

"BUILT TO LAST A LIFETIME."

BELL Pianos and Organs

Are Acknowledged Leaders in the
Canadian Trade.

.....

As in the case with all "Leaders," they are the Standard accepted by other makers, and by many as fitting subjects to imitate in whole or part.

We are making constant study how to supply the musical public with new creations, not as mere works of art or experiment, but by combining the highest class of materials, under expert influence and direction, to give results, which inwardly are musically, scientifically and mechanically above criticism, while outwardly our artists have given an individuality which places

BELL PIANOS AND ORGANS

in a sphere distinctly their own.

Individual success is frequently made the object of attack by those who have struggled without acquiring fame. The name "Bell," which for 36 years has marked instruments of the highest rank only, has reached a point beyond all reproach.

.....

Musicians everywhere, and responsible Dealers in unrepresented territory, are invited to correspond with us.

.....

The Bell Organ and Piano Co., Limited,
GUELPH, ONT.

LARGEST MAKERS IN CANADA.
