WOMAN'S TRIUMPH.

Managed Her Work So Well hat It Equalled the Efforts of Professionals.

ile it is well known that any woman elligence can do as good work with iamond Dyes, and at less than half the arged by professional dyers in city lye houses, yet there may be some who doubt the statement. The fole who doubt the statement. The folgextracts from a letter written by J. Gardner, of Owen Sound, Ont., a that Diamond Dyes are unequalled: sere was a man in our town go house to house taking orders for to dye house fof the dyeing of garments and clothes. I had ju off the line some goods that I have the Diamond Dyes, and showed he could do as good work as any described. with Diamond Dyes, and showed he could do as good work as any de. He honestly admitted that I we about my work with Diamond Dyes laving a large family I use Diamond to economize. I have always the best coess with your dyes, and must say am more than delighted with your for dyeing cotton."

AN OLD MINER'S STORY. Mr. W. F. Sargent Back From a Short Trip

Klondyke Pay Streaks So Rich That the Golden Glitter Obscures the Gravel.

Great Discoveries on Newer Creeks -Incidents of Life at Dawson City.

Dave Thompson, a man who is known throughout all Alaska for his straight thing in shape before he leaves, so that dealing and integrity, to quote the water can be turned on the first thing in Juneau Miner, has been interviewed yery recently by that paper on his return from the heart of the Klondyke district. He was asked to tell the truth, the whole truth and nothing but the truth whole truth and nothing but the truth to work or the heart of the Klondyke district.

The Slough Creek Co. 1s working the steadily and gradually finishing up the drainage problem so as to get in preparation for working the property.

Mr. Laird, who is operating on Willow within a month to work or the heart of the pragon.

and said:
"I was standing on a claim on Bonanza
"I was standing on a claim on Bonanza creek, talking to a man about the won-derful richness of the diggings, and he said to me, pointing to the next claim, 'I worked on that claim there last win-'I worked on that claim there last win-ter, and the pay streak was seven feet wide on bed rock and you could hold a candle six feet away and see no dirt, nothing but the glitter of gold so thick (holding up his three fingers); and for several hundred feet the claim prospects equally well on the surface."

"Do you know what were the actual country of the weeking on that desire?"

results of the washing on that claim? Yes, he said the man had taken out \$15,000 by drifting ten feet wide and twelve feet long from the shaft which was 4x6 feet and about fifteen feet deep. "You know there are several feet of black muck on the gravel, and then you go down until you strike bed rock, which of slate and appears to be This looks as if nothing would penetrate

it, but there are small seams and slits through it, and this bedrock for a depth of two feet is rich in gold.' Did you ever notice any quartz on the gold dug from the creeks? "Yes, some, but strange to say the quartz which is found at different places in the vicinity, bears no resemblance to the quartz found on the gold.
"Shocking of the profile of the control of the quarta found on the gold."
"Shocking of the profile of the control of the quarta found on the gold."
"Shocking of the profile of the control of the control

"Speaking of nuggets, did you ever know a man named Goldie?" "Well, the day I left I saw Goldie in Dawson, and I said to him: I wish I had some nuggets to take out to show to people, and he replied: 'How many would you like to have? As many as this,' and with that he pulled out of his pocket a large handful, all sizes, nothing aller than a marble, and laughingly held them towards me.
"There is a total disregard of the

value of the precious metal in Dawson.

"Why, one day I was in a place of this description, and in front of the bar was a long box filled with sawdust. This sawdust, owing to frequent expectora-

"Gold! Why, there is nothing but gold unless it is whiskey. When the Alaska Commercial Company was moving the contents of its safe from the old "Raise up your voice, great Britain's child And let it pierce the sky, as tales are told of doughty deeds, Perform'd in days gone by. ing the contents of its safe from the old and temporary building at Dawson into its new one, I was one of five men who helped to carry its contents. Some strong boards about 3 feet long were nailed together with a handle at each corner, and the sacks of dust and nuggets were piled up on the top of it, and it was all five of us could do to pack it 250 feet."

Perform u in days gone by.

The deeds of brothers' brave, Who cross'd the seas to make a home For freedoms flag to wave.

Then Rose and Lily join'd by love Each others rights will shield, and back to back with stalwart arms To foeman ne'er will yield.

'How much did each lift?" "I don't So loose your flag oh Canada, know how much the others lifted, but I packed every bit of 200 pounds. Yes, and in addition to this the company's As token of a race, Ready to fight than suffer wrong, and every danger face. superintendent carried a box containing nuggets and coin, and it was about all he could lift.

"About 500 boats were met with on

the trip up the river, and they averaged four men to the boat. Sixteen boats were counted in sight at one time. I went into the Yukon on April 5 of this went into the Yukon on a structure of the structu year, and left Dawson to return on September 8. My travelling companion was Frank Scott. I have what I regard as a good claim and will return in the spring. There are 6,000 men at Dawson now. A small barge arrived before I left with the Arctic machinery in her. She had 200 regular monthly trips during the winter sacks of flour, window glass and whiskey.

Usual Great Increase.

Montreal, Oct. 25.—C. P. R. traffic receipts for the week ending October 21 were \$619,000; for the same week last year \$484,000.

Mackay's what at severation, out is amused at the idea that any damage done either by his boat or the Tekoa amounted to \$300.

Coughs colds, pneumonia and feve s may be preve ted by keeping the blood pure and the system toned up with Hood's Sarsaparilla.

Mr. W. F. Sargent, secretary of the Slough Creek Mining Co., has just re-turned from a months' visit to Cariboo in the interests of his company. Speak-ing generally of the Cariboo district Mr. Sargent says the large amount of work done by the various companies, together with the increased attention which Cariboo has attracted, will make things years lively in this next of the required. very lively in this part of the province next spring. The Cariboo Gold Fields Co. have their pipes all in, and Senator Campbell is at present there seeing the

They have to put up, too, with one mail a year, and hall with pleasure the visits of the whaling vessels which all there as they pass.

Mr. and Mrs. Gambell vere too busy to be lonesome. They had plenty of books and other reading matter, but had only time at night to read. They have to put up, too, with one mail a year, and hall with pleasure the visits of the whaling vessels which all read only time at night to read. They have to put up, too, with one mail a year, and hall with pleasure the visits of the whaling vessels which all read only time at night to read. They have to put up, too, with one mail a year, and hall with pleasure the visits of the whaling vessels which all the call the other reading matter, but had only time too busy to be lonesome. They had plenty of books and other reading matter, but had only time at night to read the call the object of the whaling vessels which and the call the object of the wall matter, but had only time too busy to be lonesome. They had plenty of books and other reading matter, but had only time at night to read the call the object of the wall more than the object of the wal

London, Oct. 25.—The general disposition to increase naval armaments can be gauged by the fact that 87 warships are being built in Great Britain alone. The aggregate displacement is 318,612 tons. Of these 87 warships, 34 go to foreign governments.

A Thousand Slain. Simla, Oct. 25.—The losses of the tribesmen at the storming of Dargai ridge were 1,000 killed and wounded.

ONE HONEST MAN. ONE HONEST MAN.

Dear Editor.—Please inform your readers, that if written to confidentially, I will mail, in a sealed leter, partition to confidentially, I will mail, in a sealed leter, partition to confidentially, I will mail, in a sealed leter, partition to the confidential was permagnile, hones, home cure, by which I was permagnile, hones, home cure, by which I was permagnile, hones, home can in a least of the confidential was permagnile, and wish runken parts, I was robbed and swindled by make shrunken parts, I was robbed and swindled by make shrunken parts, I was robbed and swindled by make this certain means of cure known to all sufferers. I have nothing to sell and want no money, but being a firm believer in the universal brotherhood of man, I am desirous of helping the unfortunate to regain their health and happiness. I promise you perfect secrecy. Address with stamp, WM. T. MULFORD, Agents' Supplies, P.O. Box 59, St. Henri, Que.
