Coaker-Hickman et al Turn Economists!

Mr. L. Edward Emerson has been proved in a forty below zero political campaign during the past few days, the latest kangaroo never covered a much ground in eluding his pursuers than Mr. Emerson in his frantic efforts to find a Coaker candidate to back on to either side of him.

In a test of public sentiment yesterday an observant citizen interviewed nearly 50 voters, amongst several representative, outport results—two Coakerites only and they were that way because they were out to get all they could out of the public chest.

The Liberal Goblins would be a more appropriate title for the party of Coaker-Hickman-Collinshaw et al. The Liberalism of this "patriotic" is only fenced around themselves and their "et al" heels.

That they'll eat all in the way of government plunkings that will come their way regardless of how the taxpayers are tortured is as sure as that they ate all that the suffering taxpayers had to produce for them the last five years.

The Hickman-P.T. McGrath-Mosdell trio preaches Economy in one place and in the next tells of a costly and expensive Department that Coaker is upon inflicting on the taxpayers' backs.

The job of Head of another costly and useless White Elephant such as the book to be given (but the taxpayers will take good care he won't get it) to Mr. Kenneth Brown, Coaker nominee for Twillingate.

This would mean another Five hundred Dollar yearly job, a costly and suite of offices, a staff of bookkeepers fed at the taxpayers' expense for doing nothing and all in all an expense of about Fifty hundred Dollars a year.

In twenty years the cost of such an unnecessary ornament of extravagance would fleece the people of One Million Dollars, representing less than a most colossal nothing on a small population of working people already bent under the burdens of taxation.

The crazy individual, other than Coaker autocrat, would propound a fantastic idea as an expenditure of that kind? What too is the estimate of the taxpayers' common sense in imagining they are going to swallow his preposterous nonsense that he will practice economy.

Also, may it be asked, is the difference between Economy and the hidden nigger in the Hickman-Mosdell-McGrath manifesto—the subsidy for a West Indian service—into another merciless extraction from the taxpayers' pockets of One hundred Thousand Dollars a year?

This sum in 20 years, would amount to Two Million Dollars more of waste-money, every copper of which will be pulled from our earnings to the same force and vigor as the old demagogues in extracting a shilling with the difference that the old of the former would remain for the millions of dollars piled up on the public debt the past five years all amount with even a more increased, given any more endorsement Coaker rule, with a Hickman, Coaker, McGrath and Mosdell following.

Look into the future under such a monstrous assemblage of hypocrisy and political economists gives us a picture of a bankrupt country, strewn with the wreckage of thousands of homes, a Newfoundland filled with a starving, tottering people, their children and daughters driven from their country.

At the brighter picture and a Government opposed to the common will give us. It will be a land of plenty, a land with a country covered with happy homes, with the acres followed by their sons and daughters and all enjoying the blessings of peace and contentment in their homes, and the land loved best by all others.

The First Card

Let us suppose that it were necessary to have a card in order to take a vote to the store in St. John's the best tobacco, Cigars, Cigarettes and the like, every man entering the store would surely mark his ballot.
