Can Eat Anything Now.

How many Dyspeptics can say that? Or perhaps you are dyspeptic and don't know it.

Have you any of these symptoms?

Variable appetite, a faint, burning feeling at the top of the stomach, flatulency, bloating of food, rising and souring of food, a painful load at the pit of the stomach, constipation, or are you gloom and miserable? Then you are a dyspeptic. The cure is careful diet; avoid stimulants and narcotics, do not drink at meals, keep regular habits, and regulate the stomach and bowels with BURDOCK BLOOD BITTERS. Nature's specific for Dyspepsia. Miss Laura Chicoine, Belle Anse, Que., says of its wonderful curative powers: "Last winter I was very thin, and was fast losing flesh owing to the run-down state of my system. I suffered from Dyspepsia, loss of appetite and bad blood. I tried everything I could get, but to no purpose; then finally started to use Burdock Blood Bitters. From the first day I felt the good effect of the medicine, and am now feeling strong and well again. I can eat anything now without any ill after-effects. It gives me great pleasure to recommend Burdock Blood Bitters, for I feel it saved my life."
