Exclusion of Cattle

London, Sept. 11.—Right Hon. Robert W. Hanbury, President of the Board of Agriculture, speaking at the Birkenhead Agricultural Show today, said that during the Colonial Conference Canada complained of the exclusion of its cattle from Great Britain, but he assured the people of Canada that no exceptional legislation was enacted against them. Mr. Hanbury referred to the depopulation of the rural districts and advised farmers to organize and make themselves heard in parliament. Mr. Hanbury said it would be a bad day when England was obliged to depend upon sources across the seas for food supplies.

The Graphic today, referring to the Earl of Minto's declaration that it is the duty of the colonies to share in the cost of Imperial defence, says it "will be regarded here as a truism. It is clear, however, that a large section of the population of Canada is opposed to contributing to the cost of Imperial defence. If for any reason war were to break out between Canada and the United States, Canada would certainly claim the assistance of the rest of the empire, and would certainly receive it. It is, therefore, perfectly fair that we in turn should ask Canadians to be prepared to help us if we are hard pressed."
