

The Black Hills. A telegram from the famous Black Hills to the St. Paul Press contains authentic confirmation of reported gold discoveries. The despatch is dated the 22nd inst., and says: The command reached here yesterday in good health and spirits, by short marches and good camps from Custer's Valley, which place we left on the 6th. Gold and silver were found in several places in quantities, and game in abundance. Another despatch says: The expedition has completed the exploration of the Black Hills, which prove even richer than was before reported. Gold and silver are found in numerous places and in quantities so great that with a pick and pan a single miner may take out \$100 per day. The distance from Bismarck to the gold regions is about 250 miles over a practicable route. The citizens of Bismarck are greatly excited, and already expeditions are being organized. Gen. Custer, in his report of the expedition to the Black Hills, says: "I referred in a former despatch to the discovery of gold. Subsequent examinations at numerous points confirm and strengthen the fact of the existence of gold in the Black Hills and some of the water courses. Almost every shovelful of earth produced gold in small yet paying quantities. Our brief halt and rapid marching prevented anything but a very hasty examination of the country in this respect; but in one place, and only one within my knowledge where so great a depth was reached, a hole was dug eight feet deep. The miners report they found gold among the roots of the grass, and from that point to lowest point reached, gold was found in paying quantities. It has been no expert to find gold on the Black Hills, as men without former experience in mining have discovered it at expense of little time or labor."

BETTING IN ENGLAND.—The new English betting act, passed during the session just ended, which especially relates to betting, and which also extends its provisions to Scotland, came into operation July 31. Persons are now liable to penalties of £30, or to imprisonment for a term not exceeding two months, who cause any advertisement to be published, or any letters, circulars, telegrams, &c., to be sent or exhibited giving information or advice with respect to bets or wagers in the United Kingdom or Scotland. The act also applies to those who may induce persons to apply to any house or other place for information or advice, or who may invite persons to make or take any share in such bets or wagers.

MANUFACTURE OF COCOA.—We will now give an account of the process adopted by Messrs. James Epps & Co., manufacturers of dietetic articles, at their works in the Euston Road, London. See article in Cassell's Household Guide. We see by the Belleville Intelligencer, that at a railway meeting at Madoc, on the 22nd inst., it was resolved to submit a by-law to grant \$30,000 bonus in aid of the Belleville and North Hastings Railway.

PAIN-KILLER is a purely vegetable preparation safe to keep and to use in every family. The simplicity attending its use, together with the great variety of diseases that may be entirely eradicated by it, and the great amount of pain and suffering that can be alleviated through its use, make it imperative upon every person to supply themselves with this valuable remedy, and to keep it always near at hand.
