ABSOLUTELY WATERPROOF
That's the kind of roof you get by using EVER-LAS-TIC READY ROOFING, \$2.70 per roll. EVER-LAS-TIC—because it lasts; there's no rubber in it. Rubber rots, you know that. READY—because each roll contains enough nails and cement to finish the job. ROOFING—because it's made to withstand sun, rain and wind.
PARTICULARS: Each roll contains 108 square feet; one roll will cover 10 square yards. Multiply the length of your roof by its width, divide by 100 and the answer will be the number of rolls required to cover your roof.

UNDERSTAND THIS!
That the French Dry Cleaning Process as employed by us is totally unlike the ordinary method of Dry Cleaning.
The greatest point in favor of our process is that it is absolutely odorless, and those who have had experience with the other method will know just what this means.
