AN EDUCATIONAL POLICY

SINCE the essence of Life Insurance is care for dependants, it is not surprising to see an increasing tendency to provide, through carefully arranged Life Insurance, for the education

and establishment in life of children. Finding a decided demand for a definite form of "Educational" Policy, a plan of this type has been prepared by The Great-West Life Assurance Company. It would be difficult to find a more attractive plan for the man anxious to ensure to his children the advantage of a good education—whether he lives or dies.
