GENTLEMEN,—I have much pleasure in moving the adoption of a report which must be very satisfactory to the shareholders.

It will be noticed that our collections, notwithstanding the low pieces of farm produce, have been greater than in any previous year. The demand for money has continued good and the rates fair. So far as can be judged so early in the season, the prospect for good crops in Ontario is fair. The farmers are going more into stock-raising and dairy-farming. It is true that Ontario is well adapted for grain growing, but it is equally well adapted for mixed farming, and the future prosperity of the farmers of this province will very much depend on their cultivating less acreage of wheat and barley and devoting a larger proportion of their capital and energy to the raising of stock and carrying on of dairy farming.

It is pleasing to be able to report so large a sum as \$280,000 has been paid back by borrowers in Manitoba, and to add that the prospects in that province were never bright-

sum as \$230,000 has been paid back by borrowers in Manitoba, and to add that the prospects in that province were never brighter. Our general agents there, speaking of the crops, say: "Wheat is in a splendid condition throughout the country. So far this has been a model spring, dry, fine weather for the seeding and nice quiet rains for some time past. The farmers are very much encouraged, and certainly have their land in better shape than for many a season. The acreege sown is much larger than last year and every care has been taken in seeding and working the land."

It may be added that during the past year many miles of branch railways have been built and they are being rapidly extended this summer. In the near future every farmer in Manitoba will be within a reasonable and easy distance of a railway station; in other words the markets for all kinds of stock and farm produce are being located almost at the doors of the enterprising farmers of our prairie province.

most at the doors of the enterprising tarmers of our prairie province.

Under all the circumstances we have had a very prosperous year, having paid a dividend of 10 per cent. and carried over \$31,000 to contingent account. The prospects of being able to pay a similar dividend this year are quite as good as they were a year ago. But the board feel they must consider not what may be the probabilities of any one year, but what is for the best interest of the bond-holders and stockholders for a number of

what is for the best interest of the bondholders and stockholders for a number of
years. The continued credit and safety of
the company should be our care and must be
provided for.

Our policy has been to confine our investments to the older and better sections of this
province, to avoid poor counties or poor
sections of counties. We very rarely make
loans on village property and in towns and
cities we confine our operations to the central
localities, where values are well established.
We have avoided loaning in the districts of

Having been a party to these negotiations you will know whether I am right or not. As to whether the agreement is a wise one or not I am scarcely in a position to judge, but my present opinion would be adverse; however, this is a matter entirely for the committee and the council. The Anniversary of "Lo Statuto." Riverside Park: This fete is the annual anniversary of the granting of the constitution by King Carlo Alberto. The beautiful flag of sunny Italy, a piece of elaborate workmanship, the skilful product of an Italian citizen, was carried side by sade with our national ensign. The various Italian business houses were closed. The Hon-President, A. M. Giannelli. Dr. Cassidy, the society's medical officer: Prof. Crimella of Milan, Italy; Hugh McGuire of Montreal, ex-President R. Lauria and ex-Vice-President G. Massay delivered stirring addresses. The occasion was universally pronounced one of the most enjoyable ever held by the Italians in this city. Games, sports and other amusements were indulged in. This society, it might be added, is in a flourishing condition. The officers of the day were: President, A. Grossi; vice-President, G. Mombretti; Secretary, R. Brancieri, Assistant-Secretary, I.
