

GERMAN MOTION PICTURE FILMS OF U-BOAT MURDERS FOUND

Camera Men on Submarine Took Views of U-Boat Vessels Shelling British Ships—Were Designed For Exhibition in Germany.

A despatch from New York says:—Motion picture films taken from the archives of Grand Admiral von Tirpitz in the former Kaiser's admiralty, and showing allied vessels being torpedoed by German U-boats during the world war, have been brought here by J. H. Mackum, a Knight of Columbus secretary. The films, which were designed for exhibition by Germany on the day of its triumph, were made by camera men on a submarine which was commissioned to cruise about the Irish Coast and photograph merchant vessels after they had been attacked by U-boats. This boat used more than 40,000 feet of film.

CANADA SELLS SURPLUS WHEAT

Receives Cash For Every Bushel of Grain.

A despatch from London says:—With contracts with Britain, Belgium and Italy for the supply of wheat signed, and contracts with France, Poland and Portugal for wheat, barley and flour, now under negotiation, Canada sees her way clear to the disposal of the whole of the year's exportable grain surplus. So far over 800,000 tons of wheat are actually contracted for. It is expected there will shortly be an announcement of the sale of 200,000 tons of wheat to France, which will be paid for on a cash basis, and a sale of flour, which will probably be financed under the French credit of \$25,000,000. It is understood Poland is dickering for wheat, but there is difficulty in the matter of payment, and Portugal has enquired for Canadian barley. Canada has not sold a bushel of wheat except for cash, as it is considered our foreign credits should not be used for the supply of such a necessity, wheat being almost legal tender in Europe, these days. The Dominion's greatest difficulty has been to sell flour, and France may therefore be allowed to use her credit to pay for what she takes in that line.

High Prices For Canadian War Goods

A despatch from London says:—Dealers and the general public are very keen to get hold of surplus Canadian military stores. A five-day sale, including a varied assortment of 2,400 lots, realized \$3,300. Some prices obtained were phenomenal. Canadian grey blankets, costing 29 shillings a pair new, sold for 19 shillings a pair after four years' wear. Tools brought higher prices than their original cost. New boots fetched 21 shillings a pair. Repaired boots went at 11 shillings. Repaired boots, not guaranteed, made 6 shillings 9 pence. Much used type-writers—128 Underwoods—realized 20 per cent. over cost. The highest price obtained was \$25.

British Warships to Carry Commercial Men

A despatch from London says:—British commercial travelers and the representatives of business houses are to be permitted passage aboard every British warship leaving the country for abroad. This, according to Sir Hamar Greenwood, Under-Secretary for Home Affairs, who made the announcement before the Association of British Chambers of Commerce, is "a move unique in the history of the Empire." Walter Hume Long, the First Lord of the Admiralty, has given his assent to this special service, Sir Hamar declared.

French and Arab Troops To Replace British in Syria

A despatch from London says:—Andrew Bonar Law, Government leader in the House of Commons, announced that the Government was arranging with France and Prince Feisal, son of the King of the Hedjaz, for the immediate withdrawal of the British troops from Syria and the assumption of the duties of occupation by the French and Arabs, pending the conclusion of the peace treaty.

Ontario's New Prime Minister

Ernest Charles Drury, who is likely to be Ontario's next Premier, farms 250 acres at Crown Hill. Crown Hill is one of those little places that lost its postoffice when rural mail routes were organized, but it is about five miles from Barrie on the "Penetang" road. Two hundred acres of Mr. Drury's possessions were selected and purchased by Mr. Drury's great-grandfather in 1819, and have been in

possession of the family ever since. The new leader is a good, practical farmer, with the added advantage of a course at the Guelph College and the degree of B.S.A. He hasn't specialized in his farming to any great extent, though perhaps he takes more pride in his herd of dual-purpose Shorthorns than in anything else. Of late years he has given much attention to the U.F.O. movement, with particular relation to the tariff. Always he has been active in the community life at Crown Hill. The fact that the church and the school are almost at his door made easy his attendance at these meetings places. The new leader is a little over forty years of age, is strong and well built, and has a determined look. His family consists of wife and five children, three boys and two girls. His eldest son will be able to run the farm while father runs the politics of the Province. In religion Mr. Drury is a Methodist.

Treaty Effective On Armistice Day

A despatch from London says:—The German Peace Treaty may come into effect on the anniversary of Armistice Day. It was announced by Cecil Harmsworth, Under-Secretary for Foreign Affairs, in the House of Commons, that the Government hoped the treaty would be formally ratified on November 11 and come into force the same day.

Payments Made Russia By Britain in Two Years

A despatch from London says:—Cecil Harmsworth, Under-Secretary for Foreign Affairs, in the House of Commons, said that Constantin Nabokoff, who represented Russia at London, had received from Great Britain, between March, 1917, and March, 1919, when payments ceased, more than \$184,000,000.

40,000 Died of Starvation In Petrograd in One Month

Stockholm, Nov. 2.—A despatch to the Tidende from Helsingfors says the famine in Petrograd is assuming terrible proportions. Forty thousand persons have died from starvation within a month, it is declared. Petrograd has been without bread for the last two weeks, thousands of persons dying daily, according to information brought to Helsingfors yesterday by a Finn who escaped from a prison camp at Moscow on Oct. 12.

Arab Horse Given To King George

A despatch from London says:—The Arab stallion and a 250-year-old golden sword which belonged to a Monarch of Persia were presented to King George at Buckingham Palace by Sheikh Ahmed, a nephew of the present ruler of Kuwait.

GERMANY MUST MAKE GOOD ALL VIOLATIONS OF ARMISTICE

Compelled to Surrender Cruisers and Destroyers to Replace Those Sunk at Scapa Flow and Surrender Equipment of Equal Value to Battleships.

Paris, Nov. 2.—Demand will be made of Germany that all violations of the armistice shall be made good. This has been called upon by the Supreme Council, which has completed the protocol to the German treaty. The protocol provides that Germany shall surrender cruisers and destroyers to replace those sunk at Scapa Flow, and also surrender floating dry-docks, lighters, trains, trugs and other naval equipments equal in value to that of the first-class battleships destroyed, which Germany cannot replace.

There is no provision in the protocol as to how the warships and naval supplies shall be divided among the Allied and associated powers. Germany has been asked to send a commission to Paris to sign the protocol and attend the formal ratification of the treaty.

The Supreme Council has completed its reply to the Bulgarian request for changes in the peace treaty, and will probably submit it to the Bulgarian representatives to-morrow, granting ten days for the signature.

UNITED STATES FEDERAL ORDER FAILS TO CHECK MINERS' WALKOUT

United Mine Workers of America Go Out Without Leadership—Federal Government Seizing Coal Supplies.

Chicago, Nov. 2.—Information obtained from the bituminous coal fields of the United States, in which more than 400,000 members of the United Mine Workers of America have been ordered out on strike, to-night indicated that there would be nothing which could check the momentum of the walkout despite the temporary restraining order which was issued Friday in the United States District Court at Indianapolis. Deprived of the directing heads of its leaders, as a result of injunction, the membership of the union was prepared to enter the first full working day since the strike order became effective in an effort to demonstrate its ability to halt the production of soft coal throughout the nation.

CANADIAN EGGS ON LONDON MARKET

Throng of Citizens Feast Eyes on Shipment of Rare Food.

A despatch from London says:—A throng of Londoners round the Canadian Government shop in Charing Cross on Friday feasted ravished eyes on a window full of magnificent Canadian eggs. In the good old days eggs and bacon was the world-renowned breakfast of the Englishman. That was before eggs rose to 11 cents a piece and promptly disappeared from currency—an economic cataclysm which cast a gloom on the Englishman's whole existence, and must be held to account in some degree for the prevailing unrest. In the announcement, attached to the astonishing eggs, that "Canada will ship six million dozen eggs to Great Britain this year" the Londoner, weary of the Food Controller's manna, caught the first glimpse of the post-war land of promise.

CANADA TO GET SHARE OF COAL

United States Will Not Discriminate Against Canada.

Ottawa, Nov. 2.—There will be no discrimination against Canada in the matter of coal supply from the United States, the Government has been informed, and Canada will have her share of the output the same as before. This was the statement of Sir George Foster, Acting Premier, to the Canadian Press to-night.

Sir George stated that the coal outlook, which is made serious by the present tie-up in the United States mines, was receiving serious consideration from the Government. "We have been assured," he said, "that Canada will be treated the same as in other years in regard to supplying us with coal. As long as there is coal available there will be no discrimination against us because we are on this side of the boundary."

Considerable uneasiness is felt in many quarters, however, if the strike should last long enough to eat up the supplies already on hand, in which case, of course, the export from the United States would be materially reduced, if not altogether cut off.

Unique Gift to Prince From Montreal Hebrews

A despatch from Montreal says:—Gifts of many kinds have been presented to the Prince of Wales during his tour of the Dominion, but one that differed from the rest was that presented to him during his visit to the Baron de Hirsch Institute. A tablet of gold, on which were carved the Ten Commandments, was presented to the Prince, the tablet being handed to him by Sylvia Lillian Cohen, the nine-year-old daughter of Mr. Lyon Cohen. The commandments were in Hebrew characters, but the words "Presented to his Royal Highness the Prince of Wales from the Jewish citizens of Montreal" were in English.

PLAN TO BLOCK BELLE ISLE STRAIT

Make Winter Navigation in Gulf Practicable and Improve Climate.

A despatch from London says:—A line of fast steamers will shortly be running fortnightly from New York to Liverpool, which will call at St. John's, Newfoundland, and Halifax, says a statement by Sir Edgar Bowring, High Commissioner for Newfoundland, who has just returned to London. He added that Newfoundland was expecting help from the Imperial Government in the direction of more rapid and frequent communication with Britain. Newfoundland was considering a proposal, recently broached in Canada, for blocking the Straits of Belle Isle to make winter navigation in the Gulf practicable and improve the climate of the eastern seaboard of Canada and Newfoundland.

British Manufacturers Plan To Increase Production

A despatch from London says:—The Midland manufacturers, in conference, are taking great interest in the problem of how best to increase production. One scheme submitted involves notifying employees of the decrease in output. If no improvement is noted after ten days the Board of Trade might be called upon to make an investigation. If in this event the employers are found responsible, it is suggested that a fine of £50 sterling be enforced. If, on the other hand, the decrease in output is due to slackness on the part of the employees, it is planned that a fair percentage, in accordance with the decrease, be deducted from their wages. The scheme also proposes that the employer reward employees substantially for any suggestion which may lead to production being increased.
