

## A Noted Knight Templar Owes His Health to Peruna.

Colonel T. P. Moody, a prominent Knight Templar, is well known in every city in the United States west of Buffalo, N. Y., as a Jeweler's Auctioneer. In the city of Chicago as a prominent lodge man, being a member of the K. T.'s and also of the Masons. The cut shows Colonel Moody in the costume of the Oriental Consistory, Masons, 2nd degree.

In a recent letter from 590 Michigan avenue, Chicago, Ill., Mr. Moody says the following:

"For over twenty-five years I suffered from catarrh, and for over ten years I suffered from catarrh of the stomach terribly.

"I have taken all kinds of medicines and have been treated by all kinds of doctors, as thousands of my acquaintances are aware in different parts of the United States, where I have traveled, but my relief was only temporary, until a little over a year ago I started to take Peruna, and at the present time I am better than I have been for twenty years.

"The soreness has left my stomach entirely and I am free from indigestion and dyspepsia and will say to all who are troubled with catarrh or stomach trouble of any kind, don't put it off and suffer, but begin to take Peruna right away, and keep it up until you are cured, as you surely will be if you persevere.

"My wife, as many in the southwest can say, was troubled with a bad cough and bronchial trouble, and doctors all over the country gave her up to die, as they could do nothing more for her. She began taking Peruna with the result that she is better now than she has been in years, and her cough has almost left her entirely. The soreness has left her lungs and she is as well as she ever was in her life, with thanks, as she says, to Peruna. Yours very truly,

T. P. Moody.

Catarrh in its various forms is rapidly becoming a general curse. An undoubted remedy has been discovered by Dr. Hartman. This remedy has been thoroughly tested during the past forty years. Prominent men have come to know of its virtues, and are making public utterances on the subject. To save the country we must save the people. To save the people we must protect them from disease. The disease that is one of the most prevalent and stubborn of cures is catarrh.

If one were to make a list of the different names that have been applied to catarrh in different locations and organs, the result would be astonishing. We have often published a partial list of these names, and the surprise caused by the first publication of it to all people, both professional and non-professional, was amusing. And yet we have never enumerated all of the diseases which are classed as catarrh. It must be confessed, however, to see even this partial list drawn up in battle array is rather appalling. If the reader desires to see this list, together with a short exposition of each one, send for our free catarrh book. Address The Peruna Medicine Co., Columbus, Ohio.

Colonel T. P. Moody, of Chicago, Had Catarrh Twenty-five Years and Was Cured by Peruna.

## PREMIER ROSS ON TEMPERANCE

Legislation To Be Introduced  
Early Next Session.

"CAP" SULLIVAN'S APPEARANCE

Letter Brought Before the House—  
The Premier Promises to  
Make Inquiry.

[Special to The Advertiser.]  
Toronto, May 27.—Hon. G. W. Ross made an important pronouncement in the Legislature today on the subject of the Government's promised temperance legislation. He gave very cogent reasons why the Government had decided not to bring down a bill this year, and that it would be introduced early next year. He showed clearly that nothing would be lost by the delay, as a bill introduced now could not affect the present license year, while a bill passed next session would be in time for the new license year.

The House had a busy afternoon and a goodly quantity of business was done. The order paper. The House was handicapped by the absence of Adam Beck, M. P. P. for London, but it worried along as cheerfully as possible under the circumstances.

**RAILWAY BILLS.**  
The Sarnia, Petrolia and St. Thomas Railway bill received its third reading and that of the Southwestern Traction Company was given its second reading. The subject of temperance legislation was brought up by Dr. Barr's motion for an order of the House for a return of copies of all correspondence between the Government, any member, or department thereof, and any person or persons respecting any temperance legislation introduced by the Government in the speech from the throne.

In making his motion, which was seconded by Mr. Foy, Dr. Barr said that his purpose was the ascertaining of the Government's position on the important question which had attracted so much of the attention of the people of Ontario. The prohibitionists had polled an enormous vote, but they had fallen short of the required majority. The Government, when waited upon by a big deputation, had promised a party prohibitive measure, but after the session had progressed toward its close, a second deputation had been told by the Premier that, owing to the delay, no legislation would be introduced this session. Dr. Barr said he stood as an independent member of the House, ready to give support to any good measure, and particularly to any measure which would introduce legislation to eliminate the morality of the Province.

The Premier, in reply, admitted the importance of the question. It had engaged the attention of the House for 25 years, and would probably do so for 25 more. The Government had done much for the temperance people, and the Premier said he did not know that anybody had questioned the bona fides of the Government in the matter of temperance legislation. Though the referendum had been severely criticized, the Government had taken a justifiable course in the matter, and one which merited the respectful recognition of all interested. The people had been given an opportunity to express their opinion on the measure for the final judges of legislation embodying such radical changes. It was important to know whether the law would be supported by such a large section of public opinion that its enforcement would not be difficult or impossible.

The Government's promise to bring down temperance legislation during the present session, had been made in good faith, and with the honest intention of fulfillment. On the other hand, the proposed bill had been made, and it was intended to revise, consolidate, and improve the present license laws and make more effective provision for their enforcement. The bill would have been brought down about ten days after the opening of the session, had it not been for charges made by Mr. Gurney against the Government, more particularly against the member of the Government who would have such a bill in charge. From the time the Gurney commission opened, the minister was necessarily absent from the House, and he had therefore been prevented from acting in the matter. That was the reason why the measure had not been brought down.

It would be unreasonable, in view of the circumstances, to bring down such an important bill so late in the session. The Government had meant to have the measure before the House for the greater part of the session, in order to get it thoroughly discussed, but it had been barred from pursuing that course.

The new license year had been entered upon, and even if an act was passed, it could not materially affect the liquor traffic this year. If, however, an act was introduced at the session beginning about January next, it could be thoroughly discussed and adopted in time to take effect at the beginning of the next license year. The Government, said Mr. Ross, had not broken its promise to the temperance people. It had merely postponed the fulfillment of its pledge, taking nothing unforeseen intervened, a bill would be introduced early in the next session. It would be such a measure as would commend itself to all who seek the best interests of the Province. The Government desired to deal patiently and rationally with the question, and it trusted to the good sense of the country to appreciate its efforts. Only a mistaken prejudice had created the impression that any great loss to the morals of the country had been occasioned by the delay. The Government must confront the conditions with the coolness, calmness and sanity demanded by a great problem.

The referendum campaign had done much good in an educative sense. The question was one more of education than legislation, and the campaign had done much which would assist the Government in enforcing temperance legislation.

Nothing would be lost, and much would be gained, said the Premier, by waiting till next session. When the bill was introduced, it would be found that more good would be accomplished than if it were put through now. The Premier said he had no objection to the motion passing.

Mr. Crawford (West Toronto) said that the excuses of the Premier for not fulfilling his promise to introduce the legislation at the present session were not good ones. The temperance people had all along been given to understand that the Premier would make good his promise, and were now greatly disappointed.

This closed the incident, and Dr. Barr's order was passed.

"CAP" SULLIVAN.

Mr. Graham (Brockville), under in-

structions from the Public Accounts Committee, reported to the House that Cap Sullivan had refused to appear before the committee after being personally notified by a messenger, and that he had been in Toronto, but was now understood to be in Buffalo.

Col. Matheson said he intended to press a motion that the House summon Sullivan to appear before the committee.

The Premier said he had no objection to the motion passing, but he asked that it be left over that he might ascertain the correctness of the procedure.

The matter was laid over.

**PIG IRON BOUNTIES.**

Mr. Hoyle (North Ontario), in moving for a return showing bounties paid to pig iron manufacturers, made the suggestion that the \$25,000 bounty at present applied to this purpose should be discontinued, as the industry was now beyond the experimental stage. He thought the money could be advantageously applied to the encouragement of the pig iron industry.

The commissioner of crown lands, in reply, said that the pig iron bounty was never intended to be permanent, but that it had simply justified itself. He was glad to know that the pig iron industry was making progress.

Mr. Russell (East Hastings) favored the bounties of the pig iron industry. The Temiskaming Railway came up again for discussion. Hon. Mr. Latchford, replying to Mr. Powell, said that there was no intention of leasing the line to the Grand Trunk. He expressed provided that no railway should be given exclusive running rights over the road.

The Premier announced that the question of the Dominion Government to grant increased subsidies to the province would be taken up tomorrow.

A petition from Toronto labor organizations, protesting against merging the Technical School board in the proposed amalgamation of educational boards, was presented.

The House adjourned at 6:25 p.m.

## WELL EARNED POPULARITY

J. J. Burns Says Dodd's Kidney  
Pills Saved His Life.

Could Scarcely Sit, Sleep or Walk When He  
Started to Use Them—His Trouble  
Gone for Good.

Darley, P. E. I., May 27.—The popularity of Dodd's Kidney Pills in Prince Edward Island has been earned by a case complete and permanent. John J. Burns, Lot 18, Darley, is one of the cured, and his story is a splendid example of the work Dodd's Kidney Pills are doing.

"For over eight years," says Mr. Burns, "I suffered from what the doctors pronounced Chronic Inflammation of the Loins and Kidneys. For the year 1896 I got so bad that I could scarcely walk, sit or sleep. I was about to give up when an advertisement led me to try Dodd's Kidney Pills and they did it. Dodd's Kidney Pills saved my life and though years have elapsed since my cure I have had no trouble since I used them."

Dodd's Kidney Pills never fail to cure any form of Kidney Disease once and for all.

## MYSTERIOUS SHOOTING

Members of Swell Club Mixed Up in  
Strange Case.

New York, May 28.—There is no clue to the identity of the man who shot and killed John Hefferman near the Ardsley clubhouse at Irvington-on-Hudson Sunday night. A report was circulated yesterday that Dr. Robert Denniston, of Irvington, had informed the coroner that Hefferman had told him that he recognized the man who shot him as a member of the Ardsley Club. This Dr. Denniston denied today. What Hefferman did say, according to the doctor, was that, he thought his assailant mistook him for one of the club members and shot him for the purpose of robbery.

## Mills Sentenced.

New York, May 28.—George Edward Mills was sentenced in the criminal branch of the supreme court today to not less than one year and two months and not more than one year and six months in the state prison. Mills, who is the law partner of Jewell Flower, son of Dr. R. C. Flower, was convicted of attempting to buy public record.

## Father, Mother and Son CURED BY Doan's Kidney Pills.

THE WELL-KNOWN  
SPECIFIC FOR

Backache, Sideache, Diabetes,  
Dropsy, Bright's Disease,  
and all Kidney or Bladder troubles.

Read of how a whole family got cured by  
using these wonderful Pills.

Mr. Henry Hedrick, South Woodlee, Ont.,  
says that Doan's Kidney Pills are far  
ahead of doctor's medicine.

He writes: "I have tried Doan's Kidney Pills and can honestly say that I never used anything better. I was so sick with my kidneys I could hardly raise myself up without help but Doan's Kidney Pills cured me."

"My wife was always complaining of a lame back, and they completely cured her."

"Our son was also troubled with his kidneys and as your pills had done us so much good we got him to try them and they cured him as well. They are far ahead of doctor's medicine, and I advise a trial of Doan's Kidney Pills for all sufferers from kidney trouble."

Price 50 cts. a box, or 3 for \$1.25, all  
dealers or

## AMHERSTBURG HIT BY THE STORM

Levels Barns and Dwellings  
and Injures Crops.

SEVERAL NARROW ESCAPES

The Speed and Force of the  
Tornado Was Terrific—Elora  
Also Suffers.

Amherstburg, Ont., May 28.—About 4 o'clock yesterday afternoon a small tornado swept everything before it for a width of about 60 rods, passing through the district about half a mile south of here, going in a northerly and easterly direction. As a result window panes, barns, sheds of different kinds and other things belonging to William Lepin are a mass of ruins leveled with the ground. A corncrib close by, containing several hundred bushels of corn, was hurled over and over, scattering the corn about the ground. Loss about \$1,000. His house entirely escaped the path of the tornado. The barn of J. Gould, containing his buggy, farm implements, hay and grain, and the residence of David Hall, were severely damaged, and the contents are scattered for half a mile or more through the fields.

John Gould and his brother George ran from the field to the barn at the approach of the storm. John just stepped into the stable door when the crash came. His brother Alfred, behind, was picked up off his feet and carried several rods, thrown against a tree and dumped over on the other side of it against the trunk. The next instant the largest part of the roof of the barn struck the tree on the opposite side from him, breaking it in pieces, considerable of it falling on him. He is seriously hurt. As John went into the barn door the roof was blown off and he turned and shot out again. The wind caught him and hurled him over and over, throwing him into a ditch.

John Gould's loss will be about \$1,000. Both brothers escaped with their lives. Hall's residence was a two-story house. The upper story now lies scattered here and there through the fields. Parts of the roof and the windows of the lower story are blown out. Mrs. Hall and her children were in the house when the storm struck it. She caught up her two small children and fled through the open door to the field, narrowly escaping with her life. None of them were injured. Loss on house and contents not known.

The speed and force of the tornado was terrific. Everything went instantly when struck. Miles of fence lies fallen in the fields. Immediately after the wind came a deluge of rain and hail. Although the buildings were insured, the policies only cover loss by fire and lightning.

Elora, Ont., May 27.—Between 5 and 6 o'clock a cyclone passed over a section of the country about three miles northwest of this town. It seemed to take a narrow strip, and in its course unroofed part of the barn of Charles Hays, carrying it a distance of 60 yards, and depositing it by the house. Scantlings and pieces of lumber were scattered like feathers, windows were broken and many trees in the path of the storm snapped off.

Many makers are now building gas engines of 2,500 horse power and are ready to double this efficiency.

## WITHOUT GOOD BLOOD THERE CANNOT BE GOOD HEALTH

As a Blood Remedy

## IRON-OX TABLETS

are unexcelled, and they have obvious advantages over medicines in liquid form. We know of no remedy of this character an equal number of doses of which sells for less than fifty cents. Ours sells for twenty-five cents. The others are probably good value; if so ours is double value.

50 TABLETS  
FOR 25 CTS.

The Sunlight Maids have washed the Sunlight way.

## SUNLIGHT SOAP

This is the best soap for washing clothes. It requires much less labor than common soap and makes the clothes snowy white. If you want to boil and scrub your clothes you will get much better results with Sunlight Soap than if you used common soap. If you wash according to the directions on the package you will know what the Sunlight way really means. You will give up boiling and scrubbing. Sunlight Soap is made of pure oils and fats and will not injure the most delicate fabric.

ASK FOR THE OCTAGON BAR

Sunlight Soap washes the clothes white and won't injure the hands.  
LEVER BROTHERS LIMITED, TORONTO.

The oven of an Imperial Oxford Range and the old-fashioned spit before an open fireplace do better roasting than any other cooking apparatus invented. In the olden days the spit had to be kept turning to get all sides of a roast cooked. It is much the same with the ordinary cook-stove. The heat of the oven is greatest on the fire side—roasts, bread, pies, cakes, etc., have to be turned and twisted to get them cooked at all. The result is uneven, unsatisfactory cooking—good food ruined. The diffusive flue construction of the

## Imperial Oxford Range

draws fresh air into the flue chamber, super-heats it and diffuses it evenly over the oven, thus heating it quickly, thoroughly and uniformly—back, front and sides are at the same equal temperature. The result is juicy, tender roasts, light, dainty pastry, evenly raised bread—successful cooking. When you buy an Imperial Oxford Range you get the result of over sixty years' thought and experience in scientific construction of cooking apparatus.
