

Military vs. Civilians.

There appears to be a very bitter feeling existing between the military and civilians at Quebec, arising out of the Lemesurier-Balmist affair, in which from all accounts the latter was to blame for the disgraceful proceedings. The latest phase is that the officers of the 53rd tendered Mr. Lemesurier an invitation to a ball, and then withdrew it, and the citizens by way of reprisal refused to accept the subscriptions of the military to the skating rink. Further, at a party given by Mr. Pope, at which Mr. Lemesurier was present, the officers informed the host that he must order Lemesurier from the house, or that they would leave themselves! The civilian whose presence was so offensive to these men accordingly left the house—and thus the social war rages. The antagonism between the military and civilians is not confined to Quebec—Montreal experiences its share of it. There are many of the officers here who have conducted themselves in a manner which reflects anything but credit upon them. Street rows with policemen, drunkenness and creating disturbances at midnight, buffoonery at the theatre, and insulting ladies at bazaars, are some of the innocent amusements which have been indulged in by not a few of "her Majesty's servants" in the last named city. Nor does this sum up all their transactions in the way of annoyance to the long suffering colonials, as witness the cases of seduction at London and Ottawa, and the recent attempted elopement at Montreal. It would seem that a commissioned officer is allowed a large range of scoundrelism without calling forth a word of censure. It is only such men as Lord Cecil and Lieutenant Dunlop, who deem it their duty to preach the gospel to the multitude, that come under the ban of the red tapists of the army.

The News from Cuba.

Despatches from Havana throw a flood of light upon the recent news from Cuba and give us a cause for the intense excitement in Havana during the past few days. The insurgents had captured the important city of Puerto Principe, the city of second rank in the island. Curiously enough this event occurred on the same day on which Count Valmaseda entered the abandoned town of Bayamo, which had hitherto been the headquarters of the insurgent government. The cunning insurgents led him on his march without serious resistance, he believing all the time that he was striking a fatal blow at the revolution, and when he was well within the toils they suddenly turned upon Puerto Principe, and Colonel Mena, with his reported garrison of fifteen thousand troops, an equal number of volunteers and eighteen cannon fall into their hands. It is not strange that the excitable Cubans should be demonstrative and the Spaniards revengeful on the discovery of this intelligence. By mail we have dates from Havana to the 23rd instant. It gives among other important news, the fact that a committee of Cubans had presented to General Dulce the resolutions in favor of a free government in Cuba, and asked him to proclaim it. His reply was that he had not the power to do so and could only remit it to the home government, which he would do.

Turkey and Greece.

Our latest news from Europe regarding the Eastern question is to the effect that Greece is not willing to follow the recommendations of the great Powers, and that Turkey is hopeful that peace will be the result of the Conference. Rumors for some days had been in circulation to the effect that Turkey was heavily arming herself. These rumors were, no doubt, largely encouraged by the announcement that, in the event of war breaking out between Turkey and Greece, the Viceroy of Egypt would furnish a contingent of fifty thousand men. The Sultan denies that Turkey is doing anything beyond what is absolutely required by the circumstances. All through this trouble the government of the Sultan has comporting itself with dignity and propriety. It has been the reverse with Greece. Now that Europe has deliberated and given advice, the best thing that can be done is to leave Greece to her fate. Turkey, by the course she has taken, has the sympathy of the nations. If Greece will not take advice let her learn the lesson of experience. A little whipping might do her good.

Mr. Barber before his Constituents.

According to arrangement a convention of reformers was held in the Town Hall, Milton, yesterday (Friday) to consider the course pursued by Mr. Barber, member for Halton, during the last session of the Local Legislature. Mr. McNaughton, Warden of the County, occupied the chair, and addresses were delivered by Messrs. Campbell, R. Matheson, Dr. Buck and others. Mr. Barber explained, apparently to the satisfaction of those present, that his vote had not been influenced by pecuniary motives. The following resolution was thereupon passed unanimously: "That this convention having heard the explanations of W. Barber, Esq., our representative in the Local Legislature, desire to express their gratification that he has successfully refuted the charges of personal corruption against himself, and also their confidence that in the future he will be found acting heartily with his party in the Legislature, for the purpose of securing a return to a purely Reform Government for Ontario, and thereby securing a more truly economical administration of public affairs."

HOWE AND THE GOVERNMENT.

Mr. Howe and Sir John A. Macdonald have settled the Nova Scotian question so far as its principles are concerned. It is understood that the settlement involves an increase of the money appropriation to Nova Scotia, but it is no part of the arrangement that any change is to be made in the tariff.

PROSPECTUS OF CUTHBERT'S Circulating Library.

THE Subscriber has pleasure in announcing the establishment of a Library for public circulation. This is a want that is very much needed in Guelph, and from the conviction that it will be an advantage to the public—one which will be felt and appreciated—its institution is undertaken. The best incentive to profitable reading and research is some object or prize apart from the object of developing the mental faculties. Study pursued simply with the latter object in view is dull and tedious, and not a few are frightened to undertake the task, when they consider the time, patience and labour involved in the acquisition of extensive knowledge. To lessen the influence of such an idea, the subscriber proposes: 1st—To give free access to his Library for the small sum of \$1.00 per year, payable in advance. 2nd—At the end of the year, prizes shall be awarded for the best essays on three distinct subjects—said subjects to be submitted by the subscribers. 3rd—The information necessary to the essays to enable them to write on any of the subjects that shall be submitted, shall be fully within the scope of the library. 4th—The essays shall be referred to a committee of gentlemen, thoroughly competent to examine them and decide upon their merit. 5th—According to the decision of the Committee, so shall the prizes be awarded. 6th—The prize essays shall remain the property of the subscribers, who alone shall possess the right of publishing them. 7th—Every one, upon payment of one dollar, has the right to compete for any of the prizes, or for all of them. 8th—As this enterprise is being established for the purpose of giving rise to a healthy mental competition amongst those who may choose to subscribe to the Library, it is thought advisable to receive less than ten written papers on any of the subjects that shall be submitted, while it is desirable that every member should complete for one or more of the prizes offered. 9th—The value of the prizes shall not be less than \$5.00 in cash, which shall be awarded in cash or otherwise at the option of the successful competitors. 10th—Any person in any part of the country may become a member, provided he or she can conform to the rule of not retaining a book longer than one month. To those residing in Guelph and vicinity the time allowed shall be two weeks. 11th—The Subscriber having made arrangements with some of the largest publishing houses in England and the United States, to be constantly in the receipt of every new work that comes out, he is confident that nothing shall be wanting on his part to make the enterprise a perfect success. SUBJECTS: The best exposition of "Kant's Critique of Pure Reason." Prize, \$50. The best Essay on Political Economy, and that system of it most adapted to the interests of the Dominion of Canada. Prize, \$50. The best Essay on Education. Prize, \$50. His books of reference now are the newest and of the most extensive kind, consisting of the Popular Encyclopedia—in itself a complete library—a Biographical Dictionary, a Chronological Dictionary, and Webster's Unabridged Dictionary. One thousand subscribers are anticipated. The number already obtained, previous to any public announcement, is exceedingly encouraging. R. CUTHBERT. N.B.—Cuthbert's Library is not intended to conflict with any public institution, but the contrary will have a tendency to promote the usefulness of all existing libraries.
