DANISH WEST INDIA ISLANDS SCANDAL

The Charges Denounced as Defamatory and Outrageous.

New York, March 29 .- Carl Fischer-Hansen, of this city, who was attorney for Walter Christmas, the representative of the Danish Government in the overtures for the purchase of the Danish West Indian Islands in 1900, was indignant at the conduct of his client, as shown in his secret report to the Danish ministry, lately published.

"Ordinarily legal etiquette," said he, report is so defamatory and outrageous, that I feel justified in washing my hands of the whole affair." Mr. him. Christmas undertook, according to Mr. Fischer-Hansen, to start the sale of the islands for the Horring ministry. "The Danish 'no sale' party," he said, "hopes to break off the scale by the help of a scandal. For that purpose somebody stole my confidential report to the government and engaged a certain person, an American citizen, to go to Washington to start the scandal by delivering the report to Representative Richardson and to the newspapers.'

Capt. Christmas gave out here on Feb. 19 a declaration under pressure ing to draw him home. He says he sent this declaration to the foreign office at a demand that it be forwarded to the Danish ambassador, M.Brun, in Washington. It was also published in all the Danish newspapers without a denial. "I never had any arrangements about a provision with any American authority," he said. "I have no claim whatever on America, but only on the Danish Government for my work and expenses. The present government has nothing to do with any possible scandal, as all the arrangements regarding me and my work were made with Premier Hoerring three years ago, when I, by an order from the American state department, had brought Secretary Henry White into communication with the Danish foreign minister, M. The consequence was that when we arose in the morning at Niagara we found our river was nearly half-gone.
