

## Gasoline ENGINES For Fishermen.

THE ENGINE THAT MASTERED NIAGARA

### The "FERRO" Marine Gasoline Engine

is the one which has given the Best Results in Fishing Boats. It is the most simple, and most economical Engine built, and where Gasoline is expensive, you will save more by its use, than kerosene, in the saving of fuel.

"FERRO ENGINES" can also be successfully run on kerosene, which is a point all Fishermen will appreciate.

The L. M. TRASK CO., who introduced "FERRO ENGINES," both in Canada and Newfoundland, have opened an office in St. John's, where they will carry "FERRO ENGINES" in car-loads. Also a full line of accessories, such as Batteries, Spark Coils, Propellers, Shafting, etc., and all repairs for these Engines. This advantage will be appreciated by all Fishermen, when they can get repairs without the usual delay and expense of having them come by express from the Factory.

The TRASK CO. have gotten out a very complete Catalogue, showing their full line of Engines, Engine Fittings and Machinery of all kinds. It contains valuable information for operators of Engines, and will be mailed FREE to anyone who will send us a post card giving their name and address, size of Engine required, and dimensions of Boat. It is intended for.

Address: **THE L. M. TRASK Co.,**  
P. O. BOX, 845, ST. JOHN'S, N. F.

Don't buy a Kerosene Engine before you investigate the merits of the "FERRO." It will put you under no obligation to buy, and may save you hundreds of dollars. —oct26,31,th.s.f

The United States Authorities have Removed the Duty from Solignum.

This is indeed a triumph for a British Preparation when a foreign country, with a Protective Tariff like the United States, removes the duty from a British manufactured article, it is not a case of "pull" with the authorities, but a case of real merit. This speaks for itself. And Solignum is only

**HALF THE PRICE OF PAINT.**
