Truss Manufacturers.

THE LINDMAN TRUSS,

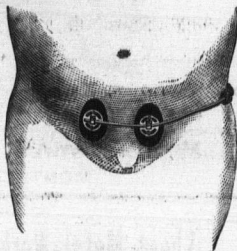

HIGHLY ENDORSED BY PROMINENT PHYSICIANS.

SURE TO HOLD AND
COMFORTABLE TO
WEAR.

This Truss is designed to effectually control all classes of reducible Hernia, and at the same time, on account of its easy adjustment, be comfortable to wear.

Each Truss can be adjusted to various forms of Hernia, and is convertible from a right to a left, single to double, or *vice versa*, and can be used for umbilical Hernia or Abdominal Support. It can also be used in combination for any two or more Hernias.

One of its strongest recommendations is the regulation of the pressure upon the Hernia by means of the patent joint in the **LINDMAN** Truss; the pressure can be regulated at will by the wearer to any degree desirable, either for comfort when at rest, or for safety when undergoing straining exercises.

ROSSIN BLOCK, - TORONTO.

Read what this man says. We have hundreds of other letters of the same kind, many of which appear in our illustrated catalogue, copies of which will be mailed free upon application.

HAMILTON, March 25th, 1896.

B. LINDMAN, Esq., Toronto.

Dear Sir—Yours of the 24th to hand, and I take great pleasure to say that the Truss I got from you Oct. 29d, 1895, I wore for three months, and it has entirely cured me. I took it off on 17th January and have not had to put it on since. I must say it is the best Truss ever invented, and you can refer anyone to me with pleasure.

Yours truly,

(Signed) J. M. ROUSSEAU, Wholesale and Retail Grocer.
