

Furnaces.

Protect all woodwork above and around boilers, within three feet, with a metal shield, also all woodwork near furnace pipes. It is best to rivet the lengths of pipe together to prevent disjoining. The pipe should fit perfectly into the chimney. Examine the pipe frequently for rust holes or other defects. Keep them free from dust, fluff and spider webs, which are easily ignited.

Defects.

Defective stoves, boilers, furnaces pipes and chimneys should be promptly repaired or replaced.

Overheating.

Beware of overheating stoves, boilers, furnaces and pipes.

Asbes.

These should never be placed in wooden receptacles or bins, on wood floors or against wood partitions, walls, fences, buildings or any other woodwork. Use metal receptacles only and dump ashes away from all buildings.

These matters are technical, but very simple and merely call for ordinary care. You cannot afford to be careless, when the lives of your loved ones, and the property of yourself and neighbors, are at stake. Let care and caution be the watchword and let the way assist in reducing Canada's enormous fire loss.

IN THE COURTS.

In Chambers.

An interesting review was heard before Chief Justice Landry in Chambers yesterday morning. The case is that of London vs. McCrea, and was tried before Beverly Parks in Queens County. Mr. Parks, it appears, is a Parish Court Commissioner, but in trying the case, according to the defendant's attorney, he acted as a Justice of the Peace, and the amount was \$2050, which is above the jurisdiction of a Justice. It was contended that the judgment would have to be set aside. His Honor was not satisfied with the return of the Justice, and sent the matter back to him for a new return with the original papers. J. F. H. Teed appeared for the plaintiff, and Dr. W. B. Wallace, K. C., and H. W. Robertson for the defendant.

PROBATE MATTERS.

Administration has been granted John F. Hourihan of Winnipeg in the estate of his father, Thomas Hourihan, lately of this city. The probate value is \$341. The proctor is Dr. R. F. Quigley.

The will of Mrs. Mary L. McNichol, late of this city, widow of James McNichol, merchant tailor, has been proved and letters testamentary granted to Mrs. Ada Robertson, the executrix and who is also the sole beneficiary under the will. The proctor is J. D. P. Lewis.

GIVES LAND TO BE SOLD IN AUCTION WEEK

Splendid donation of local woman—Numerous offers of aid—Canvas for goods opens next Monday.

The heartiness with which the general public is entering into the spirit of the \$50,000 patriotic auction is showing itself in many offers of assistance by way of time or donations being received daily at the office of the executive, 181 Prince Wm. street, where the manager, H. A. Porter is in charge. A lady called yesterday and said she expected to be out of the city next week. She desired to have her donation slip filled in before she went, and on being given one, she wrote her gift of a valuable lot of land to be offered for sale during auction week, October 4 to 9. Other offers similarly encouraging are greeting the promoters in their endeavor to secure that \$50,000 for the patriotic fund, and the whole scheme is moving forward with a happy, satisfying swing.

On Monday next, just four days distant, the canvassers will begin their rounds. It will not be possible, as has before been said, owing to the great extent of territory to be covered, to call from house to house, but every merchant and dealer in all classes of goods will be visited and encouraged to donate liberally from his stock. And those householders who are not personally canvassed can help in the great undertaking by sending in their donations when delivery is being made during the week of Sept. 27. "Something worth while" is the slogan of the canvassers.

Dr. H. A. Farris Appointed.

The St. John County Tuberculosis Hospital Commission has selected Dr. H. A. Farris to take charge of the institution in the Parish of Simonds, which it is expected will be ready for occupancy some time in October. Dr. Farris, who is a son of Hon. L. P. Farris, Grand Lake, Queens Co., has been making a special study of tuberculosis for some years. At present he is at his home in Queens County. His last engagement was at the Sanatorium at Gravenhurst, Ont. He was also at Lake Edwards, at Saranac, and at Kenville, N. S., and comes well recommended.

HIGH FREIGHTS WILL MEAN LOW CUT OF LUMBER

Lumbermen, in meeting here yesterday, discussed prospects—Shipments small.

The New Brunswick Lumbermen's Association met in conference in the Royal Hotel yesterday and discussed matters in connection with next season's work. Among other subjects considered was that of stumpage rates, but no action was taken. The association will meet again in St. John early next month when it is expected delegates will meet Premier Clarke and confer with him.

Angus McLean, of the Bathurst Lumber Company, speaking to a representative of The Standard yesterday afternoon said the outlook in the lumber business was not bright. "At the present time," said he, "lumber is piled in practically all the yards and it is next to impossible to secure tonnage for the carriage of shipments to the European markets. Freight rates are so high that when one pays expenses of shipment on cargoes to the other side there is little or nothing left for the cargo itself."

Asked as to the prospect for the cut this winter Mr. McLean said the cut would be much below the normal. With lumber piled in the yards it will be difficult to get even yard room for new stock, and with the uncertainty now experienced in shipping the stock on hand, it is very doubtful if it would be wise to greatly increase that stock. The shortage of tonnage is the chief cause of difficulty, and for this I can see very little prospect of relief until after the war. With lumber carrying steamers utilized for other purposes as the result of the war it is very difficult to see the wisdom in making an effort in the direction of increasing the stock on hand. Consequently this winter's cut is likely to be much smaller than the average."

Among those in attendance at yesterday's conference were the following:—James Robinson and J. W. Maloney, Miramichi; John P. Burchell and Sheriff John O'Brien, of Nelson; J. W. Brankley, Chatham; G. W. Gilbert and Angus McLean, Bathurst; David E. Richards, William H. Miller, W. P. Napier, Robert St. Onge and D. A. Stewart, of Campbellton.

OBITUARY.

George McAfee.

The death took place yesterday afternoon of George McAfee, of Red Head. The deceased, who was well known and greatly respected in the vicinity, as well as in many other parts of the province, was in the 73rd year of his age. He leaves his wife and one daughter, Miss Edith McAfee, to mourn. The funeral will take place tomorrow at 2.30 p. m., after services at the house. Coaches will leave King Square for Red Head at one o'clock.

KING COLE TEA

Superlative Quality plus the money-back guarantee

WHEN KING COLE TEA first issued its protective guarantee to the purchaser, three years ago, offering to refund the whole of the purchase money for any package of KING COLE returned, there was a very good reason for this radical departure from usual sales methods.

We greatly desired a very general trial of KING COLE TEA. Our faith in its quality was unbounded, for we knew the constant care given to its preparation, but we realized the possible doubt the public might have of a TEA then comparatively new, and so we decided to assume the risk of every trial, and pay back the full purchase price of every package of KING COLE that failed to please. No stronger surety of our good faith could be offered, and we felt confident because of the quality of KING COLE TEA that practically every trial would bring us a permanent customer.

Things have turned out just as we expected. Not one package has been returned. We have never had a request for "Money Back"—we have never heard of a complaint of "King Cole" quality, while "King Cole" sales have been growing steadily larger year by year.

Only exceptional quality could have made such a record, and to-day with more confidence than ever, we invite you to give this tea a test.

The "Money Back" offer is still open; every package is sold on that understanding. What better assurance of Tea value could you have, and what better encouragement to buy your first package of KING COLE TEA?
