

Sharp Point Steel Posts

Save your back digging post holes. Save your time replacing rotted posts in a few years.

HOLES TO DIG

Need to dig a post hole, because of a SHARP POINT POST. It bites its way down through soil in less than three minutes, or wobble under the weight of the post. No loose filled dirt, settle and let the post get shaky, you are digging and setting a post you could put in ten minutes. On over two-inch length holes are punched in the soil enough to take care of any 50 ins. high.

Posts

These posts cost little if any more than No. 1 Cedar Posts. They last at least twice as long. They can be driven in in one-tenth

of the time required to drive the farm, SHARP POINT posts. Give you an stronger, than any wood and

Plenty of Reserve Power

The guaranteed power rating of the White-Allwork is away under what the tractor will actually deliver. The big motor—5x6 inches—larger, we believe, than used on any other 3-plow tractor—actually develops 32 H.P. at the belt. It delivers 19 H.P. at the draw-bar. We guarantee 14 H.P.

It is the sort of tractor you would expect in "The First Quality Line."

The White-Allwork will run a 16-inch ensilage cutter and

blower, or a 28-inch separator. The pulley is on a direct line with the crank shaft.

Put it on wet, heavy land or on rough land, and it has the power to go right along. Yet it weighs only 4800 lbs., won't pack the soil, turns in a 12-foot radius.

You know best what you are paying.

Let us tell you what a White-Allwork will do, and what it costs to use it. Then decide for yourself whether it will save you money or not. Write to-day for full information.

Bissell Silos

Maximum results with beef or dairy cattle are impossible unless regular rations of green fodder are supplied. The Silo saves hundreds of dollars' worth of green feed, which can be fed when summer pastures are dried up, and in winter. We make Silos in popular sizes, air-tight, substantial, with all practical improvements. Pine or spruce staves preserved in creosote oil, two-step doors; steel hoops; every item and arrangement is correct. Bissell Silos are the best for the money. Let us prove it. Consult us freely. Literature and prices on request.

Sweet Clover

Low Prices
WHILE IT LASTS

A CROP of Sweet Clover serves a variety of purposes. It will grow successfully in places where other clovers fail. It makes excellent food for all stock. It is a good weed smotherer. It is a good honey producer. It will restore lost fertility quicker than any other clover.

PRESENT PRICES

White Blossom—No. 2 Government Standard (No. 1 for purity), \$25.00 per bushel. Yellow Blossom—No. 2 Government Standard, \$25.00 per bushel. Timothy—No. 1 Government Standard, \$9.50 per bushel. A Simpler, More Effective Drive

THE old fashioned idea was a complicated "nest of gears." The new idea is direct chain drive—simple as a, b, c—powerful and trouble proof. When not spreading the driving mechanism is at rest, thus adding to the life of the machine. The chain can't get off the wheel when you hit a bump. This is

distributor. Learn all about this "different" spreader from our Catalogue. Write for it now.
