WALLACE, ENT, WOLFVILLE THE ACADIAN

WOLFVILLE, N. S., JUNE 26, 1885.

Local and Provincial.

Dominion Day next Wednesday.

Fresh shad have been for sale on our streets this week.

Light and dark Printed Cambrics in handsome patterns at Burpee Witters.

The picnic season has begun and the first we have noticed from Wolfville took place on Tuesday.

ARRIVED .- The schr. "T. W. Mc Kay." Roberts, arrived on Tuesday from Boston with a general cargo.

Don't.-The Halifax morning Chronicle has been copying our items for some time without giving us cred-We don't like to complain of these little matters but now we think we ought to begin. Last week they copied an item from us which was reproduced in the New Star and credited to the Chronicle. Don't do it any more or we will be real cross.

DOMINION DAY.—Since last issue we have learned that Dominion Day will be celebrated in Windsor as usual with sports, races, bands of music, &c.; and a grand promenade concert in the evening. No doubt a large number will go from Wolfville as nothing of the kind will take place here, and many will wish to celebrate in some way the anniversary of the birth-day of the Dominion.

DROWNED .- Capt. David Coffill left Eastport, Me., on the 9th of June in an open boat to visit his son at Baxter's Harbor. On the 10th his body was found at St. Martin, N. B. Capt. Coffill was a native of Horton and was well and favorably known here. He was 76 years of age and was one of the most successful coasters in this part of the country, having followed the sea al, his life, and very seldom ever meeting with accident.

AFTER MANY DAYS .-- We omitted to say last issue that the dangerous place in the sidewalk at the foot of School house Hill, which we have referred to so often, has been fixed at last) The planking has been taken up and the side-walk nicely levelled off, not only making a great improvement in appearance, but also making it quite safe for foot-passengers. This is a move in the right direction and we are pleased to make an item of it. Go

BERWICK ITEMS.—The Camp-meeting Committee are improving the grounds of late, putting up new buildings and repairing the old ones. They are building a forty foot building eight square for the accommodation of visitors in case of rain. It will set on eight posts with the sides all open. The best of order may be expected as there will be no schoons or tents for any traffic allowed within one mile of the Camp Grounds.

Salmon have been quite plentiful this season on the Bay Shore. «One man at Berwick Station has bought 741 lbs and nearly all came from one weir at Harborville, and they are shipping them from every other station along the line to Haiifax, Annapolis

and Boston. The Furniture Factory of D. O. Parker took fire yesterday morning by sparks from the engine of the steam mill, but was discovered in time to prevent a distructive conflagration.—Com.

Clubbing Offer.

Having made special arrangements with the publishers of a number of the leading periodicals of Canada and the United States we are enabled to make a large discount to subscribers. We will send any of the publications named and the ACADIAN one year for the following prices, which as will be seen is in some cases giving two papers for the price of one. Cash must accompany

Local and Provincial

The camp meeting at Berwick begins next Wednesday.

We were shown last week a very pretty bangle bracelet, the work of Mr John F. Herbin, jeweller, at Western Book & News Co's.

The weather is still very dry, and, although the showers of this week have been very beneficial, more rain is much

Excursion .- "Evangeline" Division, S. of T. intend having their excursion to Parrsboro' on Tuesday, July 7th. We wish them a pleasant day and a good time.

We have been requested by the Board of Commissioners of Streets to ask all parties who have not paid their road taxes to leave the amounts at once with J. B. Davison, Sec'y of Board.

EUREKA.-Found at last, a genuine oil dressing that will not harden or crack the leather, but owing to its oily nature penetrates the surface, thereby softening and preserving the boots, and at the same time giving a better gloss than any other polish in the market. By buying a large quantity from the manufactury, Caldwell & Murray have obtained the sole agency, and are able to sell it cheaper than the common kinds, being put up in 6½ oz. bottles at the same price as the other kinds which only contain 3½ oz. See that every bottle bears their name as sole agents and take no other. A handsome set of advertising cards given with each bottle.

We had the pleasure this week of looking over a magnificent collection of oil and water color painting by Miss S. A. Hamilton, of this place. They are splendid pieces of art and have won great praise from all who have seen them. Among the list are a small floral piece (Fuschias) and two floral panels (Iris and scarlet gereniums) in water color. In oils are three perfect little gems—"View off coast of Guern-sey." "Iron Gate of the Danube" and "View on the Hudson"; a larger piece

"View on Annapolis River, a beautiful "View in North West," and several others whose names we did not get. The collection certainly reflects great credit upon the artist, and dis-plays a large fund of artistic talent.

CORRESPONDENCE.

AN "IN RE" REJOINDER. To the Editors of the ACADIAN.

I am glad to find that my article in the ACADIAN of the 12th inst. was so effective; no bomb-shell could have been more so with two Latin splinters. Your "in re" correspondent of last week informs us that "a copy of the Assessment Roll is posted with the Justice, J. W. Hamilton." Assuming the statement to be correct, though the language employed is far from being so, I would remark that the ignorance of the fact, if ignorance it is, was not culpable ignorance, I had exercised due diligence in endeavoring to find the "Roll." The Town Clerk knew nothing of it. His deputy or assistant, or whatever is the title of the individual, who shares with the Town Clerk the honors and emoluments of the office, could or would give no information on the subject. Other public men were inquired of, but all were alike ignorant. The press was then appealed to, very properly, I think, and very successfully, it seems; that is, if the information volunteered by your "in re" correspondent is reliable and correct. Your correspondent is witty, he ought to be truthful, as well, and give no false impressions. It is not enough to call one's self "Fair Play." Who asked or wished the "Assessment Book to be posted on the hay-scales"? "Above-board" certainly did not. He would have thought it a most unlikely place to find it, and a most unsuitable place in which to "post" it; but he would respectfully submit that it was natural and fitting to look for it in the office of the Town Clerk; or at least to suppose that the officer would be sufficiently acquainted with public affairs to be able to tell where with public affairs to be able to tell where it could be seen. I might have remarked that it is not usual to "post books' on hay-scales," or to "post" them were else, in the sense of the writer. Rolls may be so disposed of; and places might be found as public as hay-scales, or sufficiently private to answer all the demands of "secrecy," if secrecy was desired. The above will, I hope, dispose of the charge that the statements of "Aboveboard" wer? "false and misleading." Your learned correspondent's style is rather diffuse and tantological. If stated ments are "false" they cannot but be "misleading," and therefore the latter word might have been reserved for a future occasion. A wise soldier does not use up all his amunition on the first encounter I would in a friendly manner say to my antagonist that he does not seem to have much powder and shot to spare although he is so profoundly yearsed in the Latin language. So much

If any of the readers of this paper are growing deaf, let them get a bottle of Johnson's Anodyne Liniment. Rub welk behind the ears and put a little into the ear with a feather.

It would seem that the commonest kind of common sense ought to prevent a man from buying trash simply because he can get a big pack for 25 cents. Sheridan's Cavalry Condition Powders are strictly pure, and are worth a barrel of such stuff.
