The Legislature.

Government Ready to Investigate the Piggery Expenditures.

Expenditures On the Farm of London Asylum for the Insane Discussed.

Toronto, Dec. 23.—The public accounts committee of the legislature, at its meeting yesterday, agreed on the motion of the provincial treasurer to investigate Dr. Chamberlain's accounts for the last three years. Mr. St. John, seconded by Mr. Martin, also moved that all accounts relating in any way to the construction of the Humber piggery, as well as to the slaughter and sale of hogs, be produced. Mr. Garbutt, seconded by Mr. McNish, then moved that Dr. Andrew Smith, Inspector of Slaughterhouses, Mr. Harris and Mr. Warner, and the butcher who killed the hogs at the outbreak of the cholera epidemic be subpoenaed to give evidence on Dec. 23. As an officer had been killed, Mr. Smith moved that several city butchers be examined. This was agreed to.

After the holidays, the legislature will meet in the forenoon so as to facilitate the dispatch of business.

In the house yesterday, a number of bills were read a second time and others were put through committee.

Premier Hardy, in reply to Mr. St. John, said the Moore Lumber Company had been compelled to pay \$30,000 of unaccounted dues on their lumber as a result of an investigation by the government committee.

Mr. Hobbs introduced a bill on behalf of the city of London for an amendment to the Municipal Act to the effect that the council of every city may pass bylaws for the appointment of a plumbing inspector, fixing the payment of his salary, or for his removal and for payment to the treasury of the municipality by every plumber of such fees for the inspection of plumbing as the council may by law impose, and for regulating and governing the inspection of plumbing within the municipality.

Mr. Hobbs has also introduced a bill to amend the Ditches and Water Courses Act. It reads as follows: "Sub-section — of the Ditches and Watercourses Act, 1894, is hereby amended by inserting after the word 'ditch' where it occurs in the second line, these words: 'Or within six months thereafter, but not later, shall have power to inspect.'"

Estimates of the department of education passed with little discussion. Mr. Platt's toll roads bill was sent to the municipalities committee.

Mr. Hiseott and Mr. Little objected to the item of \$3,700 for farm expenses, feed and fodder at the London Asylum, contending that the farm being fertile, the charge for this item should be very much less.

Hon. Mr. Harcourt, in reply said that the farm is well managed, and one of the most inviting places he had ever visited, and he confessed to a personal pleasure in a good farm.

Mr. Taylor (North Middlesex) had visited the farm frequently at different seasons of the year, and testified that the farm was well and economically managed.

Mr. Crawford urged that the amount asked for was far beyond what should be granted, if the farm is so fertile and well cultivated and managed as honorable gentlemen would lead the house to believe.

Hon. Mr. Gibson pointed out that this item was not for fodder alone, but included all expenses for implements, etc., and also that a large portion of the farm is set apart as a park for the use of the inmates, and was therefore a source of expense instead of revenue. The cost per capita of maintaining the inmates had been materially reduced owing to the large amount of produce which the farm furnished to the institution.

Mr. Haycock said that if there was any particular reason for the prolonged discussion it was the unsatisfactory manner in which the public accounts are compiled. He advocated that the supervision of the farm should not be left to professional men, but the practical farmer, and stock men should be given control of the farm and held responsible for its management.

Mr. Macnish defended the management of the farm as having been creditable to the farmer, who was most economical and careful. The soil was better suited to vegetables and fruit than to grain and hay. Mr. Macnish spoke with the authority of a practical farmer. When Mr. Crawford had condemned the farm as a badly managed affair, the treasurer arose and read to the house the memorandum which Dr. Christie had prepared for the public accounts committee in 1895, showing that the farm was an expenditure of \$9,063 for feed, farm seeds and miscellaneous items, the product of the farm and garden had netted \$11,784, making a favorable balance of \$2,721.

Lieut.-Col. Matheson stood up and made the charge that the horses kept at the asylum were employed to drive voters to the polls and to the registration booths.

When the premier remarked that they had not had any registration at London yet, the laugh was rather on the member for Lanark. Later in the discussion Mr. Hardy said that he had never before heard the accusation made that those horses had been used to draw voters to the polls, and that he did not believe it was true. The horses might have been used to take men to the polls who were employed at the asylum, but not otherwise.

Finally the vote passed—without a division.

The items for the Kingston Asylum, for the Hamilton Asylum, for the Brockville Asylum, for the Asylum for Idiots at Orillia, and for the Central Prison were passed without opposition.

Campaign on the Frontier.

Soathing Criticism of the Recent Fighting.

Alleged Serious Blundering and Mismanagement—A Defeat in Labuan.

Allahabad, Dec. 22.—The Pioneer publishes a scathing criticism of the recent fighting on the Indian frontier, and says the operations have ruined more than one reputation. The Pioneer asserts that the officers have disappointed expectations, and calls upon the commander-in-chief to weed out those who have signally failed to prove their fitness to command or perform staff duties. The paper asserts that the instances when the troops were well handled were few, while serious blunders were numerous and happy-go-lucky arrangements were the rule, resulting in a few hundred British troops and Sepoys, forming the rear-guard, having again and again to fight most desperately to save their skins, while, within two or three miles, thousands of their comrades were doing absolutely nothing. In conclusion the Pioneer remarks: "The whole campaign shows carelessness and indifference for the safety of the rear-guard, and bad disposal of the fighting strength. While the fortified enclosures and homesteads of the Afghans have been destroyed, the latter have had their revenge in the actual conflicts. If the Afghans are to be coerced, more skill is requisite, and the staff must be weeded forthwith, irrespective of personal feelings."

Victoria, Labuan, Dec. 23.—The Sikh police force which has been attacking the stronghold of the insurgent Mithal-ah has been forced to retire. Adjutant Jones and six Sikhs were killed. Victoria is the capital of the island of Labuan, six miles from the northwest coast of Borneo. The area of the island is 45 square miles.

BLIZZARD IN NEW YORK.

Watertown, N. Y., Dec. 23.—One of the worst blizzards that has visited this section in number of years began last evening, and has continued unabated all night.

Two feet of snow now covers the ground, and is still coming.

BASKET BALL.
The Y. M. C. A. league games still continue to be interesting, though the attendance is rather small. The first game last night went by default, A. Williams winning from F. Scraton, 2-0.

An exhibition game, which resulted in almost a draw, was played by these teams, Scraton being supported by Robinson and the second game, though one-sided, was a good exhibition of ball. The losers were handicapped, as two of their own men were absent. Robinson and Bedgood filled their places very well. The winners' defense, McMillan, captain, and P. Ferguson, are a remarkably strong pair, and to their fast work is due the small score of their opponents. During the last ten minutes of the game only one goal was made, the playing during that time being very fast.

The game resulted in favor of the Reds by 10 goals to 1, or 21 points to 4, including fouls. The teams were: Whites—Bedgood, C. Turner, W. Green (captain), J. Robinson, W. son, Reds—L. McLeay, W. Wallet, J. Westervelt, P. Ferguson and W. E. McMillan (captain).

MORRIS' MEATS.
One of the Most Handsome Displays in the Market House.

The market house was thronged with buyers of Christmas meats this morning. The display that captivated all corners was that of Mr. G. F. Morris, on the east side of the south end of the building. Here hung thousands and thousands of pounds of the finest beef, lamb and pork that the country produces.

Mr. Morris purchased 25 heifers, prize Durbans, for the Christmas trade, six of which were fed and raised by Mr. R. Plinkham, of Westminster. The remaining 21 were obtained from other well-known breeders throughout the country.

Standing out prominently in this show of meat is a six-months-old Jersey calf, weighing nearly 600 pounds, bred and raised by Wm. Griffiths, Byron. Twenty choice hogs were obtained from the same source, and over 100 others from elsewhere. Among these are hogs ranging between 600 and 1000 pounds, dressed weight. Mr. Morris has a large number of excellent supplies of lamb, poultry, bacon, hams, tongues, and other meats. His establishment is one of the largest in Western Ontario.

The brightest light isn't always the pleasantest. Neither is the brightest person.

It soothes and diminishes the sensibility of the membranes of the throat and air passages, and it is the only remedy for all coughs, colds, hoarseness, pain, soreness of the chest, bronchitis, etc. Its establishment is one of the largest in Western Ontario.

Why So Profitable?
Why is Life Assurance the most profitable of all investments? Let us see. It is the only sure method of instantly creating a capital by the payment down of a small instalment. Because it is the cheapest and safest method of securing immediate and certain protection for one's family. Because it furnishes the only economical method for making a safe and immediate provision for old age.

4th. Because it is the majority of cases it is found in the end to turn out almost the only protection to widows and orphans.

Insurers will wisely consult the Ontario Mutual Life, whose security and profits are unsurpassed. C. E. German, agent.

Moments are useless if trifled away; and they are dangerously wasted if consumed by Eick's Syrup and Tolu which bring immediate relief. 25 cents. 26
