CONTRACT NOT SIGNED YET,

But Mr. Beck Still Maintains Ev erything is all Right.

Mayor of Dundas Will Look Into Water Proposition.

Will Saltfleet Issue Injunction Over Beach Road.?

The delay in getting the Hydro-Power cheme in such shape that a by-law for the proposed municipal lighting plant can be submitted in January has caused the city officials some worry, as it would give them only eighteen months o go ahead with the work. At noon Mayor Stewart had a talk over the long distance 'phone with Hon. Adam Beck, who assured him things would be in shape to submit the by-law before January, if necessary. One of the engineers will be sent here towards the end of the week to give an estimate on certain underground work and go over the figures with the Board of Works. Mr. Beck, however, still has no definite in-formation as to when the Government formation as to when the Government is going to sign the contract more than to assure the Mayor that everything would be all right before January, from which it was inferred the contract would be signed before then. In connection with the submitting of the by-law it might be pointed out the at-large system this year, with at least four by-laws, and possibly more, is going to prove as objectionable as last year, when a great many people were kept from voting.

At the request of Ald. Farrar, Mayor Stewart will instruct City Clerk Kent, when he receives the information asked for by the special committee appointed to consider reorganizing the Engineer's department, to send copies of it to each member of the committee before it meets again. He also wants the qualifications of Engineer Barrow, his assistations of Engineer Barrow. meens again. He also wants the qualifi-cations of Engineer Barrow, his assist-ant, Mr. Heddle, and Secretary Brennan laid on the table. It is again rumored that Mr. Barrow will quietly resign be-fore the end of the year and when the

The suggestion maße in the Times some weeks ago for Hamilton to supply Dundas and other nearby places with water when the new electric pumps are firstalled, her favorably impressed Mayor Moss. Acting on his instructions, Town Clerk Frv has sent Mayor Stewart a letter asking that a conference between city and Dundas representatives on the subject he arranged. The Mayor thinks that while Hamilton could supply the water all right, it would be necessary for Dundas to have a small electric pump. Even then it is thought it could get cheaper water than at present and be sure of a steady supply. The Fire and Water Committee will likely take the matter up with the Dundas people. The suggestion made in the Tim

The first work in the way of scooping out the road dividing the two filtering basins at the Beach was begun to-day and it is expected in civic circles Salt-fleet or Mr. Fitch will have an injunction issued before to-morrow. Mayor Stewart regards the outlook quite cheerfully, though. It will bring matters to a head, he says. After another look at the basin yesterday he declared to-day he was satisfied that nothing but the sandsukcker would have done the job at sandsucker would have done the job at the basins. He is more than pleased with the way the work is progressing, and said one basin would be finished by Wednesday.

The Board of Works has a lot of important business to deal with to-morrow night. With the Fuel Committee, it will investigate the charges made by the Building Trades Council against John Henry, employed on the job at the city yards, and accused of opening some of the men's envelopes. It will also take up the case of Ward Foreman Nelligan, who had a man on the pay roll who was not working. The committee has already expressed itself satisfied with Mr. Henry's explanation. Other matters to be dealt with include the protest of a number of east end residents against the proposed change in the Radial route, and the Parks Board communication in connection with the offer made by W. D. Flatt to give a site for a park if the city constructs a new roadway on Garth street, south of Aberdeen, puts down a new sidewalk, and spends' \$300 a year for ten years improving the property. The Board of Works has a lot of im-

Sam. Garrity, the genial motorman on the Vertical Limited, at the City Hall, is going to ask Mayor Stewart's permission to carry a shot gun for self-protection from practical jokers. Sam. tried a little joke on one of the City Hall officials on Saturday, and now his life has been threatened. A man, a woman and the C. H. O. got on the elevator at the ground floor. Of each Sam. inquired what floor was wanted. The C. H. O. stared straight ahead ignoring the questions.

tion.

"Poor man," said Sam. in sorrowful tones, addressing the woman, "he is deaf and dumb. Can't hear a word you say and only speaks in signs."

"Yes; isn't it terrible to see such a bright man so sorrowfully afflicted," sighed the sympathetic woman.

Had she noticed the rosy red the C. H. O. turned, as he almost exploded with indignation, she might have discovered the joke. But there was nothing for him to do but carry out the part thrust upon him until out of sight.

Mr. Barrow had a look over part of the Brantford & Hamilton Railway out-side the city, and is quite pleased with the construction. He will go over the rest of the route early this week. The sidewalk at Hess and Markland streets is to be raised.

Cicty Engineer Barrow has received an invitation from the Mayor of Detroit to attend the annual convention of the American Society of Municipal Improvements next week. He expects to go.

Martin & Martin have written to the Board of Works, complaining of the smoke from the Eagle Knitting Company's works. The smoke by-law, compelling manufacturers to use smoke consumers, has not received its third reading yet.

others, asking that Queen street, south of Aberdeen avenue, be coated with asphalt; has been received by Secretary

lar. Get your new hat at waugh's.

—Miss Florence Harvey and Miss Phepoe are representing the Hamilton Ladies' Golf Club at the Canadian championship tournament, which opened today at Ottawa. The entry list is very large, there being about thirty from Montreal and Toronto. Miss Nesbitt, of Woodstock, has also gone down. The final of the Canadian single championship will be played on Saturday.

MORENGA KILLED.

Hottentot Rebel Chief Slain in Cape Colony.

Cape Town, Sept. 23.—The British engaged a force under the rebel chief Mor-enga at Witpan. The report says that Chief Morenga, his son, his uncle and others were killed. One Englishman was killed. This is regarded as a creditable achievement, which will finally end the border disturbances in Southwest Africa.

Germany's Dangerous Hottentots. Berlin, Sept. 23.—The Governor of Southwest Africa reports that Chief Morenga, who is reported killed, had refused to surrender and crossed into British territory. Morenga had been Germany's most dangerous Hottentot for years.

Gave Germans Trouble. Uptington, Cape Colony, Sept. 22.—It is reported here that Morenga, the Hotentot chief, who caused so much trouble to the Germans in Southwest Africa, was killed Sept. 15, in an engagem with a British force at Withan, in Kalahari district. It is added that his son, uncle and secretary were also slain in the same encounter.

EIGHT EXECUTED.

Seven Men and One Girl Shot With out Trial.

Lodz, Russian Poland, Sept. 23.—Seven for participating in the murder of Marquis Silberstein, owner of a large cotton mill, who was killed by his employees on Sept. 13 because he refused to pay them for the time they were out on strike.

Police and troops on Sept. 20 made a sudden descent on the mill and arrested 800 of the employees.

sudden descent on the 800 of the employees.

To the Editor of the Times:

Sir_Your interesting article in last evening's paper with reference to the mapprovement Society will be read with great pleasure by all interested in the public at large, and the beautifying of the city. It was not local in its endeavors, and was thoroughly non-political in its and an interfering society, but before many months they and the City Hall officials gave it cordial support on finding the members were only anxious and willing to assist and stimulate them in enforcing laws relating to good citizenship. That the public appreciated the work everyone knows. They trusted the public and were rewarded by this honesty and good behavior. Our people have been taught to respect the lawn, the flower plot, the rockery, etc., etc.

White Wings.

A visit to the east end reservoir will repay anyone. It is a beauty spote easily accessible by H., G. & B. car.
