That what you take into your system is the very best which you can buy. Health is the most precious boon that anyone can have, and you cannot have good health unless the groceries you buy are pure.

NEGLECT

If the tooth aches the owner goes to a dentist; if the stomach, he goes to a doctor; if his corn hurts he goes to a chiropodist, but if his eye aches he blames it to overwork or perhaps to a cold in the head.

A man in New York who once had good eyesight but turned blind offered \$1,000,000 to have his sight restored. We do not know what the diagnosis of the case is, but as this offer has been pending for a long time, and the man is still sightless, we presume he is permanently blind. Perhaps his eyesight could not have been saved, but it is an undeniable fact that many are blind and many others are practically so whose sight could have been preserved by the early attention of a reliable optician. He was like hundreds of other people of the present day and who are troubled with a dull headache, which they blame to overwork, study, or perhaps to being up late the night before. There are others who complain of objects being dull, and again there are people who see specks floating in the air like dust, which is not dust, but eye trouble. These troubles can all be relieved by consulting E. J. MacIntyre, Chatham's reliable optician, who uses all the latest methods for treating these troubles.

New Salmon

Is just arriving. We purchased some of a brand that has never before been sold on the Canadian market.

Chanticleer Brand Salmon

Has formerly gone, like so many of our best things, to the Old Country, being controlled by a large firm in Paris, France. This year one Canadian jobber managed to obtain a few hundred cases and we secured some of it. It costs more money than any other brand we have, but we sell it for 15c a tin.

We have some of the finest and best known brands of Salmon.
