**OUR FARMERS' CLUB**  
Correspondence Invited

**PRINCE EDWARD ISLAND**  
PRINCE GEORGE, P. E. I.

RICHMOND, Sept. 16.—Weather pre-  
cise. Harvesting will be general this  
week. Although later than usual, all  
grain is an excellent crop. Potatoes,  
mangel and turnips are above the aver-  
age. Milk is falling off at the factories  
as pastures are short; but the price of  
cheese is good. The annual exhibition to  
the Experimental Farm on August 25th  
was a great success, and a good audience.  
Poultry are quiet. Quota for 4c. butter,  
20c; eggs, 20c.—J. D. McL.

**ONTARIO**

CARLTON CO. ONT.—Harvesting is  
about completed. The crop is very  
light, but the grain is a good quality.  
Corn is not half the crop it was last  
year. Potatoes promise to be a fair crop.  
Bar, 32c; oats, 40c; potatoes, 31.50 a bag;  
butter, 30c; eggs, 35c.—J. A. D.

**CHAPMAN, SEPT. 11—Harvesting is all**

completed, and the recent rains have  
been full plowing much easier. A large  
amount of spring seeding will have to be  
done up except in low ground, where  
there is a good catch. The milk flow has  
fallen off quite noticeably, but no supple-  
mentary feeding has been done as yet.

Sept. 13.—There  
has been a  
falling off in  
milk flow  
from 17c  
country, and  
this week we  
bulk of the  
milk for the  
country. There  
is freely in  
mentioned price  
as a whole  
of the crop  
of the receipt  
the country  
Shipments to  
that there is  
of the stocks  
to be in  
to receipts on  
the market.  
Recent rain  
generally an  
to be equal to  
is strong, the  
are demanded  
re offered at 5c  
Township 6c  
and evidently  
across the  
their market  
to be 30c in 5c

**A Season's Work Completed**

By illustration and by written word it  
has been here shown how one crop, corn,  
may be handled in the most expeditious  
manner through improved machinery.  
Here we have the last stage in the pro-  
cess of the filling of the silo by a modern  
blower as seen on the farm of Mr. J.  
Tilley, Huron Co., Ont.

**WOODSTOCK, Sept. 1.—The harvest is**

finished and all are busy preparing for  
fall wheat. The grain is in good shape as  
we had several good rains lately. No  
troubling drouth yet. The crops have been  
good. Some hurtful them in the barn too,  
and I am sure will be damaged.  
Much corn are doing fine, and the price  
is good. A great many farmers fold  
slight, with chop and bran, as the flow  
down up very well. Corn is doing specu-  
lately.—A. M. McD.

Three more Jerseys have qualified for  
the Record of Performance:

Two owned by A. H. Merritts:  
Dana Dairymaid, 1375, age 2 yrs. 21  
days. Product required, 5,515 lbs. milk,  
29.5c fat. Total product, 7,549 lbs. milk,  
30.16 lb. fat. Average per cent fat, 5.41  
per cent.

Lady Marie de Pender, 1369, age 2 yrs. 43  
days. Product required, 5,122 lbs. milk,  
26.1c fat. Total product, 6,925 lbs. milk,  
41.2 lb. fat. Average per cent fat, 5.92 per  
cent.

One owned by C. and H. Cann, of Che-  
rign: Three-year-old heifer; Product  
required, 4,644 lbs. milk, 26.4 lb. fat. Total  
product, 6,268 lbs. milk, 43 lb. fat. Aver-  
age per cent fat, 6.47 per cent.  
Brampton, Ont.

Here are a few of the things that are  
happening during the week of the National  
Dairy Show at Chicago, Oct. 25 to Nov. 1.  
The annual meeting of the National  
Association of Ice Cream Manufacturers,  
International Milk Dealers Association,  
American Association of Creamery Butter  
Manufacturers, National Dairy Union,  
International Association of Dairy  
Inspectors, and in addition to these  
the Jersey Cattle Club, Guernsey Cattle  
Club and Holstein-Friesian Association of  
America will hold meetings.

**D. CAMPBELL'S DISPERSION SALE**

An unusually uniform and type bunch  
of Holsteins are those that Dan Camp-  
bell of Komoka, in offering at his disper-  
sion sale to be held on October 22. This  
is over seven years' one animal of which  
built up from stock which Mr. Campbell  
has selected from the best of the  
from some of the best herds of the  
country.

A short time ago a representative of  
Farm and Dairy visited Hill View Farm  
where he had an opportunity to inspect this  
herd.

At the time the cows were just being  
shown for the evening milking. As we  
looked down the two rows of stalls the  
best of the noticeable uniform high  
character. In fact, uniformity in every  
of characteristic of this herd. Mr. Camp-  
bell is aimed to breed a type of Hol-  
steins that would prove year round pro-  
ducers of both quality and substance.

A healthful bunch of animals we never  
saw. We were not greatly surprised  
when we learned that this herd had been  
tested last spring for tuberculosis, and  
not one animal reacted.

The herd leader, Homestead King Col-  
nath Abbecker, now nearly three years  
old, is especially fine up follow, with  
lots of quality, and extra evidence of  
constitution and propensity. In fact he  
is Duchland Colanath's sire. Abbecker all  
over again. The dam and sire's dam of  
this latter bull average 32.5 lb. butter in  
30 days and 227 lbs. in 30 days. Home-  
stead's dam, National Queen De Kol, has  
set a record for 30 days of 73.12 lb.  
in 30 days as a junior 27r-old.

A fine five-year-old cow is Gipsy Girl  
De Kol, who has great capacity, and is a per-  
sistent worker. This year, with ordinary  
feeding she has failed to produce over  
15,000 lbs. milk. The sire of Gipsy Girl is  
Calamity Queen's Butter Baron, her dam,  
Black Beauty Abbecker. Her granddam  
on sire's side is Brookland Butter Baron,  
with 25 tested daughters. Four heifers  
from this cow are included in the sale.  
A half sister is Doris, a five-year-old of  
grand capacity. Two other half sisters  
are in the herd. A four-year-old of spe-  
cial type is De Kol May. She is straight  
as die, with an exceptionally long  
rump and well-developed udder. A fine  
four-year-old is Gipsy Queen of Bryden.  
Another sweet five-year-old is Lady Hen-  
rietta De Kol, sire Sir Hengerveld John  
De Kol, dam, Ines Mercedes.

Miss Calamity Garnet is a three-year-  
old that reflects credit on her milky an-  
cestry. She is a beautiful dairy type.  
Miss Axie De Kol is an exceptionally  
growthy heifer, coming three years old,  
and now carrying her first calf. She is  
sired by Sir Axie Posch De Kol. Among  
the two-year-olds an extra fine one is  
Whitstone Mountain Lassie. She has lots  
of show type, a grand udder and pro-  
ducing ability.

The young stock are a grand, spry lot.  
Five exceptionally fine heifers, sired by  
Paul Sorenson's Lassie, form the herd  
leader, and in calf to the present herd  
sire are: Doris Calamity Mildred Waver  
Blamity, a fine yearling. The grand-  
dams of Hill View and Lobo Lassie. A  
diced bull calf, one that should make a  
lot of good money, and showing fine  
character, is Paul Idealine, sire, Idealine  
Paul Veeman, dam, Lady Hengerveld  
De Kol, with a record of 15.95 the butter  
in 30 days as a senior two-year-old. Another  
fine bull calf is aristocratic Abbecker,  
a grandson of Gipsy Girl, dam, Gipsy Ab-  
becker sired by the present herd leader,  
and are in fine bloom.

Mr. Campbell's offering is a genuine  
dispersion sale—the entire herd will be  
sold. Hill View Farm is very conveni-  
ently situated, being only a few miles from  
both C.P.R. and G.T.R. stations. Special  
arrangements have been made so that all  
C.P.R. trains will stop. Komoka on  
the day of the sale, Oct. 22.

**HOLSTEINS**  
**OXFORD DISTRICT**

The Holland of North America  
is the place to buy Holsteins of quality.  
The Third annual sale will be held in the  
city of Woodstock on March 25th, 1914.  
Full list of breeders in the Oxford District  
with post office and station addresses sent  
on application to:

R. J. KELLY, SECY., TILLSONBURG, ONT

**HOLSTEINS**  
**LAKESIDE HALL AND STOCK FARM**

from Record of Performance  
dam; also a few females.

W. F. BELL, BRITANNIA HEIGHTS, ONT  
Otawa Hill Phone.

**HET LOO STOCK FARM**  
Present offering a son of Minnie Landes, Les Chevaux DeKol Burke  
and Paul DeKol Jr. Blood. Calf sired by a son of King Segis and out of  
daughter of Paul Beta. Write for price.

**HET LOO STOCK FARM, VAUDREUIL, QUE.**  
Dr. L. de L. HARWOOD, Proprietor  
GORDON H. MANHARD, Manager

**MANOR FARM**

Senior Herd Sire, Prince Hengerveld of the Pontiacs, a son of King of the  
Pontiacs and from a daughter of Pieterje Hengerveld Count De Kers. Junior  
Herd Sire, King Segis Pontiac Posch, a son of King Segis Pontiac Alcara (the  
\$10,000 bull), and from a 29.62 lb. 3 year old.

We will be glad to mail to anyone extended pedigrees of these Sires.  
We are offering a limited number of cows in calf to them for sale.

No Heifer Calves for sale at any price.  
GORDON S. GODERHAM - BEDFORD PARK, ONT.

**The Crown**  
This is a light-draft, heavy-service plow for use on those farms running to clay. Wheels have dust-proof rollers bearing. Luster-furrow straighteners are in easy reach. In this model, our idea was to give the maximum strength for difficult service, without designing an unmanageable or heavy plow. This strength is mostly attained by clever frame design in steel. See our Catalogue of the 'Crown' and other gang and sulky plows, sent Free.

**Cockshutt**  
**Maple Leaf**

The Maple Leaf may be fitted with a straightener, and gets plowing done in the quickest time your farm soils allow. The adjustable frame gives you full advantage of every favorable acre of loamy land—yet meets clay, hard-baked or sticky soil by a narrower furrow.
