

## CONVICT INDIAN YOUTH ON CHARGE OF STEALING

Jury Returns Verdict of Guilty  
With Recommendation  
of Mercy.

### SENTENCE TODAY

Agent Agrees To Act As  
Guardian For Cecil  
Cady.

After an hour's deliberation the jury in the case of Cecil Cady, young Indian, charged with theft, brought in a verdict of guilty, with a recommendation of mercy at the supreme court, at which Hon. Mr. Justice Mowat presided, at the court house last evening.

Judge Mowat stated he would suspend sentence on the boy, on condition that someone would undertake to take Cady in charge and furnish reports as to his conduct.

A. G. Chisholm, counsel for Cady, stated that Thomas McGookin, Indian agent, would act as guardian to the boy.

Judge Mowat stated he would discontinue the charge of obstructing an officer, on which a jury was sworn last autumn, in a similar manner, if Cady pleaded guilty to the charge. Cady's counsel stated this would be done. As the indictment in this second case was not in court at the time, Cady was remanded until this morning, when he will be arraigned, plead guilty and have sentence passed on him. He was allowed to go home with his mother overnight.

Mr. Chisholm stated several letters as to Cady's good character, showing that he had been a leader in the boys' work at the Methodist Church on the Muncie reservation, and that he had been an influence for good over a group of 25 boys.

Cady was charged with stealing two tires from an auto owned by William Dunn. Tires with numbers corresponding to those which Dunn had a record were found on Cady's auto by officers.

"I am confident Cady did not take the tires," declared Mr. Chisholm. "A hand has been operating on the record, and they have planted the tires on Cady, and I think the truth of the matter is that he is afraid to speak."

Cady declared he purchased the tires from a stranger on the London market.

Dunn stated Constable Alex. Shaver returned one of the tires to him, and that the number on it corresponded to the number he had written on a card when the tires were in his possession. Later, he said, Cady returned the other tire, and the number had been filed, witness claimed.

A friend of the prisoner, who was with him, had made overtures to have the matter "squared up," witness testified. This was done in the presence of the prisoner.

When asked how his suspicions were aroused, Dunn stated he took a census of the cars in a certain locality on the reserve, in the vicinity of where he had left his car during last winter. His suspicions were directed to three persons. He had chosen Cady because he had found handprints in the sand near his car, and these prints corresponded to Cady's hands.

"Did you take a census of the hands in the locality?" inquired Mr. Chisholm.

"Yes, I inquired as to the kind of hands the people around had, and found Cady's were slender like the prints I found."

"Are you a detective?" asked counsel.

"I might be for all you know," replied Dunn.

"And you are living on the gains of the summer?" pursued Mr. Chisholm.

"Yes, living high," replied Dunn.

"What do you do in summer?" asked A. G. Chisholm, K.C., counsel for the defence.

"Run a refreshment booth on the Wellington road," replied Dunn.

"And what do you do in winter?" "Live on what other people do," Dunn answered.

The \$1,500 damage action brought against the T. P. & A. H. firm, in consequence of his having lost his auto in an accident at the Adelaide street crossing, was dismissed with costs in the supreme court at the courthouse this afternoon.

After being out more than an hour, the jury decided the defendant company was not liable for the damages, but that the plaintiff's son, Harry Burrows, was guilty of contributory negligence because of the manner in which he drove the auto. The jury decided the damage to the car was \$650 and not \$1,500.

However, on their answers to the questions, Justice Mowat announced verdict for the defendant company with costs.

## AMERICAN TROOPSHIP NEARS SAVANNAH PORT

Savannah, Ga., Feb. 7.—The city and harbor flag-bedecked, Savannah was ready today to roar the country's first welcome to the last of the A. E. F. to come home.

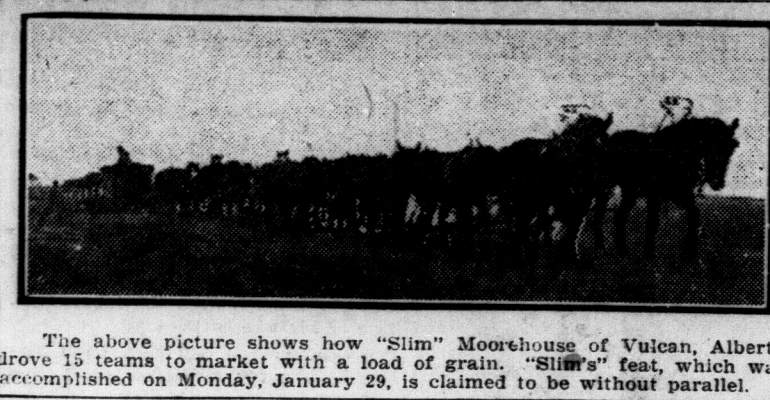

The transport St. Michel, bringing more than 1,000 officers, men and families of the last Rhine contingent, is buffeting her way through the teeth of a winter storm, a few hundred miles from port. By daylight she will slide across the Tybee bar. Batteries of French 75's will give tongue as the St. Michel comes in, and two venerable revolutionary cannon, presented to the city of Savannah by George Washington, will join in the thunder of welcome.

## WANT NEW BRUNSWICK REPRESENTED ON C. N. R.

Ottawa, Feb. 7.—New Brunswick's claim to a voice in the management of the Canadian National railway is being urged upon the government and parliament by Dr. Murray MacLaren, Conservative member for St. John, N.B. Dr. MacLaren has given notice that he will ask the government if it intends to place a New Brunswick representative on the board of management of the Canadian National system.

## KEEPING LIQUOR IN STORE COSTS MERCHANT \$200

Special to The Advertiser.  
Listowel, Feb. 7.—William Smith, storekeeper at Britton, was yesterday fined \$200 by Magistrate T. L. Hamilton for having liquor in other than a private dwelling. Search was made of his premises by License Inspector M. H. Moore, Provincial Inspector Frank Elliott and Provincial Police Kirby. Smith pleaded guilty and paid the fine.

The above picture shows how "Slim" Moorhouse of Vulcan, Alberta, drove 15 teams to market with a load of grain. "Slim's" feat, which was accomplished on Monday, January 29, is claimed to be without parallel.

## Boy Husband Is Between Two Fires; Cannot Quit School, Wife Wants Cash

Special to The Advertiser.  
Detroit, Mich., Feb. 7.—Joseph Albert Chadwick, 14-year-old schoolboy husband, who is being sued for divorce by his 19-year-old bride, Mary Elizabeth, has been summoned into circuit court next Saturday to answer claim of temporary alimony filed by his wife.

He is a pupil in the tenth grade of Cass School, and faces a peculiar predicament of being liable to punishment for contempt of court unless he earns money to pay alimony, while he will be liable to arrest for violating the state school law if he quits his classes to go to work.

Chadwick's mother was named by Judge Jayne this afternoon as his guardian for the purposes of divorce and alimony actions.

## MANITOBA GOVERNMENT ALLOWS SUNDAY TRAINS

Amendment to Lord's Day Act  
Certain To Pass the  
Legislature.

Special to The Advertiser.  
Winnipeg, Man., Feb. 6.—Sunday trains in Manitoba will become a reality this year. The government caucus has decided to let the measure to amend the Lord's Day Act pass. This amendment provides that Sunday trains shall be permitted to operate to all resorts in Manitoba all days of the week. The operation of Sunday trains has been a bone of contention before the legislature for two sessions.

While the government caucus has decided in favor of the measure several members, including Hon. F. M. Black, provincial treasurer, are opposed to it. With the government out in support of the measure its passage is assured. Members of the caucus were told to vote as they pleased, and the majority favored the bill. The major section of the opposition benches are in favor of its passage also. Rev. William Rochester, Dominion secretary of the Lord's Day Alliance, is coming from Toronto in person to protest before the House of Commons committee against the passing of the Sunday trains act.

John Queen, at the opening of the session of the committee this morning, queried whether the reverend gentleman was a citizen of Manitoba and whether his evidence should have any weight. It was, however, agreed that the local organization and one of that body, Thursday is the day set to hear all delegations on the bill, which was not taken up today.

## AUTOMOBILE DEATHS HIGHEST IN CHICAGO

One Month Shows Twice as  
Many Pedestrians Slain as  
in New York.

Special to The Advertiser.  
Chicago, Feb. 6.—More deaths occurred in Chicago from automobile accidents than in any other city in the world, Coroner Oscar Wolf declared today, following an investigation of traffic conditions in New York, Philadelphia, Boston and Washington.

The automobile toll in Chicago last month was nine times that of the entire state of Massachusetts, Wolf said. "Twice as many pedestrians are slain by automobiles as in New York and three times as many as in Washington."

The death toll from automobiles for 1923 reached 63 today.

## CONSIDER CAMPBELL AS NOMINEE IN ESSEX

Conservatives Strive for Strong  
Candidate To Contest  
Kennedy Seat.

Windsor, Ont., Feb. 7.—Conservatives of North Essex are bending every effort to insure the selection of a strong candidate at the party convention, which takes place Wednesday afternoon, and are looking forward to a strenuous fight for the seat made vacant through the death of Hon. W. C. Kennedy.

A new possibility for the nomination was being discussed today in the person of Malcolm G. Campbell, general manager of the Kelsey Wheel Company and a former president of the chamber of commerce. Others prominently mentioned are Mayor H. W. Wilson, W. F. Mitchell, A. D. W. Wilson, W. Wilson, local barrister, Walker Whiteside, Col. E. S. Wigg, K.C., and Dr. Paul Poisson, mayor of Tecumseh.

Harry J. Neal, who opposed Mr. Campbell at the last general election, will, it is believed, have the opportunity of accepting or rejecting the nomination.

At a party caucus held Monday evening, it was decided to raise a campaign fund by a canvass of party members in the riding.

## FOUR ARMED IRISH IGNITE PATHE FREIRES OFFICES

Associated Press Despatch.  
Dublin, Feb. 6.—Four armed men, using gasoline and possibly a mine or a bomb in addition, set fire to the Pathe Freires offices here today. Four girls and one man of the staff were injured by debris from the explosion. Two civilians in the street nearby also were hurt. Before firing the premises, the raiders placed a staff of girls and men in an upstairs room, from which they escaped only by a precipitate flight downstairs while the building was burning.

## WANTS FRANCE JUSTIFIED IN INVADING THE RUHR

Special to The Advertiser.  
Paris, Feb. 7.—Senator Walter Edge, New Jersey, in an interview stated Tuesday that France was justified in invading the Ruhr Valley to collect reparations from Germany, but expressed the doubt that her effort would be crowned with success.

## TO CANCEL CERTIFICATES OF INTOXICATED DRIVERS

Canadian Press Despatch.  
Windsor, Feb. 6.—Without dividing the legislature last night passed a proposal for imposing additional penalties on persons convicted of driving automobiles while in an intoxicated condition. The penalties take the form of cancellation of driving certificates for six months in the case of a first offense, and for twelve months in the case of a second offense.

## STURDY SCOTCH WILL COME OUT TO CANADA

Immigration Department Makes  
Coup in Securing Hardy  
Workers

### OF HIGHEST QUALITY

Party of 800 Men and Women  
Will Shortly Arrive in  
Ontario.

By HENRY SOMERVILLE.  
Special Cable to The Advertiser.  
by a Staff Correspondent. Copyright.

London, Feb. 7.—The Ontario immigration department has shown enterprise and originality and has made a brilliant coup in the campaign for emigrants of quality. A party of 800 young men and women of sturdy Scottish stock are being brought from the Hebrides for work in Ontario, the men on farms and the women in houses. Their ages are from 19 to 30.

A representative of the Ontario office is now in the Hebrides visiting all the islands, and is delighted with the reception he has met with.

The prospective emigrants have been brought up in rural life and are accustomed to all farm activities. Living the bleak Atlantic coast islands, they are inured to every hardship and are of magnificent physique. Even in the remotest settlements of Ontario the isolation is not greater than on the Hebrides.

"These people won't be lonely where they may find themselves in Ontario," said Agent-General Noxon today. When the party is completed a ship will call at Stornoway, and the Hebrides ports to embark the emigrants.

This will constitute an event in Scottish migration history unparalleled since the days of the clearances in the early nineteenth century when brought so many Highland settlements to Canada.

Hitler's Chief Lieutenant  
Taken Into Custody by  
Bavarian Officials.

Special Cable to The Advertiser.  
Munich, Bavaria, Feb. 6.—Herr Ludwick, one of the lieutenants of Adolf Hitler, leader of the German National Socialists, has been arrested on a charge of treason.

Ludwick, when taken into custody, possessed large quantities of French and American money. This strengthened the belief of governmental authorities that the Fascist movement is being supported by outside agencies.

Hitler issued a statement following the arrest of his aide, in which he denied accusations that France was supporting his movement.

The source of large sums of money which have been considered by Hitler's organization on uniforms and military equipment has been a matter of grave concern to Bavarian officials. France has frequently been accused of supplying the funds with the desire of separating the state of Bavaria from the German Reich.

## NEWFOUNDLAND TIED UP BY SEVERE WEATHER

Islanders Experience Conditions That Demoralize Rail and Ocean Traffic.

Canadian Press Despatch.  
St. John's, Nfld., Feb. 7.—Railway and steamship traffic has been abandoned, owing to the severe winter conditions experienced in Newfoundland for many years. While the interior of the island is covered by deep snow and heavy frost, fierce gales along the coast have cut off communication with the outside.

The cold wave set in Saturday night, the temperature gradually dropping to ten below zero in this district. The mail boat Kyle, which left this port Saturday midnight for St. John's, N.S., has gone no further than the vicinity of St. Pierre, Miquelon, late today. The vessel there reported by radio that she was holed with mountainous seas running. The Kyle has been three days covering half of a trip usually made in 24 hours.

To add to the difficulties of navigation tremendous ice-floes are reported off the eastern coast and the grand banks, seriously impeding all ocean shipping.

## INGERSOLL ASKS \$1,000 FROM ROOT COMPANY

Town Claim Organization Has  
Defaulted in Labor Agreement.

Special to The Advertiser.  
Denver, Col., Feb. 7.—Lou Tellegen, it became known here Tuesday by his own announcement, will not contest the divorce proceedings of Geraldine Farrar, his wife.

Geraldine, whose union with Tellegen was once believed to be one of the happiest in the professions of opera and the stage, is now going ahead with these proceedings in New York.

Lou on tour in the west said: "I have instructed my attorney not to oppose the lady in any way in the winning of her divorce."

"Last week when I read in the California papers that there was to be a hearing, I wired him to do nothing to oppose her. That is the quickest way to get it over."

Lou emphatically refused to discuss the case any further. Neither would he discuss his alleged friendship with a noted motion picture actress whose name it is said may figure in Gerry's depositions.

"I see no reason," he said, "why my private affairs should interest anyone."

## LABOR PARTY WILL HOLD BRANTFORD CONVENTION

Special to The Advertiser.  
Brantford, Feb. 7.—A convention of the Provincial Independent Labor party takes place in Brantford on Good Friday, March 30. Mr. J. Matthews last night presided over a meeting of the local branch of the party, when arrangements were made for the reception and entertainment of the delegates. A large attendance is expected.

## SAYS BOOZE SET OUT FOR THE HYDRO CAMP

James Calvert Makes Statement  
Before Gregory Commission  
at Toronto.

### FIND MANY DRUNKS

Claims He Stopped Dozens of  
Crap Games at Queen-  
ston Camp.

Special to The Advertiser.  
Niagara Falls, Ont., Feb. 7.—That several truckloads of booze left Thorold in 1921 for a hydro construction camp near Queenston was one of the statements made yesterday morning to Gregory inquiry. This statement was made by Jas. Calvert, who was employed as special officer by the hydro-electric power commission during that year. Witness said that he had found many men fighting and indicated that he had never succeeded in finding any liquor supplies in the camp.

"You think when you went round they got the booze away?" asked Mr. Gregory. "Would it would stay away?" replied witness. He stopped several trucks containing "top bottles," from going in. Calvert, who is manager of the Larkin farm, did night duty at the camp. In addition to stopping liquor traffic, he has consisted in preventing gambling. He had stopped dozens of crap games, he said, and had arrested several men for drunken and disorderly conduct. Calvert admitted that he used to have parties at his own house, and with liquor had been found in a stock of five cases at his home. Mr. Acres, a hydro engineer and another amongst Scriven were mentioned as having been found in the camp. Calvert declined to give other names.

Cross examined by Engineer Gaby, the witness said that many empty bottles had been found in surrounding bushes. Answering Chairman Gregory, he said: "The worst time was after pay day, and it took some men considerable time to get over the effects of intoxication."

Secretary Pope, pointed out that the hydro had asked for a force of provincial police to deal with the liquor traffic. These officers reported that much of the supply came from over the river. Engineer Gaby stated that the hydro had made every effort to stop the traffic by the erection of fences and close scrutiny at the gates.

## TEN THOUSAND WOMEN WALK OUT IN NEW YORK

Demand Elimination of Sweat  
Shops and Establishment of  
Minimum Wage.

Special to The Advertiser.  
New York, Feb. 7.—Industries for women's and children's clothes may be demoralized as the result of strikes which began Tuesday and are scheduled to increase Wednesday.

Ten thousand women employed as bathrobe, kimono, house dress and children's wear workers, walked out of 400 shops and new garment shops Tuesday demanding elimination of sweat shops and the establishment of a minimum wage plan to strike Wednesday. 30,000 dress and waist-makers threaten to walk out of 2,000 shops, because employers refused to grant a 40-hour week and the right of union agents to inspect the factories. A fund of \$600,000 has been raised to continue the protest, union leaders said.

## PROPOSE WEST SECEDE FROM REST OF CANADA

Movement On Foot in Alberta  
Legislature For Separate  
Dominion.

Special to The Advertiser.  
Edmonton, Feb. 7.—There is a well defined and fairly well organized movement among certain members in the Alberta Legislature for introducing a motion favoring the secession of the four western provinces from the rest of Canada. No such resolution has been introduced, but such a move is considered, and such a resolution may be introduced during the next few days.

The resolution is not for secession from Britain, but secession from Canada. The supporters of the policy look upon the resolution as something which will show the people of the East, the temper of the West. They complain that the West is not receiving its fair share of federal aid, and this will be an indication of the atmosphere.

A similar resolution was placed before the grain growers at the Saskatchewan convention. There is no explanation that the resolution would carry, but it is considered possible that it might get the support of a number of members.

## NEGRO THUG USES PEPPER AS WEAPON IN HOLDUP

Special to The Advertiser.  
Washington, Feb. 7.—With a handful of pepper as a weapon, a negro Tuesday attempted a bold hold-up of a jewelry store here.

Miss Rose Goldstein, a clerk, was in the store when the pepper bandit entered. He started toward the safe and when she followed, turned and threw the spice in the girl's eyes. She screamed and he fled. At a hospital it was said she will regain her sight.

## WILL GIVE BREAD FREE WITH GROCERY PURCHASE

Special to The Advertiser.  
Chicago, Feb. 7.—Bread is to be given away in Chicago in one of those rare instances where the consumer is the winner instead of the goat.

After a week's price war with another chain of stores, the Piggly Wiggly Stores announced that they would give a loaf of bread away with every purchase of groceries. Meanwhile, bread was sold in the 88 Piggly Wiggly Stores Tuesday for two cents a loaf, a price unprecedented.

Bread will now be given away for an indefinite period. C. S. Wyatt, general manager of the Piggly Wiggly Stores declared.

## DECLARES INFLUENZA PREVALENT IN NEW YORK

By ROYAL S. COPELAND, M.D.  
Health Commissioner of New York City.

New York, Feb. 7.—Although there is not an epidemic of influenza in New York City at present, the recent increase in cases has reached dangerous proportions elsewhere, and particularly in the Southern States. There were reported in New York City Tuesday 189 new cases of pneumonia, and 275 cases of influenza. When that many new cases of influenza are reported there might be as many as 3,000 cases which are not reported.

Influenza is a contact disease.

## BAN KNICKERS.

Special to The Advertiser.  
Hamilton, Feb. 6.—The teacher at the Beach schoolhouse has placed a ban on knickerbockers when worn by girls, and has warned girls who affected them to come properly attired in the future.

AIDS MEDICAL DISCOVERY.  
"Mutt," canine scientist, is the dog whom Drs. Banting and Best of Toronto were treating when they discovered their insulin cure for diabetes.

## Will Not Make Court Dumping Ground For Soiled Linen From All Canada

Special to The Advertiser.  
Detroit, Mich., Feb. 7.—"Wayne County cannot be made a wide-open dumping ground for the soiled linen of all Canada, so far as my court is concerned," declared Judge Jayne, presiding in circuit court yesterday afternoon, when he refused to sign a decree of divorce sought by Mrs. Minnie McKinley.

Mrs. McKinley, who gave her address in Detroit as 2028 Howard avenue, told the court that her husband, David, is a butcher in Toronto, where he earns a large wage. Their children, both grown, are also living in the Ontario city, and the judge's questioning brought out the further fact that Mrs. McKinley's divorce action had been started a few days after her own stay in Detroit had passed the two years specified by law.

"When you receive your decree do you intend to remain in Michigan or go back to Toronto?" Judge Jayne asked the petitioner.

"Why I may go back to Toronto," was the reply.

"I will not sign a decree in this case," declared the judge with finality. There is evidently an intention on the part of this complainant to come to Detroit from her Toronto home for the sole purpose of securing her divorce, to remain here just long enough to secure it and then go back to her real home. This is an attempt to trick the court and to defy the spirit of the law, and I will not be a party to it. The suit is dismissed."

## PROPOSE TO CONSTRUCT A NEW PANAMA CANAL

American Cabinet Members  
Discuss Best Ways of Financing  
Undertaking.

By RAYMOND CLAPPER.  
Special to The Advertiser.  
Washington, Feb. 7.—A project to cut a second canal across the isthmus of Panama has reached the point where President Harding and his cabinet have discussed ways and means for the undertaking.

The fact that the Panama Canal showed receipts last month of \$1,500,000, with prospects of these being steadily increased, leads the president to believe that a surplus can be built up which could be used for digging a new water passage between the Atlantic and Pacific oceans. Harding favors devoting profits to this purpose instead of reducing tolls.

The old Nicaraguan route is most favored by army engineers, who have been working quietly for some time toward a tentative plan. Estimates. Diplomatic differences in the way have engaged the attention of the state department.

Mr. Dean has been a resident of this city for the past 16 years. He was a member of H. O. L. No. 759. He has no relatives in this country. A preliminary inquest opened today, but was adjourned until next week.

## NEW TRADE PACT WILL CONTINUE FOUR YEARS

Pact Between Canada and Italy  
Is Tabled in House of  
Commons.

Canadian Press Despatch.  
Ottawa, Feb. 7.—The principle of most favored nation treatment is the essence of the trade treaty between Canada and Italy, which was tabled in the House of Commons yesterday by the minister of finance.

Canada and Italy grant to each other reciprocally the benefit of the lowest tariff duties granted to the products of any other foreign country.

Similarly it is provided that any export duties charged to either country shall not be higher than those imposed on exports to any other foreign country.

The products of either country passing through the other shall be exempt from all transit duties.

As in regard to import and export taxes, the agreement further provides that no restriction or prohibition shall be maintained against imports or exports from or into either country that is not applicable to the case of all other foreign countries. But this is not to prevent the adoption of sanitary or other prohibitions occasioned by the necessity of protecting the safety of persons or cattle or of plants useful to agriculture.

The treaty extends automatically to Italy the benefits of the treaty with France.

The agreement applies to the colonies and possessions of Italy in the same way as to that country itself.

The new treaty is to come into effect after being ratified by the Canadian parliament and by competent authority in Italy, and is to remain in effect for four years. If not terminated at that time by notice, it continues to remain in force subject to ratification.

## LABOR PARTY WILL HOLD BRANTFORD CONVENTION

Special to The Advertiser.  
Brantford, Feb. 7.—A convention of the Provincial Independent Labor party takes place in Brantford on Good Friday, March 30. Mr. J. Matthews last night presided over a meeting of the local branch of the party, when arrangements were made for the reception and entertainment of the delegates. A large attendance is expected.

## FRENCH TROOPS MOVE FARTHER INTO GERMANY

Army Bores Deeper Into Fatherland in Effort To Overwhelm Resistance.

### SEIZE BADEN TOWNS

Seek To Rescind Cancelling of  
Trains On Paris-Prague  
Road.

Special Cable to The Advertiser.  
Dusseldorf, Feb. 7.—The French Army is on the march again into the Fatherland, with orders to break the dominant will of the Germans.

France bored deeper into Germany Tuesday, when the Germans openly committed acts of sabotage, endangering the entire transcontinental railroad system.

These two important troop movements were made in reprisal for the stubborn German resistance.

Occupation of territory in Baden, to the right of Lorraine, was extended when Polish marched into Urfen, the third town of the state to be seized by the French. This move was taken to force the Germans to rescind orders cancelling all express train service on the Paris-Baden-Prague Railroad.

The City of Godeffau, an important railway centre in Hesse, which is only 30 miles from the State of Bavaria, was also occupied.

Reports from other parts of the Rhineland state that the French Army is either on the march or holding itself in readiness to advance on short notice.

It is generally believed that General Weygand, chief of staff to Marshal Foch, and M. Lefevre, French minister of public works, issued the orders for the French advance. The two conferred with General DeGaulle, the French Commander-in-chief Tuesday.

Passive resistance of the Germans in Appenweier and Offenbach, the Baden towns, which were occupied on Sunday, has forced the French to back down somewhat from their drastic military course.

## M'NEIL TO EXPLAIN VETERANS' PROBLEMS
