

No 812.

105-

Circular.

Office of Commissioner
Indian Affairs Regina,
15th July 1886.

Sir:-

As it appears that there are
in some Agencies Tools, Agricultural
Implements and other articles unsuited
to the requirements of the Indians
therein, I have the honor to request
that should such be the case in your
Agency, you will be good enough
when you send in your requisition
for your next year's requirements,
to append a list of all such un-
necessary articles on hand, in order
that they may be, if possible, utilized
elsewhere, and to carefully confine
your requisitions in future to what
is absolutely necessary.

I have the honor to be, Sir,
Your obedient servant.
