Report of S. P. A. Agent.

WEEK ENDING MAY 26th.

Shot three dogs, one horse and four bulls. Sent in five horses for treatment, three of which were in a very bad state. One very old and thin, another with very sore shoulder and hind leg. Visited ten stables, one on Duckworth St. East in basement of dwelling, and not fit to keep a horse in. Attended to several minor calls.

Below is a copy of a letter received from the master of S.S. Ozonian:

Jonas Barter, Esq.
Dear Sir—Before leaving St. John's I beg to thank you and through you the Society which you represent for the attention and very valuable assistance given in looking after the cattle which were landed from my steamer. Again thanking you.

I am, yours faithfully,
JOHN PARRY, O.B.E.,
Master.

Crescent Patrons Delighted With 'Dinty'

MOST CAPTIVATING PHOTOPLAY EVER SEEN.

To-night marks the third showing of "Dinty" the most popular motion picture seen in a long while. The thrills in "Dinty" are all genuinely worked out, thus showing the skillful work of Marshall Neilan, the director. The Chinks have got the girl (Marjorie Daw) stuck to the table beneath the swinging gullotine. The blade comes closer—in by inch nearer her throat. A sudden crash at the door. It splinters before the rush, and batoning, hitting, piling on to the Tongmen come the police. Biff!

But, where's Dinty, the freckle-faced newsboy who found the girl first? Everybody speaks in glowing terms of this wonderful story of deep interest.

Miss Betty Donn, the talented Soprano soloist added fresh laurels by her renditions of "The Rosary" and "Miserere." Another big special attraction is scheduled to be shown at the Crescent Monday. Watch the announcement in Monday's Telegram.

Icebergs Menace Navigation.

A message from Capt. Winsor, of the s.s. Senet, received yesterday afternoon, stated that the ship would proceed direct to Catalina from Westville, as icebergs were numerous between Cape Bonavista and Catalina, making navigation very dangerous. The ship, therefore, will be unable to make all ports of call.

Insane Man Suicides.

CUTS THROAT WITH RAZOR.

Whilst temporarily insane, Joseph Mitchell, a resident of Gad's Harbor, committed suicide yesterday through cutting his throat with a razor. The victim who is 43 years old, was married. A message reporting the above has been received by the Deputy Minister of Justice from Magistrate G. W. Wilton, of Bonne Bay. An inquest has been held.

Public Opinion.

The Editor of "Public Opinion" is beginning in the week's issue a series of articles on popular education. Do not miss it. To ensure your copy you are advised to send one dollar as a year's subscription. This will ensure the paper being sent each week to your address. Following this article on education, the publication each week till finished of "Invincible Ignorance" will be undertaken. One chapter alone of this will give you more than your dollar's worth. Readers of "Public Opinion" are assured of good wholesome reading. No party politics, though the author is opposed to the present Administration. This paper is published in the interest of nobody, but solely in the interest of Native Land. Address Public Opinion, P. O. Box 659—adv12

NOTICE TO PROPERTY OWNERS.

There is a demand for practically all kinds of houses at reasonable prices.

The Home Estate Co., Ltd., charges 2 1/2 per cent. for service in selling houses; that is the only charge; there is no charge if no sale is effected. Thus to sell a house for \$1,000.00 through the Company, it costs the owner \$25.00, and so in proportion to price realized.

The Company makes no charge to purchasers of properties, unless an understanding is openly arrived at between the owner, the purchaser and the Company.

We are looking for houses now to offer to those wishing to secure them.

A Thirty Foot Fall

ROSE AND LOAN GO OVER BANKRUPT.

A horse owned by a Kilbride had a narrow escape from being yesterday when through some animal began to back, and over a thirty foot embankment animal, which was drawing a horse, took the "hottion" to when near Coush's place on Southside Road, and before the south chucks horse and horse went over the retaining wall, horse fell on his back, but breaking a belly band no other was done. The fence surrounding garden had to be cut down to animal on to the road again.

Escaped From Asylum

A patient of the Asylum for Insane, named Hare, escaped from the institution on Thursday afternoon and was at large until last evening when he was located at Hr. March. The unfortunate man was brought back to the Asylum last night. Hare had been an inmate at the institution for some time past, having attempted the shooting of Hare March at Hr. Grace several years ago.

Tarvia Prevents Dust, Tarvia Preserves Roads

In the United States and Canada Tarvia is the standard by which other road-binders and preservatives are judged.

Tarvia is made in three grades. "Tarvia X" for road construction, "Tarvia B" for preservation of road surface and "Tarvia K-P" for repaving roads. Both "Tarvia B" and "Tarvia K-P" have been used by John's Municipal works for several years.

"Tarvia B" actually enters road surface, acts as a cement, resists the wear and tear of traffic. By cementing together the dust particles "Tarvia B" prevents the formation of dust.

After the application of "Tarvia B" to a road surface a thin layer of sand should be applied to take up the excess liquid and to prevent tracking. This layer of sand prevents Hoses from slipping and prolongs the life of the road surface. Broken stones are not as satisfactory as sand for the purpose.

A road after being treated with "Tarvia B" does not become muddy in rainy weather, but sheds water and dries off quickly after the rain, leaving the road in admirable condition while untreated roads are still deep with mud.

"Tarvia B" surfacing should be applied annually but only when roads are in good condition and free from surplus dust. All holes and depressions should be repaired with broken stone, and "Tarvia K-P".

When "Tarvia B" is applied by mechanical sprayers, care should be taken to have men with brooms and hand sprayers go over the ground so that excess "Tarvia B" may be brushed out and not allowed to waste and so that bare spots are treated and the entire road surface secured.

A loose, "happy-go-lucky" application to sheer waste of time and money. "Whatever is worth doing is worth doing well."

"Tarvia B" is admirably adapted for the treatment of sidewalks, lawns in parks, hospital grounds and cemeteries. Wooden plank bridges will last longer if treated with "Tarvia B". Fence posts, and houses etc., will be greatly benefited by treatment with "Tarvia B".

Further particulars will be gladly given upon application to COLIN CAMPBELL, LTD.

A Pit Without Bottom

Far from habitation, on a hillside in the moors of Derbyshire, lies a dreadful chasm in the rock. The chasm is of no great width but has sheer descent to a tremendous depth. This is the bottomless pit of "Hole," regarded for centuries as a faithbride. The gap is surrounded by a low stone wall, and a projecting ledge at one end enables the adventurous investigator to peer down into the gloomy depths. For ages the chasm was regarded as a terrible place, and was supposed to lead directly into infernal regions. A gruesome story related that three hundred years ago a man was lowered into the chasm, a depth of eight hundred feet. The unfortunate fellow was hauled again he was a raving maniac. He died eight days later. For centuries the place was regarded with superstitious awe and no real attempt was made to find the bottom until about 1800, when a writer stated that he saw a mass of ropes had failed to reach the bottom. The whole district is honeycombed with holes and crevices, it is probable that the chasm at "Hole" leads to a mass of underground passages.
