A Mailcious Trick. Losnos, June 28.—The props benesth one of the large beams in the new O. P. R. freight sheds were removed last night by some mischievous person. This morning when the workmen arrived they did not notice what had been doné and went out on the beam, which at once went down with a crash. Bis or seven workmen were thrown to the floor below, two of them sustaining serious iopuries. One, a car-penter, named Morgan, strack on his head and was taken home unconsonous, while another man had his shoulder dis-located. The rest were able to resume work. Yesterday afternoon a very pleasant hour was spent in the Congregational hourch listening to an organ recital given by Miss Edith Skinner. The Rev. D.

church listening to an organ recitat given by Miss Edith Skinner. The Rev. D. McGregor, pastor, occupied the ohair, and explained the object of the gathering in a short and happy speech. On Sundays, ho remarked, that owing to the character of the music the organist had not an op-portunity of showing what the organ could do, or what she could do. Miss Skinner, at the request of many friends, and musicians who had not another op portunity of hearing her, had given this orgen recital. This was the first enter-tainment of the kind ever given in Guelph, and he hoped it would not be the last. It was quite possible that semething might come out of the meeting by the formation of an organist's association for the reading and study of a higher class of music. With reference to the organist he had been notiong that there was a marked improvement in her playing since she oame under the hands of Mrs. Crowe, who For MANTORA.—This morning the cheap excursion to Manitoba and the Northwest started, and was well patronized by travellers. It was decided that as scon as the necessary surveys were completed, tenders should be advertised for. The feasibility of putting an underground crossing at the Eramosa bridge was also discussed, but the directors were unable to conclude that such a scheme was feasible, though very much in favor of its being done. FINED ON BLOCKING STREETS - In Ham<sup>8</sup> ilton builders are allowed by the city by-law the use of one half the street in front of a building in course of construction on which to deposit building material. This privilege is always taken advantage of, but the section of the by-law requiring them to put a fence about the material and a walk outside the fence is generally un-heeded, or the walk is so carelessly laid that the middle of the road is safer. Three builders were yesterday fined \$20 for their neglect, and the others will probably brace up. There is a by-law to the same effect in existence in Guelph, and builders should take warning. suit against the bank to recover her shares.
