OL 10. homors—purify the fluids

purify the system from mewhere in the body not obstracts its natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering, and disease. While in this condition, oppressed by the derangements, take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint, is also true in many of the deep-seated and dangerous distempers. The same purgative effect expels them. Caused by similar obstractions and derangements of the natural functions of the body, they are rapidly, and many of them surely, cured by the same means. None who know the virtues of these Pills, will neglect to employ them when suffering from the disorders they cure.

Statements from leading physicians in some of the principal cities, and from other well-known public persons:

From a Forwarding Merchant of St. Louis, Feb 2, Dr. Avers: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her.

ASA MORGRIDGE.

As a Family Physic.

From Dr. E. W. Cartwright, New Orleans.

Your Pills are the prince of purges. Their excellent qualities surpass any cathartic we possess. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease.

Headache, Sick Headache, Foul Stemach.

From Dr. Edward Boyd, Baltimore. As a Family Physic.

From Dr. Edward Boyd, Baltimore.

Dar Bho. Ayer: I cannot answer you what complaints I have cured with your Fills better than to say all that we ever treat with a purgative medicine. I place great dependence on that effectual cathartic in my daily contest with disease, and believing, as I do, that your Fills afford us the best we have, I of course value them highly.

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst headache anybody can have by a dose or two of your Pills. It seems to arise from a foul stomach, which they cleanse at once.

Yours with great respect, ED. W. PREBLE.

Clerk of Steamer Clarion. Bilious Disorders - Liver Complaints.

From Dr. Theodore Bell, of New York City.

Not only are your Pills admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the Liver very marked indeed. They have in my practice proved more effectual for the cure of bilious complaints than any one remedy I can mention. I sincerely rejoice that we have at length a purgative which is worthy the confidence of the profession and the people.

DEPARTMENT OF THE INTERIOR.

DEPARTMENT OF THE INTERIOR,

JET I have been since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of that organ. Indeed, I have seldom found a case of bilious discase so obstinate that it did not readily yield to them. Fraternally yours, ALONZO BALL, M. D.,

Physician of the Marine Hospital.

Dysentery, Diarrhesa, Relax, Worms.

From Dr. J. G. Green, of Chicago.

Your Fills have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. Their alterative effect upon the liver makes them an excellent remedy, when given in small doses for bilious dysentery and diarrhesa. Their sugar-coating makes them very acceptable and convenient for the use of women and children.

Dyspepsia, Impurity of the Blood. From Rev. J. V. Himes, Pastor of Advent Church, Boston.

Dr. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in distress. To regulate the organs of digestion and purify the blood, they are the very best remedy I have ever known, and I can confidently recommend them to my friends.

Yours, J.V. HIMES.

WARSAW, Wyoming Co., N. Y., Oct. 24, 1855.
DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the fountains of the blood.

Constipation, Costiveness, Suppression, Rheumaism, Gout, Neuralgia, Dropsy, Parelysis, Fits, etc.

From Dr. J. P. Vaughn, Montreal, Canada, Too much cannot be said of your Pills for the cure of costiveness. If others of our fraternity have found them as efficacious as I have, they should join me in proclaiming it, for the benefit of the finititudes who suffer from that complaint, which, although bad enough in itself, is the progenitor of others that are worse. I believe costiveness to originate in the liver, but your Pills affect that organ and cure the disease.

From Mrs. E. Stuart, Physician and Midwife, I find one or two large doses of your Pills, taken at the proper time, are excellent promotives of the natural secretion when wholly or partially suppressed, and also very effectual to cleanse the stomach and expel worms. They are so much the best physic we have that I recommend no other to my patients.

best physic we have that I recommend no other to my patients.

From the Rev. Dr. Hawkes, of the Methodist Epis. Church.

PULASKI HOUSE, Savannah, Ga., Jan. 6, 1856.
HONORED SIR: I should be ungrateful for the belief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on excruciating neuralgic pains, which ended in chronic rheumatism. Notwithstanding I had the best of physicians, the disease grew worse and worse, until by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Fills. Their effects were slow, but sure. By persevering in the use of them, I am now entirely well.

SENATE CHANEER, Baton Rouge, La., 5 Dec., 1856. Dr. Ayer: I have been entirely cured, by your Pills, of Rheumatic Gout—a painful disease that has afflicted me for years.
