GILSON Mfg. Co. Ltd.

879 York St., Guelph, Ont. 87

The Dairy Cow is not interested in "the saving of labor," or "bigger dairy profits," or "the simplicity of construction" of a milking machine; but she is interested in the feeling of the teat cups on her teats.

The action of the Empire Teat Cup is as comfortable to the cow as her own little calf. It is simply a gentle suck followed by a complete relief and a "tip-to-udder" massage.

Learn how this benefits the cow by sending for the free Empire Catalog.

EMPIRE MILKING MACHINES

The PERFECT CORN HARVESTER

Sold Direct \$20.50 JUST THE THING FOR SHOCK OR SILO CUTTING

Works in any kind of soil. Cuts stalks, does not pull like other cutters. Absolutely no danger.

Cuts Four to Seven Acres a Day with 1 man and 1 horse. Here is what one farmer says:

Gentlemen—Your Corn Harvester is hard to beat in heavy corn or light corn. We cut about 600 sheafs of corn, it is O. K. Yours,

J. L. McALISTER, Wingo, Ky.

SOLD DIRECT TO THE FARMER Send for booklet and circular telling all about this labor-saving machine; also testimonials of many users. LOVE MANUFACTURING COMPANY Dept. 31 Lincoln, Illinois

KILLS ALL INSECTS

Send 25c. and we will mail you half-lb. package of Acco Spray Powder. The best potato bug and insect killer on the market. "Government Tested". You want it for your garden, or to save your roses and house plants from the insects. Sold by your dealer, or direct from ACCO CHEMICAL Co., Limited, 23 River St., Toronto

Corn Harvest Satisfaction

TO harvest corn with a corn knife means many men and much hard work and expense. Farmers of experience know the satisfaction of using a good corn binder. McCormick and Deering corn binders are built for such farmers.

Simple in construction, light in weight and compact, two horses will easily handle one of these binders in most conditions of corn, while a tractor or three horses give power enough to harvest 5 to 7 acres of corn a day, bind the corn into neat, easily handled bundles, and load them on a wagon to be taken to the ensilage cutter or husker and shredder.

McCormick or Deering Corn Binders

fortify farmers against danger of the loss of a part of the corn crop. A farmer need not worry about securing extra help, or paying high wages. He can be sure of having his corn safely harvested within the limited time in which the work must be done to get the full feeding value from the fodder or stover.

A nearby International agent will point out to you the money and time-saving features of these machines, or full information will be furnished by writing the nearest address below.

TWO SILOS EACH A LEADER IN ITS CLASS

We are now manufacturing two silos to meet the demands and means of every Canadian farmer. Both are wood silos. Experiments prove that cement and tile silos do not preserve silage perfectly—that nothing but wood will do this.

1. BURLINGTON CABLE BAND SILOS are the strongest-hooped silos on the market. The hoop, instead of being a solid-iron rod, is a seven-stranded galvanized cable. This cable band is protected by patent No. 165558. We use No. 1 Norway Pine Staves, side and end matched and treated with red preservative.

2. We also make CRAINE THREE WALL SILOS. They are absolutely the best equipment that can be purchased by you to-day. They are permanent buildings. They preserve silage perfectly, and the cost is moderate.

In the CRAINE THREE WALL SILOS there are three distinct walls. An inner wall of 2 1/2" side and end matched staves (same as in Burlington Cable Band Silos). The centre wall is weather and acid-proof felt, similar to Roofing felt. The outer wall is clear B.C. Fir wound spirally from top to bottom of silo, ship-locked and metal protected. No bands required; an absolutely permanent building.

Both of these silos have Continuous Refrigerator Door System and Interchangeable Doors. Let us tell you more about Nicholson Products. We want you to know all about them. Let us send you free complete information. Sold direct from Factory to Farm. Write to-day. Fill in the coupon now.
