Adventures of a Party of Explorers In

hardship and danger enough, but the

antarctic discoverer has far more terrible conditions to meet. Luckily he meets them with all the equipment and method that arctic exploration has taught mankind. Yet they are most rigidly sealed. The deposits of Ful-"After taking several remedies and treatments we procured PSYCHINE and tongue cannot tell the marvel-lous results brought about in two months. He gained over twenty pounds in weight, and strength and appetite returned." PSYCHINE is the greatest tonic known to medical science. It builds dangerous, as the story of those who have lived through the south polar winter night can testify. One of the experiences of Bernacchi on the cruise of the Southern Cross some years

means. He and a comrade, Ellifsen, started out on a short sledge journey to carry provisions from one camp to another

It was in September, and the broken, ice pack over which they must travel was but a foot and a half thick and likely to break in pieces afresh or pile up in deadly masses at the mercy of the sea and wind. The two men had three sledges and eighteen dogs. They had hardly started before the wind

rose and a gale threatened. Halfway to their destination there was an ice-berg imbedded in the pack ice, and they hastened to reach this before the storm should break.

For five hours they tolled over the ice, the wind gradually rising. The structures there will be, in the course of a few months, a playground, a swimming pool, club-house, library, and a lunchroom. There will be a natatorium, with a swimming pool 35 by 150 feet, which will accommodate 200 bathers an hour. Besides the in-door gymnasia, there will be outdoor enclosures of the same kind one for gale broke in fury just as they reached the iceberg, under whose lee they pltched a tiny silk tent, into which they crawled after having fed their dogs as best they could. Hour after

hour the wind raged, and the therenclosures of the same kind, one for women and girls and another for men and boys. A baseball diamond, which can be turned into a fotball field in nometer went to 9 degrees below zero. The snow drifted over and into the it: -"Shiloh's Cure will always tent. Sleep was impossible.
