General Intelligence

AN ACTOR TELLS.

Tells What Dr. Agnew's Castorhal Powder Did for him and His Wife—Truly a Friend to the "Profession."

"I can but proclaim Dr. Agnew's Castorhal Powder a wonderful medicine, particularly for singers and public speakers, and those who have a tendency to catch cold, hoarseness, tonsillitis and catarrh. Myself and wife are both subjects of catarrh and tonsillitis. We had tried most everything, but have never found anything to equal this great remedy. For quick action it truly is a wonder worker. I couldn't be without it by me and I am continually recommending it to my brother professionals." Al. Bennett, Feb. 20, 1893. 104 East 10th Street, New York City.—Sold by E. Lee Street.

U. S. CRUISER MAINE.

Last Wednesday, the United States cruiser Maine, while lying at anchor in Havana harbor was blown up, with large loss of life. Secretary Long of the Navy received the following detailed despatch from Captain Sizer, the commander of the destroyed Maine:

"Advise sending wrecking vessel at once. Maine submerged except debris; mostly work for divers now. Jenkins and Merritt still missing. Little hope of their safety. Those known to be saved are officers, 24, unharmed; crew, 18. Wounded now on board Ward line steamer and in the city hospital and at hotel, 59, so far as is known. All other total lost or missing, 235. With general exceptions no officer or man was more than a part of a suit of clothing, and that is wet with harbor water. The damage was in the compartment of the crew. Am preparing to telegraph list of wounded and saved. Will send all wounded men to the hospital at Havana.

JOHN HANDS

In Telling of the Curious Power of Dr. Agnew's Cure for the Heart.

M. V. Thomas, of Stanley House Kingston, writes: "Dr. Agnew's Cure for the Heart has proved a wonderful medicine to me. I was a great sufferer from heart trouble. I found it a great health builder and have received great benefit. My wife also has used the Dr. Agnew's Cure and can bear equally as strong testimony of the wonderful benefit it gives. It relieves in 30 minutes."—Sold by E. Lee Street.

FARMERS AND DAIRYMEN.

FREDERICTON. — The Farmers' and Dairymen's Association met in annual session on Tuesday afternoon last week. The president, C. E. Raymond, presided, and on the platform were Lieut. Governor McClean, Premier Esderson, Hon. Mr. Lablouis, Attorney General White, Dr. A. A. Stockton and others. The hall where the meeting was held was densely packed. The president referred to the more recent of the association during the year and the inauguration of the Farmers' Institute work which had been so successfully carried on by the joint action of the Department of Agriculture and the association. The interest through the province in the pork packing industry and the great developments in butter and cheese were also touched upon.

Gov. McClean spoke of the pleasure of meeting so many farmers, and referred to the improved facilities for the exportation of agricultural produce through the port of St. John.

Hon. Mr. Lablouis spoke of the determination of the government to assist the association, and was supported in his remarks by Premier Esderson and Dr. Stockton. Addresses were also delivered by Attorney General White and Mr. W. S. Sibley Blair; and Mr. Fawcett read a paper on taxation which was thoroughly discussed by the association, but no action taken.

The reports of the county vice-presidents and of the treasurer and corresponding secretary filled in this morning's session. The vice-presidents' reports showed an average crop in all the counties of the province.

The report of the treasurer, George Fisher, showed receipts of \$429,70, of which \$180 were membership fees and \$249,70 proceeds of provincial government grant, and disbursements of \$427,91, leaving a balance on hand of \$1,79.

The report of the corresponding secretary, W. W. Hubbard, contained a careful review of the work of the year, in which material advances were noted in several lines. The Dominion minister of agriculture, Hon. Mr. Fisher, was thanked for sending Dr. Fletcher and Messrs. Sibley Blair and A. G. Gilbert to the province to lecture on different branches of agriculture, and the profitable character of the work of these gentlemen was referred to in highly appreciative terms, as was also the work of Dairy Superintendents Mitchell and Tilley in improving and making uniform our cheese exports. The dairy school at Sussex was credited by Mr. Hubbard with having a marked influence on the cheese and butter factories of the province. The appointment of a commissioner of agriculture for the provin-

Province

cial government was commended as a step in advance, and flattering mention was made of the zeal of Hon. Mr. Lablouis in behalf of the association and agriculture generally. The St. John Exhibition Association also came in for a good deal of praise for the magnificent display made at the last fall's show.

NEWS NOTES.

F. P. Reid, Moncton, had a meeting with the minister of railways at Ottawa on Tuesday last and tried to persuade Mr. Blair that Traffic Manager Harris' freight regulations will be very damaging to the lumber industry of New Brunswick.

FILE TERRORS SWEEP AWAY.

Dr. Agnew's Ointment stands at the head as a reliever, healer, and sure cure for Piles in all forms. One application will give comfort in a few minutes, and three to six day applications according to directions will cure chronic cases, relieves all itching and burning skin diseases in 24 hours. 35 cents.—Sold by E. Lee Street.

Dominion Parliament.

OTTAWA, Feb. 14.—Replying to questions by members Mr. Blair said the supplementary estimates would show "the government was going to take steps toward the examination and development of the route of the Klondike. No contract had been made with the Kingston works for locomotives, but the government intended, if possible, to obtain their locomotives from Canadian shops. The government proposed to take over the Drummond railway on March 1st. Mr. Blair also gave the names of the new officers appointed at Montreal. The salary of Traffic Manager Harris is five thousand dollars. The agent at Montreal gets two thousand, Travelling Agent Laanbin gets \$1,000. Mr. Blair remarked that it was proposed to modernize the Intercolonial management without increasing the cost. The government had bought two engines at Philadelphia at \$10,000 each. They were bought on the recommendation of the general manager. The minister said \$8,181 had been spent in plumbing and heating apparatus of the new station at Moncton. The work will be awarded to James H. Dooly, of St. John. The contract was cancelled and a new one made with F. E. McManus at \$8,277. The minister gave the number of brickmen who had been dismissed from the Intercolonial and stated that the reduction was caused by the dullness of trade.

Mr. Foster got an order for papers connected with the case of Benjamin Palmer, formerly lighthouse keeper at Paler's point, Kings county. E. B. also an order for papers connected with the Atlantic winter steamship service from St. John and Halifax.

Mr. Ellis got an order for papers giving the total cost of Haasard publication from 1890 to 1897.

Sir Hilbert Tupper got an order for information regarding the dismissal of William Sutherland, civil engineer at Stellarton.

Referring to the statement made in the Senate Friday by Senator Scott, next morning after the
