MARKETS and FINANCE

Saturday, March 7.—The only change in the market this morning was in the meats. All tended towards a rise, and dressed pork went up from 636 to 7 cents a pound. Vegetables were plentiful, and so were butter and eggs, but the prices' were unchanged all through.

Grain was unchanged all through.

Grain was unchanged, except that oats went down a cent a bushel. Hides are not very lively just now, and prices are slightly depressed.

Bradstreet's Trade Review.

Bradstreet's Trade Review.

Montreal—There continues to be shown forth some improvement in the tone of wholesale trade here. Retail business is still on the quiet side and in many directions collections are slow. The number of unemployed is still large, although in many lines men are being called back to work.

Toronto—There has been a better tone to trade here during the past week. Wholesale lines of spring goods are moving more briskly. This has been particularly noticeable in drygoods. Goods are going forward well, there being less difficulty in this connection than was the case last vear. The millinery openings have been largely attended and orders have been good.

Winnipeg—Out of town orders are keeping the wholesale busy and all goods for the spring trade are going forward rapidly.

Vancouver and Victoria—The volume of business all along the coast is now fairly active.

Quebee—Considerable snow has fallen in country parts during the week,

Canada has borrowed liberally of British capital so far this year. Including the Dominion loan of about \$15,000,000 this country has floated securities amounting to about \$75,000,000 in London since Jan. 1, or about one-half of our borrowings for the twelve months of 1997. Comparatively speaking, the rates have been less than last year, and they indicate that our securities take precedence over those of most countries in the financial centre of the world. This should be highly gratifying to Canadians. The three or four important railway systems in this country have apparently been able to get all the money they required at rates ranging from 4 to 4½ per cent. for long dates, while the railways of the United States have been obliged to pay 6 to 7 per cent. The latter were compelled to negotiate loans of short dates last year in London and other falling due this year. Some United States railways have failed to get the capital required, and within a few months have been placed in receivers' hands.—Toronto Canada has borrowed liberally of Brit required, and within a few months have been placed in receivers' hands.-Toronto Saturday Night

See Canada. London, March 6.—Mr. C. M. Hays, General Manager of the Grand Truny, interviewed by The Financial News, said: "What we want is to induce all classes of the British public to visit Canada and judge for themselves of her possibilities and her immense latent wealth. We invite all and son dry." The Financial News editorially says that undoubtedly the growth of British imports into Canada is dude to the preference. "It rests entirely with us whether we remain the Dominion's best customer or not." London, March 6 .- Mr. C. M. Havs

SLID INTO THE CANAL.

Welland Girl Had a Narrow Escape From Drowning.

Welland, March 6. — Ellen Gillam, aged ten years, had a narrow escape from drowning this afternoon. While walking along the west side of Muir street she siipped on the ice and shot down the embankment into the canal, down the embankment into the canal, the rising of the water having left a space between the edge of the ice and the bank. Into this she went, feet first, and was immersed to her shoulders, when P. H. Rowley, manager of the local branch of the Bank of Nova Scotia, hurried to her rescue.

Her Social Position.

New York, March 6.-Charged New York, March 6.—Charged with the theft of jewels valued at \$20,000 from one of her wealthy friends, Mrs. Jeanette Newman, who lives at the Stratford House, this city, was locked up at police headquarters to-day. The police say Mrs. Newman has made a full confession, and told them she was actuated by her desire to keep her young son in a private school and to maintain her own social position. The jewels were owned by Mrs. Evelyn Bell, who lives in Central Park west and also has a home at Port Chester.

(By Horatius Bonar.) (Dr. Horatius Bonar, whose ministry at Kelso and at Edinburgh. Scotland, extended over the greater part of the last century, is today best remembered for his many fine hymns. The one below was published first in 1857 in his book book entitled "Hymns of Faith and Hone"."

Thy way, not mine, O Lord,
However dark it be;
Lead me by thine own hand;
Choose out the path for me.
I dare not choose my lot;
I would not, if I might;
Choose thou for me, my God,
So shall I walk aright.

The kingdom that I seek The kingdom that I seek
Is thine; so let the way
That leads to it be thine,
Else I must surely stray,
Take thou my cup, and it
With joy or sorrow fill,
As best to thee may seem;
Choose thou my good and ill.

Choose thou for me my friends, My sickness or my health; My sickness, or my health; Chose thou my cares for me, My poverty or wealth. Not mine, not mine the choice, In things or great or small; Be thou my guide, my strength, My wisdom, and my all.

The jail has been very much over-crowded for some time, and the quantity of food served has not been adequate, it is said. The prisoners were exoited also because Judge Rellisab meted out severe sentences to a lot of prisoners this afternoon.

When supper was served to-night the minor prisoners were at liberty in the corridors, and they at once began rioting. They broke everything they could in the jail, and tried to batter down doors. The ringleaders have now been locked in cells, and both police and Deputy Sheriffs are on guard inside the jail.

WHITNEY NEEDS MORE MONEY.

Estimates Are Over Seven and a Half Millions.

Sixty Thousand Dollars For the Urban Schools.

Estimated Expenditure Increases by Over a Million Dollars.

Toronto, March 7.-The estimated ex penditure for the Province of Ontario for 1908 amounts to \$7,501,875.67. This sum does not include the \$45,000 necessary to pay the salaries of Cabinet Ministers which are now payable by statute and therefore do not come within the scope of what are generally known as the estimates. The Provincial Treasurer, the estimates on the table of the Legislatures yesterday, and in order that members may have an opportunity of thoroughly digesting them he will not make his budget speech until Tuesday or Thursday week. In comparison with the estimates of 1907 there is an apparent increase of \$927,744.39, but the increase is much larger, because the Min the consolidated revenue fund.

from \$6,000 to \$7,200.

Under the head of technical education there is no advance. The Legislature will be again asked to vote \$50,000 for this purpose on the main estimates, but it is understood that matter is still considered by the Government, and that when the supplementary estimates come down they will contain a special amount.

For Public Institutions.

In the estimates for the maintenance of public institutions there is an increase of \$112,000. Although in common with other sections of Government services a number of small in. with other sections of Government service there are a number of small increases of salaries, the greater part of the advance is in respect of the cost of supplies. The expenditure in connection with the Penetanguishene institution is estimated at \$69.618, as against \$43.916 last year, but the increase is due to the fact that double the number of patients are to be accommodated there, and consequently one item for groceries has advanced from \$10.000 to \$21,000. Similarly the estimated expenditure in connection with the Hamilton Asylum has increased from \$140,000, in round figures, to \$160,000. Of the increase \$12,000 comes under the head of groceries and \$3,000 for increased salaries and wages. Something like \$25,000 more is being asked for in connection with agriculture. The largest item of increase is \$8,000 for salaries and expenses in respect of the Agricultural College at English. Three vice there are a number of small in The largest item of increase is 28,000 for salaries and expenses in respect of the Agricultural College at Guelph. Three new items are introduced, two of \$3,000 each for field crop competitions and spring breeders' associations, and \$1,000 for pure seed fairs. There is, however, included in the public works estimate a further vote of \$28,750 for equipment and interest in connection with the improvement in connection Guelph institution.

Guelph Winter Fair.

Guelph Winter Fair.

The Government have apparently appreciated the need for the provision of further accommodation of the Guelph Winter Fair, as they are asking for \$20,000 to be used in making an addition to the building.

The estimates for colonization and immigration in consequence of the agreement arrived at by the Dominion Government have been arranged on a different basis to that of former years. The Government apparently are convinced that the work carried on by the Salvation Army is of a beneficial character, the vote in their favor being increased by \$3,000 to \$10,000. In addition to this, \$20,000 is to be spent in the old country on advertising and the selection of immigrants. There is a decrease in the estimates for hospitals and charities amounting to \$40,000. This is due to the completion of certain works which were undertaken last session. The new item in the estimates is \$4,000 for the Toronto Industrial Refuge Home, and the estimates for the main-tempers of ratients in municipal sani-54,000 for the Toronto Industrial Refuge Home, and the estimates for the main-tenance of patients in municipal sub-taria for consumptives is increased by meanly \$2,000. On colomization roads it is estimated that \$488,053 will be expended. Of this sum \$113,430 goes to the north division, \$42,710 to the west, \$120,951 to the east, \$79.046 to the Temiskaming division, while \$124,346 is placed under the head of "general." No less a sum than \$55,000 is earmarked for new trunk roads and \$40,000 for the Soo trunk road.

Forest Protection.

For the protection of the forests the estimate for fire ranging is increased from \$60,000 to \$80,000, and forests reserves from \$30,000 to \$40,000. The estimated expenditure on the Gillies limit for the structure of the fire that the structure of the structure of the Gillies limit for the Gillies limit

from \$60,000 to \$80,000, and forests reserves from \$30,000 to \$40,000. The estimated expenditure on the Gillies limit is \$50,000, or \$10,000 less than last year, while for the payment necessary in connection with exploitation and investigation \$6,300 more is required. No indication is given by the estimates of the near approach of an election, the amounts being the same as last year, with the exception of \$8,000 for the preparation of vaters' lists for the unorganized districts, the work which had to be carried out in accordance with the statute.

Seven thousand dollars more than last year is the Government's estimate in connection with the Hydro-electric Commission, the total being \$25,000. Another item of interest is the vote of \$2,000 as Ontario's contribution to the scheme for sending a team of athletes to compete at the Olympic games in the old country this summer.

"WHITE MAN'S LANGUAGE."

Claim That Hindus Misunderstood the Term.

Vancouver, March 6.—Eighteen Hindus, held under the Provincial Natal act, were brought up at the Police Court to-day. Counsel for the Government asked for a conviction and the statutory penalty of \$500.

Counsel for the Hindus contended that the officer making the arrest failed to make the meaning plain. Under the cuctional test the immigrant is required to write English or any other European language. The interpreter said English, or any other white man's language. Counsel argued that the Hindus understood "white man's language" meant English and no other.

Judgment was reserved. Magistrate Williams may state a case.
