LYDESDALES AT
MAINS.

Mutch, Lumsden, usness this season n equalled in any n the importation y are at present Mains, sold last ound in Lumsden, itables have been s been the demand his year, that of a brought in last ie stock on hand, been reduced now old, fourteen stal- es. The stallions ee years and over he four mares are Imp.), and her Princess, Sturdy yearling at the and Trolane Nell. made during the e following: airville, Sask., the Baroness; Louisa ag Lassie, 9534. i winner both at i fairs; Louisa is a ipep and Regina, e will be remem- h's old show mare on's Lassie, owned ie, one of the best Western Canada. t all that is de-

sirable in Clydesdale quality and breed- ing, and go to Mr. Brooks', in foal to a Baron's Pride stallion.

To W. B. Saunders, Okotoks, Alta., Charmer and Lady Charming, both in foal to a Baron's Pride horse. Lady Charming is an old Winnipeg sweep- stake champion, winning that event as a two-year-old. Charmer was a winner in the East. In addition to these Mr. Saunders also purchased a young stall- ion, bred by J. B. Thompson, Hamiota, a Clydesdale breeder whose record needs no comment to Western horsemen.

To Edward Hodge, Magrath, Alta., seven stallions and seven mares. Among the stallions are Baron's Ensign, by Baron's Pride, one of the best horses Messrs. A. & G. Mutch have ever brought over. Drumtrodden, a three- year-old by Pride of Blacon, a large, thickest colt, Earl of Edzell by Acme, Elegance, Vigilance and Pride of Bars- yard. The mares purchased by Mr. Hodge include Glaswick Baroness, than which there is no female better known in Western Canadian rings, the first rize winner in her class at this year's Regina show in competition with the champion female from the International Chicago and the first prize winner at the 1909 Toronto Spring show; Irene Osgood, fourth in the same class at Regina; Ingleson Beauty, second in

To W. H. Vollats, Cut Knife, Sask., Hugh Pride, by Pride of Blacon, a colt of first-class quality of bone, good feet and pasterns. The blood of Prince of Wales and Darnley are combined in the breeding of this horse.

To Jas. Rehill, the following mares: Princess McQueen, first at Toronto, Chicago, Winnipeg and Regina; Bell Heather, a winner in Scotland; Prairie Rose, bred by A. & G. Mutch; Lady Linkwood, from the first prize mare at Winnipeg in 1908; Fair Nellie's Pride, whose dam was Champion mare at Calgary in 1908.

To John H. Douglas, Swan River, Man., Duke of Barcheskie. No stallion imported by Messrs. A. & G. Mutch, unless it was the great sire, Baron's Gem, ever attained anything like the showing record which Duke of Barcheskie, in his brief career in this country has done. He is a Baron's Pride colt, the champion Clydesdale stallion, any age, at the 1909 Regina Provincial Horse Show. Further comment than this would be superfluous.

These are among the sales recently made from Craigie Mains. With their new stable in Lumsden, convenient alike for buyers inspecting the stock and having it shipped out, Messrs. A. & G. Mutch are in a better position than ever

DUKE OF BARCHESKIE (IMP.) (8055).

Champion Clydesdale Stallion, any age, Regina Provincial Horse Show, 1909. Sold by Messrs. A. & G. Mutch, Lumsden, Sask. to John H. Douglas, Swan River, Man.

two-year-olds, a mare by Benedict. This is one of the best carloads of horses, quality, breeding and showing records considered, that ever went into Al- berta. Mr. Hodge has some of the cream of Canadian owned Clydesdales in his selection.

To Fred Brooks, Elgin, Man, Gav Jess, Lady Eva and Lady Marshall, three good mares.

before to attend to their ever increasing business in Clydesdales. The firm has already gained a reputation outside Western Canada for the excellence of the horses imported, and the ones recently sold into the widely separated districts enumerated, will not in any way mar the record the Mutch's have built up for the excellence of their selections on the other side of the water

The Growing of Oats and Barley

Continued from Page 543.

OATS AND BARLEY IN CENTRAL ALBERTA.

The land I grow oats on is a South- ern exposure, and I have grown grain for seeding purposes, for six years, on the same land. I plow to a depth of about six inches, and immediately fol- low it with a drag harrow, harrowing until the surface is well pulverized. My soil is black loam with a clay sub- soil. I clean my seed about twice with a Chatham fanning mill. I sow with a shoe drill as nearly as possible to two inches in depth, and commence sowing just as soon as I can get on the land in the spring, as spring frost will not hurt oats or barley. The essential

thing in raising oats and barley is sowing GOOD seed, and sowing it as early as possible. The only difficulty I have had to contend with is hail. I have never been troubled with frosts, but they have done a great deal of damage to lands that are low-lying. The oats that took first prize last fall were hailed to a considerable extent.

Alta.

J. E. FERGUSON.

BARLEY GROWING IN CENTRAL ALBERTA

We prepare our land for oats in the fall and pack it well. Either breaking,

He Bought Her a 1900 Washer

One of Our Readers Tells How
Her Husband Learned

What Washday Means to a Woman

Dear Editor:—Most men have no realization of what "washday" means to a woman. My husband is one of the best men that ever lived, but he laughed when I asked him one day to get me a 1900 Gravity Washer. I told him it would wash a tubful of clothes in six minutes. "Why, wife," said he, "a washing machine is a luxury, and, besides, there's no better exercise than rubbing clothes on a washboard. It's good for the back. I think we had better wait till we get the farm paid for before fooling away money on such new-fangled things as washing machines."

John's Busy Days

after things had gone at sixes and sevens for nearly two weeks I suggested to John that he had better do the washing. We couldn't hire a girl for love or money and the situation was desperate.

So one morning he started in. My! what a commotion there was in the kitchen. From my bedroom I occasionally caught glimpses of poor John struggling with that mountain of dirty clothes.

If ever a man had all the "exercise" he wanted, my husband was that man! Couldn't help feeling sorry for him and yet it made me laugh, for I remembered how he made fun of me when I hinted so strongly for a 1900 Gravity Washer. When he finally got the clothes done and on the line he was just about "all in."

That evening John came to my room and said kind of sheepishly: "What's the name of the firm that makes those Washers you were telling

me about?" I looked up their advertisement and found the following address:—

A. W. N. Bach, Manager
The 1900 Washer Co.
357 Yonge St., Toronto, Canada

That's all he said, but he lost no time in send- ing for their Free Washer Book. The book came in due time, and with it an offer to send the 1900 Gravity Washer on thirty days' free trial. My husband jumped at the chance to try the Washer without having to spend a cent. "We'll have four weeks' use of the Washer anyway, even if we don't decide to keep it," he said. So he told the company to send on the Washer.

It was sent promptly, all charges paid, and the 1900 Washer Company offered to let us pay for it in little easy payments. The next week I felt well enough to use it. It is the nicest Washer I ever saw, and it almost runs itself. Takes only six minutes to wash a tubful, and the garments come out spotlessly clean.

We were all delighted with the Washer, and wrote to the company that we would keep it and accept their easy payment terms of 50 cents a week. We paid for it without ever missing the money, and wouldn't part with the Washer for five times its cost.

If women knew what a wonderful help the 1900 Gravity Washer is, not one would be without it. It saves work and worry and doctors' bills. Takes away all the dread of washing day. I feel like a different woman since I quit the use of the wash- board. If any woman's hus- band objects to buying one of these labor-saving machines, let him do just one big washing by hand-rubbing on the old-fashioned washboard, and he will be only too glad to get you a 1900 Gravity Washer.

Anybody can get one on free trial by first writing for the Washer Book.

Don't be talked into buying any other machine—there are many imitations, but none "just as good" as the 1900 Gravity Washer.

Excuse me for writing such a long letter, but I hope Mr. Editor, you will print it for the benefit of the women readers of your valuable paper. Sincerely yours,

MRS. J. H. SMITH.

The secret of the easy operation of the 1900 Washer is in the peculiar "S" shaped links, which no other washer can have; then it has no iron to come in contact with the clothes, and also has a removable tub, which is a great convenience.

CHURCH'S COLD WATER Alabastine

Artistic and Healthful

It Won't Rub Off

No one who has ever decorated a room with Alabastine can rest content until the whole home is so decorated. Alabastine tints have more tone than wall paper, paint, or whitening-and-glue preparations. The minute rock crystals, of which this hygienic cement is made, reflect the rays of light softly and cheerfully—and actually make the room several degrees brighter. Alabastine does not rub off, peel, crack or decay. It is the most durable, healthful and economical wall covering. Your hardware dealer sells 5 lb. package 50c. Our book "Homes, Healthful and Beautiful," mailed free on request, tells how to do artistic work.
