This was the first of a series which the principals intend giving. The evident appreciation of it by the guests will doubtless be gratifying to those upon whom the labor of organi levolved.

devolved.

The program was a varied one, consisting of instrumental and vocal selections, both solos and concerted pieces, and recitations or readings in French, German and Italian. Amongst the other names of those who acquitted themselves admir ably may be mentioned Miss E. Withrow's recitation from Schiller, Misses J. and G. Firth's duett "Traviata." Miss Outerings, at a time when, perhaps, more than at any other, the wisdom of holding on was evident. I refer to the view expressed by the writer of the article in question that parliament, in consenting to reductions of stock, when losses have been sustained, of stock, when losses have been sustained, makes it a rule not to lessen the liability of the shareholders, and in reference to the proposed reduction of 50 per cent. by the Federal bank, that it would follow the shareholders will be liable for four times the amount of the reduced value of the shares. Firth's duett "Traviata," Miss Outer bridge's spirited recitation of "Il Delatore," Mlle. La Jeune also showed possession of a beautiful voice in her singing of Cowen's "It was a Dream."

At the close of the entertainment one or hares. Although the writer goes in to say that "this liability will be

A pleasing innovation, and one which the guests will doubtless without exception hope to see repeated, was the permission to indulge in an hour's valsing.
