

WITH THE FARMERS

THURSDAY'S GRAIN MARKETS.

Winnipeg, April 26.—There was a fairly good export demand for contact grades when the market opened for the first hour, but the sudden rush of shorts to cover on bullish Argentine sent the market up a cent and export men were again out of it. The estimated shipments from Argentina for the week are as low as 2,500,000 with smaller shipments from America and statistical figures from Europe that were quite alarming. These factors made an active bull market which was well sustained all the morning, the advance being 2 to 2½ cents in Chicago and Minneapolis and three cents in Winnipeg for April and May and 2½ for July. Duluth reported heavy acceptance of Manitoba wheat for export. Present position of wheat is very strong, advance coming in as it is in face of exceptionally favorable seeding.

Winnipeg cash wheat—No. 1 Hard, 1.11½; No. 1 Northern, 1.10½; No. 2 Northern, 1.07½; No. 3 Northern, 1.01½; No. 4, 93¢; No. 5, 83¢; No. 6, 75¢; No. 7, 57¢; No. 8, 47¢; No. 9, 37¢; No. 10, 27¢; No. 11, 17¢; No. 12, 7¢. Flax—1.09½. American options: Chicago—May opened 82½, closed 82½; July opened 88, closed 88½; September opened 89½, closed 89½; Minneapolis—May opened 1.04½, closed 1.05½; July opened 1.03, closed 1.05; September opened 90, closed 91½.

FRIDAY'S GRAIN MARKET.

Winnipeg, Man., April 26.—It was expected that cables this morning would be higher, owing to the strong advance in America yesterday, but it was surprising that they came lower. There was, in consequence, a considerable selling of wheat at the opening, which caused a sharp drop in prices across the line, but in Winnipeg they showed corresponding decline. There was a sharp drop in wheat profit taken by locals, but orders to buy were not very large and the market became quiet. It is estimated that the world's shipments which Brookfield places at 65,760,000 bushels, was extremely low, though it had the effect of firming the market, nothing seemed to have been able to send the prices higher. Modern Miller could hardly be considered bullish or bearish. It is reported generally, good, healthy growth of winter wheat in Kansas and Nebraska. In the more eastern states, rains are increasing. There was a very good demand for hard wheat for export, and a fair demand for contract grades. It was a busy day in the wheat pit, trading having been fairly large.

Winnipeg cash wheat—No. 1 Hard, 1.10½; No. 1 Northern, 1.09½; No. 2 Northern, 1.06½; No. 3 Northern, 1.00½; No. 4, 93¢; No. 5, 83¢; No. 6, 73¢; No. 7, 57¢; No. 8, 47¢; No. 9, 37¢; No. 10, 27¢; No. 11, 17¢; No. 12, 7¢. Flax—1.09½. American options: Chicago—May opened 82½, closed 82½; July opened 88, closed 88½; September opened 89½, closed 89½; Minneapolis—May opened 1.04½, closed 1.05½; July opened 1.03, closed 1.05; September opened 90, closed 91½.

SATURDAY'S GRAIN MARKETS.

Winnipeg, April 25.—The wheat market was depressed strong again today. Liverpool was unexpectedly strong and closed ½ to 1½ higher owing to small American shipments and unseasonable weather in England. American markets opened firm and advanced sharply, but closed irregular at unchanged prices for Chicago May and ½ to 1½ higher for later months and other markets. Winnipeg market was very strong, closing 1½ to 1½ higher than yesterday. Today's Winnipeg prices: No. 1 Northern, 1.11½; No. 2 Northern, 1.08½; No. 3 Northern, 1.01½; No. 4, 93¢; No. 5, 83¢; No. 6, 74¢; No. 7, 57¢; No. 8, 47¢; No. 9, 37¢; No. 10, 27¢; No. 11, 17¢; No. 12, 7¢. Flax—1.09½. American options: Chicago—May opened 82½, closed 82½; July opened 88, closed 88½; September opened 89½, closed 89½; Minneapolis—May opened 1.04½, closed 1.05½; July opened 1.03, closed 1.05; September opened 90, closed 91½.

LESS EXHAUSTING THAN WHEAT.

Prof. Bolley of the North Dakota Government Agricultural Experiment Station, after a prolonged series of experiments came to the conclusion that the flax crop as such is not more exhausting to land than ordinary farm crops. "Indeed," says Prof. Bolley, "it has been shown by the experiments of our chemist and agriculturalist and by my own biological experiments that the flax plant is less radical in its draft upon the soil than wheat, corn or oats."

It is almost universally recognized by farmers of the North-Western States that flax is the most profitable crop for new lands and it has become a common practice to sow it on first breaking. But Prof. Bolley is of the opinion that it may also be very profitable grown on old lands if a proper rotation is observed. He points out that the summer season in the North-West is very short and that consequently it is very desirable that the farmers should have as many different crops as possible that will mature in a short season. Flax is a pre-eminent short season crop, maturing more quickly than wheat, oats or barley and the experience carried on by the North Dakota Government agricultural station prove that it may be made a permanent source of income to the North-West farmers if they will grow it in rotation with other crops.

BIG WHEAT ACREAGE.

Macdonald, Alta., April 25.—R. N. Macdonald has a 1,200-acre field of fall wheat which gives good promise. There isn't an acre in the world which looks unpromising, said Mr. Randall, and the grain appears to be growing at the rate of about two inches a day. Although this season's growing has been 400 acres to plant wheat, with 400 acres still to plant. This will give him 1,700 acres in wheat this season which is the biggest individual acreage in this district.

PROFITABLE DAMAGED GRAIN.

In the Agriculture Committee of April 10th at Ottawa, Mr. J. R. Grisdale, of the experimental farm, gave evidence relating to the feeding of frozen wheat to hogs. On the whole the experiments at the farm have been successful, showing that frozen wheat can be fed pure with good results, though care is necessary, it being advisable to grind it fairly fine or soak it. A bushel of wheat will produce from thirteen to fifteen pounds of hogs. Strangely enough better results were obtained from the more badly frozen wheat. With live hogs set from 8¢ to 9½¢ per pound, this would make a very profitable sale of damaged grain. When the large port packing plant now in course of erection in Edmonton begins operations, there should be a continuous demand for live hogs at prices that will pay to feed first class grain, as well as any that should be touched with frost.

SEEDING AT RED DEER.

Red Deer, Alta., April 25.—The farmers are all busy seeding in the Red Deer district and the ground is in splendid condition for the grain. Never has there been a spring that gave promise of a better crop than the present season. There is a fair amount of moisture in the ground and the soil is warming up so that germination of seed will take place promptly. There will be a much larger area of land sown to grain this year than ever before, and everything to show that this season's crop will be the banner crop of the district.

WINNIPEG MARKETS.

Winnipeg, April 24.—For the first time in several days the wheat market has developed weakness. Oats due to a change in local export quotations—April, open 1.09½, closed 1.09½; May, open 1.11½, closed 1.10½; July, open 1.13½, closed 1.12½; October, open 1.15½, closed 1.14½.
