The British Catholic Council Against the New Measure.

London, April 16 .- Thirty-two Bishops of English and Welsh dioceses at a meeting to-day in Lambeth Palace expressed the conviction that the education bill as it stands must be unhestatingly opposed.

The Roman Catholic hierarchy will meet on April 24 to consider the bill, and simultaneously the Catholic Education Council will meet under the presidency of the Duke of Norfolk to discuss means

of opposing the measure.

Walter Runcimann, a ministerialist
member of Parliament, alluding to the meetings mentioned above, said, in the course of a speech at Newcastle to-night, that if the Archbishop of Canterbury used the House of Lords to defeat the education bill, it would mean not only the shaking of that House to its foundations, but would render disestablishment inevitable.

A MEDICINE THAT CURES

Can we dispute well - known fact that Canadian women are ner

yous? How often do we hear the expression, "I am so ner yous, it seems as i I should fly; " or

I should fly;" or, "Don't speak to me." Little things annoy you and make you irritable; you can't sleep, you are unable to quietly and calmly perform your daily tasks or care for your children.

The relation of the

erative organs in women is so close that nine-tenths of the nervous prostration, nervous debility, the blues, sleeplessness and nervous irritability arise from some derangement of the organism which makes her a woman. Fits of depression or restlessness and irritability. Spirits easily affected, so that one minute she easily affected, so that one limite she laughs, the next minute weeps. Pain in the abdominal region and between the shoulders; loss of voice; nervous dyspepsia; a tendency to cry at the least provocation—all this points to nervous
