Life and Death in Federal Trenches at Tampico; One Minute He Laughed; Next Minute He's Dead---That's War!

Picture on left marked (1)—Snapshot of Mexican federal firing on rebel attacks from entrenchments within the city. In picture note the federal officer reclining on his elbow smoking a cigarette and grinning, Mexican-like, his contempt of the rebels.

Photograph (2) was taken by the same photographer, while crouching in the same spot where he stood when he snapped (1)—behind the shelter of a stone wall. It was his next exposure, for while he was winding up his film, the Mexican soldier who had been laughing and smoking a cigarette, while watching his comrades shooting at rebels, was himself killed by a rebel bullet.

FINANCIAL and COMMERCIAL

UNUSUAL ACTIVITY PROMISED ON MARKETS

Hay Still in Brisk Demand, and Oats are at High Level.

Today's market was still small, although some improvement on Tuesday's. Hay continued to command brisk prices for all that was offered, and oats sold as high as \$1.40 a hundredweight. Live hogs sold yesterday at \$8, and that price still holds good. Potatoes are active in demand at \$1.20 and \$1.25 a bag. Eggs, butter and small produce sold at good prices. There will be a fine demand for hay tomorrow and Saturday's market, and all other lines will in all probability be characterized by unusual activity.

Winnipeg, May 20.—Trading was fair on the Winnipeg market, a fair amount of buying of wheat taking place, more especially at the close. The opening prices were unchanged to a few cents, closed 1/2 to 3/4 higher. The cash demand was good for Nos. 2, 3 and 4 northern wheat and No. 2 Canadian western oats. Exports were made over night. Flax was quiet and dull, while barley was higher. Cash wheat closed 3/4 higher; cash oats, 1/2 higher; barley, 1/2 higher; and cash flax, unchanged.

DON'T TRY TO ELECTROCUTE YOUR SUPERFLUOUS HAIR

ELECTRICITY ALWAYS STIMULATES HAIR GROWTH. HOW TO KILL AND DISSOLVE OUT ROOTS AND ALL.

FOR THE BENEFIT OF THE LONDON ADVERTISER READERS, LADY EXPLAINS HOW SHE ACCIDENTALLY DISCOVERED A NEW ABSORPTION PROCESS WHICH PERMANENTLY REMOVED HER HAIRY MASK AFTER ELECTRICITY, TWEEDERS, CAUSTIC PASTES, AND OTHER REMEDIES HAD ABSOLUTELY FAILED TO DO ANYTHING BUT HARM.

By following simple directions given below, every woman now has the means of easily preparing and using in her own home this wonderful process, which has hitherto been a carefully guarded secret known only to a few high-priced specialists. Full directions are now made public for the first time.

All who are afflicted with superfluous hair will be interested to learn of the amazing discovery made by Miss Alma Randall, who until recently was deeply humiliated by the excessive growth of hair upon her face, neck and arms. As the hair constantly became more thick and hideous, she tried every process and remedy advertised or recommended, but found to her sorrow that if any of these removed hair at all, the effects were temporary and a new growth soon appeared. Under the cruel electric needle simply meant great pain, a sore and blistered skin, and the inevitable disappointment. After spending huge sums in efforts to be rid of her terrible and disgusting hair, she finally decided to try a new growth soon after she had read of the discovery of a means by which the beauties of Ancient Pompeii are said to have permanently banished superfluous hair. With only a very slight electric current, she found that the hair was being dissolved out of the root, and she was able to keep her face clear of hair for good.

After she had endured for ten years the humiliation of having a beard and moustache like a man, and after she had tried every process and remedy advertised or recommended, but found to her sorrow that if any of these removed hair at all, the effects were temporary and a new growth soon appeared. Under the cruel electric needle simply meant great pain, a sore and blistered skin, and the inevitable disappointment. After spending huge sums in efforts to be rid of her terrible and disgusting hair, she finally decided to try a new growth soon after she had read of the discovery of a means by which the beauties of Ancient Pompeii are said to have permanently banished superfluous hair.
