The Razor Steel, Secret Temper, Cross-Cut Saw

WE take pleasure in offering to the public a Saw manufactured of the finest quality of steel and a temper which toughens and refines the steel, gives a keener cutting edge and holds it longer than by any process known. A Saw to cut fast "must hold a keen cutting edge."
 This secret process of temper is known and used only by ourselves.
 These Saws are elliptic ground thin back, requiring less set than any Saws now made, perfect taper from tooth to back.
 Now, we ask you, when you go to buy a Saw, to ask for the Maple Leaf, Razor Steel, Secret Temper Saw, and if you are told that some other Saw is as good ask your merchant to let you take them both home, and try them and keep the one you like best.
 Silver steel is no longer a guarantee of quality, as some of the poorest steel made is now branded silver steel. We have the sole right for the "Razor Steel" brand.
 It does not pay to buy a Saw for one dollar less, and lose 25 cts. per day in labor. Your saw must hold a keen edge to do a large day's work.
 Thousands of these Saws are shipped to the United States and sold at a higher price than the best American Saws.
 MANUFACTURED ONLY BY
SHURLY & DIETRICH, GALT, ONTARIO.
