nate but covetous discoverer, until recent years, when it has passed like a great wave over the American continent.

Wonderful cures are being attributed to this method principally by those who had failed to obtain relief through other sources and who had consequently despaired of recovery.

Diseases which have heretofore been considered incurable, as Epilepsy, Fits, St. Vitus Dance, Locomotor Ataxia, etc., also the seldom curable diseases as Rheumatism, Paralysis, Gout, etc., appear to respond to this new method in a remarkable manner.

Among the enthusiasts of Chiropractic Methods rank some of the foremost scientists and thinkers of the present time amongst which might be mentioned America's greatest Philosopher Elbert Hubbard, and Canada's esteemed Temperance champion and writer Nellie McClung.

Any afternoon, in the office of one of the local Chiropractic Physicians might be found patients from most parts of the west, in addition to the many in this city who have become imbued with this new natural method of healing.

Mrs. Dorothy Canfield Fisher of New York is the author of several good books, and the mother of two charming children, so in her recently published books, "Mothers and Children" and "A Montessori Mother" she writes with the sympathy and conviction of a mother as well as the forefreeness of a literary expert.

D. B. Clarkson introduces "Easy Method" Music to Canada, whereby anyone can learn to play the piano in one evening.

There is probably nothing in life quite so enjoyable as the playing and hearing of good music—a constant joy to the player and a never-ending source of delight to the listener. But, hitherto, the big majority of people, either through inability or lack of time and opportunity have been precluded from playing the piano and organ.

Now this has all been changed and Mr. Clarkson, by his wonderful "Easy Method" system of musical instruction makes it possible for anyone of average intelligence to play the piano or organ in one evening.

The feature of the method is that instead of the mysterious notes of the musical bars and notation, the letters of the alphabet which the notes represent, are actually used, and the simplification is almost magical.

It does away entirely with the helpless way in which thousands of persons young and old, labor to learn music, and the difficulties imposed upon them by the absolutely arbitrary system of writing and teaching music under the existing conditions.

An aggregate of more than 300,000 copies has been sold during the past three years and when the "Easy Method" system is better known even than it is to-day, this total will materially increase.

"Easy Method" Music is now firmly established in thousands of Canadian homes, and headquarters for Canada have been established in Toronto, under the direction of Mr. J. R. de Rouleau.

THE FOOD FOR BABY

We are sometimes moved by a mere act of courtesy to call the attention of our readers to some outstanding features in our advertising columns, but when we find a succession of laudatory responses to the subject matter of these announcements, it gives us the double assurance that not only is our magazine widely distributed but it is seriously read, and that the actual experience of our friends has borne out what we have said in behalf of our advertisers.

We are glad again to bear testimony to "Porter's Baby Food" in this connection. We have recently heard from quite a number of grateful mothers that this simple preparation for the nourishment of children has been a god-send to them. The article is made in Winnipeg, and far from being a recent experiment it has had a career of uniform success in Great Britain, where for over 30 years the father of the present manufacturer has kept it before the public. Some particulars of the food will be found on page 60 of this issue.

National Trust Company, Ltd.

The Marlin
22 CALIBRE
Repeating Rifle

The Marlin .22 pump-action repeater has simple, quick mechanism and strong, safety construction. Has sensible, visible hammer. It takes down easily. You can look through the barrel—it cleans from both ends.

Its Solid Steel Top protects your face and eyes against injury from defective cartridges, from shells, powder and gases. The Side Ejection throws shells away to the side—never up across your line of sight.

Handles all .22 short, .22 long and .22 long-rifle cartridges, including the hollow-point hunting cartridges. Accurate to 200 yards. A perfect gun for rabbits, squirrels, hawks, crows, etc.

Marlin .22 repeaters also made with lever action; ask your dealer.
