Newcombe

"Never Suffers by Comparison"

**THE NEWCOMBE**  
IS ACCORDED A PREMIER PLACE  
IN THE  
**ARISTOCRACY**  
OF MUSICAL INSTRUMENTS

If a man can write a better book  
. . . . preach a better sermon . . . .  
or make a better mouse-trap than  
his neighbor . . . . though he builds  
his house in the woods . . . . the  
world will make a beaten path to  
his door.

*Ralph Waldo Emerson*

That quotation applies with equal force to the manufacture of a piano with a well-drawn scale and that will stay in tune.

Our claim that the "NEWCOMBE" stays in tune better is based on the application of a scientific principle embodied in the "HOWARD PATENT STRAINING ROD" which is found in no other instrument than the Newcombe.
