Come the Consisten of Stars.

One we would'r it astronomers should already boldly entertain the thought of making a complete survey of the heaven's by means of photography? Admiral Monohez has shown that in the coarse of ten years (sily 15.000,000) of stars might be made to record their exact position and true relative brightness in a series of larre photographic charts! Nothing done by man since astronomy was a science can be compared with such a work as this, which yet might be well accomplished in a decade of years. But even all this, wonderful as it is, seems less impressive thart what has been done and what astronomers are even now planning to do, in applying the photographic eye of science to analyzing the structure of remote suns. proprietor of "JUNE OF LIFE" The proprietor of a suffering over 20 years from it.

Mr. John Sennott, of Toronto, writes: "I suffered from Asthma when a child, and for nine years, taking many medicines without relief, till I got two bottles June of Life,' which cured me completely, and I can recommend it to other sufferers from Asthma.

Mr. Robenson, of 21 Arthur-street, Toronto, writes: "I take great pleasure in recommending your June of Life to parties suffering from Asthma. I was a great sufferer from it for eight years, and tried every kind of Remedy I heard of, as well as a great many doctors, without relief. I was unable to lie in bed for a week at a time, and was seldom free from suffering till I took your 'June of Life,' about six years ago. Since then I have been a different man, never losing any rest or suffering any inconvenience from it since, and I think any one giving it a fair trial cannot fail to receive benefit by its use.

Chronic

of this disagreeable disease

cured by taking Ayer's Sarsaparilla. **I have always been more or less troubled with Serofula, but never seriously until the spring of 1882. At that time I took a severe cold in my head, which, notwith-standing all efforts to cure grew worse, and finally became a chronic Catarrh. It was accompanied with terrible head-aches, deafness, a continual coughing, and with great soreness of the lungs. My throat and stomach were so polluted with the mass of corruption from my head that Loss of Appetite, Dyspepsia, and Emaciation totally unfitted me for business. I tried many of the so-called specifies for this disease, but obtained no relief until I commenced taking Ayer's Sarsaparilla. After using Ayer's Sarsaparilla, of which I have now taken five bottles. The Catarrh has disappeared, and my health is fully restored.—Susan L. W. Cook, 909 Albany street, Boston Highlands, Mass.
