VARICOCELE

The majority of men have varicocele in the first, second or third stage. In the early stages it may cause many symptoms which the patient may not recognize as arising from this disease. In fact, we have found on examination, varicocele present in hundreds of cases where the patient did not know he had it at all. It is time it will produce such symptoms as the following: Nervousness, weakness in the back, unsteady limbs, tired and exhausted feeling, pains in the loins, irritation of the bladder and kidneys, sediment and loss in urine, embelous at night with loud dreams, sexual weakness and decline of manly power—these symptoms gradually develop into NERVOUS DEBILITY and IMPOTENCY. Our NEW METHOD TREATMENT WILL POSITIVELY CURE YOU AND IT IS GUARANTEED TO CURE YOU WITHOUT OPERATION. Through its vitalizing influence the worn veins return to their normal caliber, the circulation of blood improves so the organs are properly nourished, and are restored to strength and vigor; the nerves become strong, ambition and energy replace lassitude and despondency, all drains cease, the eyes become bright, the brain active, and you feel as a man ought to feel in perfect sexual and mental condition.

We Guarantee to Cure or No Pay.

All cases we accept for treatment are taken under a positive guarantee that they are curable or no pay. We refer you to several banks as to our financial responsibility, so you may know we are good for any contract we make.
