McKENZIE'S SELECTED SEEDS FOR THE WEST

NO RESULT of AGRICULTURAL EFFORT is as PRODUCTIVE of PROSPERITY to the PLANTER as his WISE and DISCRIMINATING SEED SELECTION.

EXPERIENCE has PROVEN to HIM that RESULTS OBTAINED from his GARDEN or FARM are INCREASED PROPORTIONATE to the PURITY of the SEEDS used. ONE SINGLE YIELDING to POOR SEED may COST a WHOLE SEASON'S WORK. WHY PLANT INFERIOR SEED and REAP HALF a CROP? CHOOSE CAREFULLY and WISELY.

As a WESTERN INSTITUTION we have SELECTED VARIETIES BEST ADAPTED to this WESTERN COUNTRY. McKENZIE'S SEEDS of QUALITY—PRE-EMINENTLY PURE—PRODUCE MOST and BEST.

A few of the Expressions that place McKENZIE'S SEEDS on the high plane of absolute certainty:

Enclosed find a photo of your McKenzie's Perfection Bean. In over 50 years' experience I have never met with seeds that have given me so much satisfaction. —CAPT. K. T. REED, Melfort, Man.

My success with your McKenzie's Brandon Prize Celery certainly has been splendid, and it is the finest variety for this country. —J. S. BRADISH, Willow Bunch, Sask.

I used your McKenzie's Northern Favorite Cabbage Seed and think every seed must have grown. Quality is true to your advertising. —MRS. R. J. McMILLAN, Milestone, Sask.

McKenzie's Selected Globe Onion

This is ONE of the HIGHEST BRED ONIONS of the DANVERS TYPE GROWN. It is a VERY HANDSOME GLOBE SHAPE, with THIN YELLOW SKIN, WHITE FLESH, FINE GRAINED, VERY FIRM and EXTREMELY MILD FLAVOR. MATURES EARLY, BIG CROPPER and EXCEPTIONALLY LONG KEEPER (see illustration). NOTICE the SMALL NECKS, UNIFORM SHAPE, LARGE SIZE and SMALL BOTTOMS.

McKenzie's New Crop Grasses and Clovers

TIMOTHY

Government test on our Beryl Timothy for Purity is No. 1; for germination 99%.

Why look elsewhere when you have such convincing proofs. Good seed is the most important point if you intend growing Timothy.

We affirm and the government test confirms that our Timothy seed is the best, choicest, highest type and cleanest seed grown.

F.o.b. Brandon per 100 lbs. \$7.50. Ex. Warehouse Calgary 100 lbs. \$8.50.

WESTERN RYE

A native of the Canadian West; it thrives on any soil, even alkali lands. Prepares alkali soils for grains. Affords excellent pasturage. Makes good hay. Resists drought and cold. Is easily sown. Easily grown. Easily harvested. Killed at one plowing.

Aside from the exceptional purity our seed is very heavy, and will permit being sown with any ordinary grain seeder. F.o.b. Brandon, per 100 lbs. \$11.50. Ex. warehouse Calgary per 100 lbs. \$12.50.

BROME

Unquestionably the best grass for pasturage. Yields enormous crops of splendid hay, defies drought, resists frost. Adapted to practically every condition of soil or climate. Our Brome Seed is unequalled for purity and high germination, as it requires less seed of this choice stock, 12 lbs. per acre is sufficient. F.o.b. Brandon, per 100 lbs., \$13.00. Ex. warehouse Calgary per 100 lbs., \$13.50.

McKENZIE'S SELECTED MANITOBA CROWN SEED POTATOES

As good seed and change of seed is the first essential to a larger yield of better quality, it will pay to invest a few dollars in new seed potatoes as there is poor encouragement in planting poor stock. We are the largest seed potato growers in Canada.

Bags for Grains, Grasses, and Clover, extra 25c. each.

COMMON RED CLOVER

Is decidedly the best variety for sowing alone. It takes full possession of the land, choking out all weeds; is perfectly hardy if sown without a nurse crop and always yields a profitable cut of aftermath. F.o.b. Brandon, per 100 lbs. \$21.50; ex. warehouse Calgary, per 100 lbs. \$23.50.

ALSIKE CLOVER

This is one of the hardest varieties known. It is perennial and does not winter kill. It will do better on moist land than any other variety of Clover, and is suitable for either hay or pasture. F.o.b. Brandon, per 100 lbs., \$19.00; ex. warehouse Calgary, per 100 lbs., \$21.00.

ALFALFA (LUCERNE)

This is perhaps the best known variety. On suitable soil it will produce profitable crops upward to ten successive seasons, and two to three cuttings each year. F.o.b. Brandon, per 100 lbs. \$24.00 ex warehouse Calgary, per 100 lbs. \$25.50

Rape. Genuine Dwarf Essex

Rape is one of the most valuable forage plants ever introduced. It is extensively and most successfully grown in every section of this Western country, and is fast being recognized as an absolutely essential crop for stock. 25 lbs. or more f.o.b. Brandon, per lb. 9c.; 25 lbs. or more ex. warehouse Calgary, per lb. 9c.

HIGHLY SATISFACTORY.

Our garden was the admiration of everybody—the McKenzie Garden Gem is a great Carrot, and I feel sure every seed grew. —MR. J. STANTON, Wiltonburg, Alta.

I cannot speak to highly of your McKenzie's White Cory Corn and shall always recommend it to my friends. M. A. HULTON, Market Gardener, Winnipeg.
