# IMPROVED CHAMPION INCUBATOR.

Poultry raising by the use of Incubators and brooders will be given a boom by the introduction of the Im roved "Champion" Incubator, as the Manufacturers, the Famous Mfg. Co. of Chicago, are the first and well known manufacturing company in the country to begin the manufacture of Incubators and Brooders.

Artificial incubation has long been recognized as a success, but the well known fact that the manufacture of incubators was one of the modes by which unscruptous parties have swindled the public, has deterred many from using the Incubators who otherwise would.

The Improved Champion Incubator was invented and patented by one of the officers of the Company, who has had years of experience in operating and manufacturing them, so that they are no experiment, but have been tested and tried. Many improvements have been added to the machine, and as now manufactured by the Famous Manufacturing Co., it will no doubt meet with success and give the highest satisfaction wherever introduced. Those who intend to buy incubators and brooders should not fail to address the company for a descriptive catalogue of the Improved Champion.
